Chapter A

Board of Directors' Report on the state of the Company's Affairs

ADAMA

ADAMA Agricultural Solutions Ltd.

Board of Directors' Report for the Quarter Ended June 30, 2026

This Report is limited in scope and should be reviewed together with the 2025 Periodic Report, published on March 27, 2026 (Ref: 2026-01-028506)
(the "**2025 Periodic Report**")

Performance in Context of General Crop Protection (CP) Market Environment[1]

Despite healthy underlying crop protection demand supported by low channel inventories, crop protection pricing remains under pressure in H1 2026. This is mainly due to lower farmer profitability, as well as persistently low active ingredient prices resulting from structural production overcapacity in China.

Farmer profitability remains low despite some easing in input costs, supporting continued just-in-time purchasing behavior. This is mainly due to crop commodity prices expected to remain broadly stable at relatively normal levels, although still sensitive to geopolitical and weather-related risks (e.g El Niño), limiting upside to farmer income. While geopolitical tensions continue to contribute to market uncertainties, inflation and energy prices have stabilized towards more normal levels.

Geopolitical Situation

ADAMA is a global company with manufacturing and formulation facilities in several locations around the world, principally in Israel, China and Brazil. It is headquartered and has three manufacturing sites in Israel. Despite regional tensions that have escalated on February 28, 2026, the Company's Israeli production sites and supply chain, including ports, continued to operate without significant delays allowing the Company to support its markets, and ongoing activities.

During March and early April 2026, the Company's Neot Hovav site suffered limited and localized damages caused by falling debris following missile interceptions in the southern region of Israel. No bodily injuries were reported, and an immediate safety-driven closure of the facilities was carried out, followed by a phased shutdown, also for safety reasons. The Company initiated comprehensive damage assessments. The direct damage to its core production facilities was not meaningful and was primarily limited to a finished goods warehouse, certain ancillary equipment and systems, and an open storage area. Thereafter, the Company undertook certain restoration activities, and as of the date of this Report Neot Hovav site has returned to normal operational status. The Company expects the overall impact of these occurrences to be non-material, also due to appropriate compensation from governmental authorities.

For further details, refer to the Company's immediate reports dated March 30, 2026 (ref: 2026-01-029278) and April 6, 2026 (ref: 2026-01-032036) and the Company's Board of Directors' Report for the Quarter Ended March 31, 2026 (ref: 2026-01-039434).

Additionally, in respect to changes in global tariff policies, despite the uncertainty regarding changes to trade and tariff policies around the world, the Company currently expects that the impact on its operations and business results will continue to be immaterial.

Mergers with Wholly-Owned Subsidiaries

Further to the description of the Mergers approved by the Company's Board of Directors on December 31, 2025, as set forth in Section 1 of the Company's 2025 Periodic Report (Description of the Structural Changes; Material Mergers and Acquisitions), on June 30, 2026, the Mergers were completed, such that ADAMA Makhteshim Ltd., ADAMA Agan Ltd., and Agan Aroma and Fine Chemicals Ltd. (the Target Companies) merged with and into the Company, and the Target Companies were deregistered from the Israeli Companies Register. Following the completion of the Mergers, all assets and liabilities of the Target Companies were transferred to the Company, which is the surviving company.

For more details, see the Company's immediate reports dated December 31, 2025 (ref: 2025-01-105920) and dated June 30, 2026 (ref: 2026-01-061515), incorporated herein by reference.

ADAMA's Strategy Execution

ADAMA continues to advance the next phase of its strategy execution, building on the foundation established through the Fight Forward program. With a more resilient operating foundation, the Company is focused on turning stabilization into profitable growth and sustained value creation. Its strategy prioritizes selective growth in markets, segments and offerings where ADAMA can create clear value for customers and generate attractive returns. Execution is focused on four sources of value: (i) driving portfolio differentiation that meets grower needs; (ii) enhancing commercial capabilities to support profitable growth; (iii) shifting to a more competitive, flexible and asset-light supply and manufacturing network; and (iv) improving organizational design, processes, and systems to support better decisions and create additional value across the business. Across these areas, ADAMA remains focused on improving margins, generating cash, maintaining cost control and directing investment toward the highest-return opportunities.

The Company's assessments with regard to changes in demand for crop protection products, the impact of the regional geopolitical situation on its ability to support its markets or on the Company's business results, potential impacts of the tariff policies on the Company's operations and the Company's strategy execution are forward looking statements, as defined in the Securities Law, 1968. Such assessments are based on the information available to the Company as of the date hereof and may not be realized or be realized in a different manner than the Company estimates, inter alia, due to factors that are not in the Company's control.

In the tables above, numbers may not sum due to rounding.

Relevant income statement items contained in this report are also presented on an "adjusted" basis, which exclude items that are of a transitory or non-cash/non-operational nature that do not impact the ongoing performance of the business, and reflect the way the Company's management and the Board of Directors view the performance of the Company internally. The Company believes that excluding the effects of these items from its operating results allows management and bondholders to effectively compare the true underlying financial performance of its business from period to period and against its global peers. A detailed summary of these adjustments appears in Appendix A below.

[2] CER - Constant Exchange Rates

Analysis of the Company's Results

Revenues

Revenues in the second quarter increased by approximately 1% (-1% in CER) to $980 million compared to last year, reflecting an increase of 3% in volumes and positive foreign exchange impacts, partially offset by 4% lower prices.

The increase in volumes resulted from new product introductions and healthy demand in the market. Lower prices reflected the overall lower market pricing and weaker farmer purchasing power.

These results brought the revenues in the first half of 2026 to $1,930 million, an increase of 5% compared to last year (1% in CER terms), reflecting an increase of 5% in volumes and positive foreign exchange impacts, offset by a decrease of 4% in prices.

Revenue distribution by region

Second quarter sales distribution:

Region	Q2 2026 In Million USD	Q2 2025 In Million USD	% Change in USD	% Change in CER[2]
Europe, Africa & Middle East (EAME)	316	308	2,7%	-2.5%
of which, Israel	43	31	39.3%	16.1%
North America	281	273	2.8%	2.4%
Latin America	209	216	-3.2%	-7.6%
Asia-Pacific[3]	174	171	2.0%	4.7%
Total	**980**	**968**	**1.3%**	**-1.0%**

Half-Year sales distribution:

Region	H1 2026 In Million USD	H1 2025 In Million USD	% Change in USD	% Change in CER[2]
Europe, Africa & Middle East (EAME)	721	662	8.9%	1.7%
of which, Israel	77	60	27.2%	7.9%
North America	517	489	5.7%	5.2

Asia-Pacific	339	330	2.8%	3.5%
Total	**1,930**	**1,845**	**4.6%**	**1.1%**

In the tables above, numbers may not sum due to rounding.

Noteworthy trends and developments in the various geographies affecting the Company's activities

Europe, Africa & Middle East (EAME)

Sales increased in the second quarter and first half of 2026 despite extremely dry weather, low disease pressure and a difficult spring season. Competitive pressure, farmer liquidity constraints and selective application decisions contributed to lower market consumption and higher channel inventories. Against this backdrop, ADAMA outperformed the underlying market, supported by strong channel execution and favorable foreign exchange conditions.

North America

Sales increased both in the second quarter and first half year, presenting mixed performance across the businesses.

In **US Ag**, sales slightly declined in a competitive and price-sensitive crop protection market, as disciplined inventory management and leaner customer inventories continued to weigh on channel replenishment. **Canada** delivered sales growth supported by a balanced portfolio. In the **Professional Solutions** business unit, sales increased in the second quarter and first half year supported by higher volumes, favorable spring weather, despite continuous price erosion in weed control segments. In the **Consumer** business overall sales declined in the second quarter and increased in the first half year following lower pricing and lower private label demand, while supported by favorable spring weather across the US and improved distribution in key channels.

Latin America

In **Brazil,** higher volumes reflected solid commercial execution across key crop seasons, including soybean and corn. However, sales in the second quarter and first half year were impacted by lower market prices, which more than offset the benefit from higher volumes, as lower farmer profitability and increased competition, particularly in commodity products, weighed on pricing.

In **the rest of LATAM,** sales in the second quarter and first half year increased, mainly driven by higher volumes and continued commercial momentum, offset by weak pricing in a highly competitive market. Growth was supported by deeper market penetration and strengthened positions in key markets, and was partly tempered by El Niño impacts and the normalization of channel inventories in parts of the region.

Asia Pacific

The sales in **India** in the second quarter and first half year increased in CER terms driven by higher volume and pricing reflecting continued commercial momentum despite uneven seasonal conditions, including delayed monsoon rainfall and El Niño-related effects on crop protection demand. Significant adverse foreign exchange impacts led to broadly stable sales in dollar terms.

In **Pacific,** sales in the second quarter and first half year increased despite the continued impact of El Niño-related weather conditions, particularly in Northern Australia, where dry conditions affected planting decisions and crop protection demand. Stronger demand in Southern and Western Australia helped offset regional weakness, demonstrating resilient commercial performance in a challenging market environment. Retailers and growers continued to favor just-in-time purchasing patterns amid intense market competition.

During Q2 2026, the Company continued to advance the development of its differentiated product portfolio, obtaining multiple new product registrations and launching several new products.

Gross profit

Reported gross profit in the quarter reached $282 million (gross margin of 28.8%), and reached $567 million (gross margin of 29.4%) in the half-year period, compared to $274 million (gross margin of 28.3%) and $538 million (gross margin 29.2%) in the corresponding periods last year, respectively.

Adjusted gross profit in the quarter reached $285 million (gross margin of 29.1%), and reached $572 million (gross margin of 29.6%) in the half-year period, compared to $281 million (gross margin of 29.0%) and $546 million (gross margin 29.6%) in the corresponding periods last year, respectively.

The gross profit was impacted by higher volumes and improved quality of the business, as well as favorable foreign exchange impacts, offset by lower prices and mild cost increases (only in the first half).

Gross profit distribution by region*

Second quarter gross profit regional distribution:

Region	Q2 2026 In Million USD *and % of revenue*	Q2 2025 In Million USD *and % of revenue*	% Change in USD
Europe, Africa & Middle East (EAME)[3]	136	126	8.5%
	43.2%	*40.9%*	
of which, Israel	17	9	78.6%
	39.4%	*30.7%*	
North America	114	102	11.7%
	40.7%	*37.4%*	
Latin America	37	58	-36.3%
	17.6%	*26.7%*	
Asia-Pacific[3]	50	47	5.4%
	28.4%	*27.5%*	
Unallocated costs	-52	-52	
Total (Adjusted)	285	281	
Adjustments for unallocated costs	-3	-7	
Total (Reported)	**282**	**274**	**2.9%**

Half-Year gross profit regional distribution:

Region	H1 2026 In Million USD *and % of revenue*	H1 2025 In Million USD *and % of revenue*	% Change in USD
Europe, Africa & Middle East (EAME)[3]	323	262	23.0%
	44.8%	*39.6%*	
of which, Israel	31	19	59.6%
	40.0%	*31.8%*	
North America	198	178	11.3%
	38.3%	*36.4%*	
Latin America	63	108	-41.5%
	17.8%	*29.6%*	
Asia-Pacific[3]	96	90	6.3%
	28.1%	*27.2%*	
Unallocated costs	-107	-92	
Total (Adjusted)	572	546	
Adjustments for unallocated costs	-5	-8	
Total (Reported)	**567**	**538**	

In the tables above, numbers may not sum due to rounding.

The increase in gross profit and gross margin in Q2 and H1 of 2026 was driven by higher volumes and improved quality of the business, as well as favorable foreign exchange impacts, offset by lower prices and mild cost increases (in the first half only).

In EAME, both gross profit and gross margin improved in both Q2 and H1, mostly due to the positive impact of exchange rates and improved product mix, offset by lower prices and higher COGS.

In North America, both gross profit and gross margin improved in both Q2 and H1 due to reduced COGS and higher volumes.

In Latin America, lower farmer profitability and increased competition in Brazil have led to negative impact on gross profit, mainly from weaker pricing, accompanied by higher COGS. The combination of these two factors offset the positive impacts from higher volumes sold and from favorable exchange rates and led to a decrease in gross profit and gross margin.

In APAC, gross profit and gross margin improved in both Q2 and H1 mostly thanks to improved product mix in India, Asia and Pacific and stable price levels, which offset the negative impact of exchange rates (mainly due to INR).

Unallocated costs include various costs that cannot be attributed to a specific regional geography and relate to the Company's overall business. These include, among others, costs such as idleness, which reflect unutilized manufacturing capacity and other items related to the Company's manufacturing operations which cannot be allocated to a specific product.

** The information provided in the tables hereinabove includes **managerial information** related to the Company's geographical regions' gross profit, reflecting the Company's management viewpoint, which have not and will not be reviewed by the Company's auditors.*

Operating expenses

Total reported operating expenses in the quarter were $237 million (24.1% of sales) and $425 million (22.0% of sales) in the half-year period, compared to $233 million (24.0% of sales) and $440 million (23.8% of sales) in the corresponding periods last year, respectively.

Adjustments to reported results: The Company recorded certain non-operational items within its reported operating expenses, amounting to an expense of $21 million in Q2 in comparison to an expense of $20 million in Q2 2025, and an income of $4 million in the half-year period in comparison to an expense of $39 million in the corresponding period last year. These include, mainly, non-cash amortization charges in respect of Transfer Assets received from Syngenta related to the 2017 ChemChina-Syngenta acquisition; charges related to the non-cash amortization of intangible assets created as part of the Purchase Price Allocation (PPA) on acquisitions, with no impact on the ongoing performance of the companies acquired; capital gain (in 2026) from the sale of a subsidiary's logistics center in Israel; fixed assets impairment (in 2026) and restructuring charges (in both 2025 and 2026); and advisory costs incurred in 2025 as part of the implementation of the Fight Forward transformation plan. For further details on these non-operational charges, please see Appendix A to this report.

Excluding the impact of the abovementioned non-operational charges, adjusted operating expenses in the quarter were $216 million (22.0% of sales), and $429 million (22.2% of sales) in the half-year period, compared to $213 million (22.0% of sales) and $400 million (21.7% of sales), in the corresponding periods last year, respectively.

In the second quarter and first half, operating expenses reflected the negative impact of exchange rates, an increase in employee compensation and an increase in expenses supporting business growth, partially offset by credit impairment in Q2 2025.

Financing expenses

Total adjusted net financial expenses were $60 million in the quarter, and $103 million in the half-year period, compared to $80 million and $132 million in the corresponding periods last year, respectively.

The lower financial expenses in the second quarter and first half of 2026 mainly reflected the better debt structure, which also reflects the buyback of bonds in Q2 2025, lower hedging costs related to foreign exchange, positive impact of the CPI (only in the first half period) and the benefits of continued positive cash flow.

The financial expenses related to the Israeli CPI on the ILS-denominated, CPI-linked bonds, amounted to $13 million in the quarter and $10 million in the half-year period (net of hedging)[3].

Taxation

The Company reported net tax expenses of $16 million in the quarter, and income of $5 million in the half-year period, compared to net tax income of $5 million and $9 million in the corresponding periods last year, respectively.

The Company recorded tax income in the first half of both 2026 and 2025 mainly due to tax income, recognized according to the accounting method of calculation of tax assets related to unrealized profits and due to foreign exchange impact of the stronger BRL. The effect of

[3] For details, see Section 25 "Financing and Credit" of Chapter A to the 2024 Periodic Report. For information concerning CPI and foreign currency exposure, see Note 30 to the Company's financial statements included in the 2024 Periodic Report.

the stronger BRL and the accounting method of calculation of tax assets related to unrealized profits in the second quarter of 2025 created a tax income.

Revenue distribution by operating segment

Second quarter

Operating Segment	Q2 2026 in Million USD	%	Q2 2025 in Million USD	%	Change in Million USD	Change %
Crop protection	933	95.2%	927	95.7%	6	0.7%
Intermediates and Ingredients	48	4.8%	41	4.3%	6	14.9%
Total	**980**	**100%**	**968**	**100%**	**12**	**1%**

Half-Year

Operating Segment	H1 2026 in Million USD	%	H1 2025 in Million USD	%	Change in Million USD	Change %
Crop protection	1,845	95.6%	1,765	95.7%	80	4.5%
Intermediates and Ingredients	86	4.4%	80	4.3%	6	7.0%
Total	**1,930**	**100%**	**1,845**	**100%**	**86**	**5%**

Financial Condition and Liquidity

Trade working capital

Trade working capital on June 30, 2026, was $1,805 million, compared to $1,853 million at the same point last year. The level of inventory increased to $1,590 million as of June 30, 2026 from $1,553 million as of June 30, 2025.

The decrease in working capital was mainly due to an increase in trade payables, driven by higher purchasing volumes compared to 2025 half-year period, combined with lower payments in H1 2026 mainly reflecting the timing of certain related payments made in 2025 half-year period. Inventory levels increased to provide business continuity during the merging of entities in Israel.

Cash flow and investment in fixed assets

Operating cash flow of $203 million was generated in the quarter, and $37 million was generated in the half-year period, compared to $163 million and $108 million generated in the corresponding periods last year, respectively.

Operating cash flow in the first half decreased, due to lower collections in light of timing differences mainly in Q1 2025.

Net cash used in investing activities was $18 million in the quarter, and $8 million generated in the half-year period, compared to $5 million and $39 million used in the corresponding periods last year, respectively.

The Company continued the execution of its strategy to prioritize the most critical investments in infrastructure, portfolio and innovation. Meanwhile, as part of optimizing its existing assets to enable new growth projects, the Company disposed fixed assets in the first half, resulting into the proceeds from asset disposal, mainly a logistics center in Israel.

Investments in fixed assets, net of investment grants, amounted to $16 million in the quarter, and $35 million in the half-year period, compared to $20 million and $38 million in the corresponding periods last year, respectively.

Free cash flow of $185 million was generated in the quarter and $45 million was generated the half-year period, compared to $158 million generated and $69 million generated in the corresponding periods last year, respectively, reflecting the aforementioned operating and investing cash flow dynamics.

Current assets

Total current assets as of June 30, 2026, amounted to $3,381 million compared to $3,559 million as of June 30, 2025 and $3,408 million as of December 31, 2025.

Cash, current liabilities and long-term loans

The Company's total financial liabilities include credit from banks and others, as well as the series B debentures (in this report: “**Financial Liabilities**”), were $1,995 million as of June 30, 2026 (of which 58.9% was short-term), compared to $2,236 million (of which 46.3% was short-term) as of June 30, 2025, and to $2,118 million as of December 31, 2025 (of which 62.5% was short-term).

	June 30, 2026 in Million USD	December 31, 2025 in Million USD	Effective Interest Rate as of June 30, 2026
Short-term loans and credit from banks and commercial papers	177	325	5.80%
Short-term loans from related parties[4]	490	490	4.68%
Long-term loans from banks (including current maturities)	153	202	3.29%
Long-term loans from related parties[5]	345	336	2.40%
Debentures (ILS denominated)	830	766	5.15%+CPI [5]
Total	**1,995**	**2,118**	

As of June 30, 2026, the Company has unused committed credit lines from banks of approximately $455 million, and unused committed credit lines from related parties of approximately $260 million.

The Company's balances of cash and short-term investments as of June 30, 2026, were $354 million, compared to $451 million as of June 30, 2025, and to $446 million as of December 31, 2025.

The Company's net debt, including credit, the impact of hedging transactions attributed to debt, and net of cash and short-term investments, was $1,651 million as of June 30, 2026, compared to $1,708 million as of June 30, 2025, and to $ 1,639 million as of December 31, 2025.

Financial covenants

The financial covenants of the Company's bank financing documents and its Receivables Financing Facility Program are:

In USD Million

	Net Debt/Equity	Net Debt/EBITDA	Equity	Retained Earnings
Financial Covenants - Bank Credit	1.25x	4.0x	1,220	700
Financial Covenants - Receivables Facility	1.25x	4.0x		
Compliance of the Company with Financial Covenants as of June 30, 2026	0.5	1.7	1,715	1,308

As of June 30, 2026, and on the date of publication of this report, the Company complied with the financial covenants included in its financing documents and the Receivables Financing Facility Program.[6]

[4] The credit facilities and loans from related parties are subordinated to other liabilities of the Company.
[5] Not including hedging costs.
[6] The calculation of the covenant Net Debt/EBITDA is based on the twelve months ended on the date of the financial statements, and excludes the Receivables Facility and loans from related parties. For more information about the Financial Covenants and additional limitations that apply to the Company pursuant to the provisions of the financing agreements and the Receivables Financing Facility Program, see Section 25 in Chapter A of the 2025 Periodic Report, and Note 20 to the financial statements as of December 31, 2025.

Shareholders' equity

The Company's shareholders' equity was $ 1,715 million as of June 30, 2026, compared to $1,774 million as of June 30, 2025 and $1,656 million as of December 31, 2025. Equity as a proportion of total assets was 30.0% as of June 30, 2026, 29.8% million as of June 30, 2025, and 28.8% as of December 31, 2025.

The Company's issued and paid-up share capital for June 30, 2026, is 137,990,881 ordinary shares of NIS 3.12 par value each.

Financial ratios

As of:	June 30, 2026	June 30, 2025
Ratio of current assets to current liabilities (current ratio)	1.16	1.30
Ratio of current assets, excluding inventory, to current liabilities (quick ratio)	0.64	0.74
Ratio of Financial Liabilities to total balance sheet, gross	34.9%	37.6%
Ratio of Financial Liabilities to total equity, gross	116.2%	126.0%

Financing sources

The Company finances its business operations from its own equity and external funding sources.[7]

Warning signs

The Company has an ongoing positive cash flow from operating activities, and therefore, as of the date of this report, the Company has no warning signs.

For information about the debentures held by the public at the reporting date, see Appendix B.

The Company has elected not to include the Separate Financial Data Report of the Company as of the period ending December 31, 2022, in accordance with Regulation 9C and 38D of the Securities Regulations (Periodic and Immediate Reports), 1970, since according to the Company's assessment, the Separate Financial Data Report does not contain any material information to that included in the annual or the quarterly Consolidated Financial Statements Report.

Taxes impact	-0.7	-0.9
Total adjustments to Net Income (loss)	**-0.1**	**55.8**
Net income (Adjusted)	**45.2**	**21.7**

In the tables above, numbers may not sum due to rounding.

Notes:

1. **Amortization of transfer assets received and written-up due to the 2017 ChemChina-Syngenta transaction (non-cash):** The proceeds from the divestment of crop protection products in connection with the approval by the EU Commission of the acquisition of Syngenta by ChemChina, net of taxes and transaction expenses, were paid to Syngenta in return for the transfer of a portfolio of products in Europe of similar nature and economic value. Since the products acquired from Syngenta are of the same nature and with the same net economic value as those divested, and since in 2018 the Company adjusted for the one-time gain that it made on the divested products, the additional amortization charge incurred due to the written-up of the acquired assets is also adjusted to present a consistent view of divestment and transfer transactions, which had no net impact on the underlying economic performance of the Company. These additional amortization charges will continue until 2032 but at a reducing rate, yet will still be at a meaningful level until 2028.
2. **Incentive plans (non-cash):** The Company granted its employees a long-term incentive (LTI) in the form of 'phantom' options, based on the mother company's share, due to the complexity of granting Chinese-listed, equity-settled options to non-Chinese employees. As such, the Company records an expense, or recognizes income, depending on the fluctuation in the Parent Company's share price, even though the Company will not incur any cash impact prior to exercise of the phantom options. To neutralize the impact of such share price movements on the measurement of the Company's performance and expected employee compensation and to reflect the existing phantom options, in the Company's adjusted financial performance, the LTI is presented on an equity-settled basis in accordance with the value of the existing plan at the grant date.
3. **Amortization of acquisition-related PPA (non-cash), other acquisition-related costs:** Related mainly to the non-cash amortization of intangible assets created as part of the Purchase Price Allocation (PPA) on acquisitions with no impact on the ongoing performance of the company acquired, while the related tax expense is also adjusted for, as well as other M&A-related costs.
4. **Restructuring and advisory costs**: The Company initiated its Fight Forward transformation plan in early 2024. Part of the plan includes restructuring its organizational structure, workforce and managerial processes, and as a result thereof, the Company recorded restructuring and advisory costs.
5. **Cleanup and remediation costs for plants in Israel**: ADAMA Makhteshim Ltd, a wholly-owned subsidiary of the Company recorded remediation costs for its plants in Israel in 2025.
6. **Fixed assets and inventory impairment**: As part of the Company's strategic direction to enhance operational efficiency, the Company decided to focus on high-performing facilities. Consequently, after evaluating their net book value and recoverable amount, the Company recorded impairments related to certain facilities in Israel.
7. **Other:** Related mainly to accelerated depreciation associated with operational efficiency.

   Other financing expenses: As part of strengthening its debt structure, During Q2 2025 the Company repurchased a significant part of its bond principal for the purpose of improving its long-term financing structure and efficiency. A loss was recorded due to the premium between the buyback price and its issuance price. As the repurchase was completed late in the quarter, the impacts on improving the financial costs were minor during the reporting periods.
8. **Capital gain from sale of a subsidiary's logistics center in Israel**: A subsidiary of the Company sold a logistic center in Israel as part of optimizing its asset base and received capital gain.

Review Report
To the Shareholders of Adama Agricultural Solutions Ltd

Introduction

We have reviewed the accompanying financial information of Adama Agricultural Solutions Ltd. and its subsidiaries (hereinafter – "the Group") comprising of the condensed consolidated interim statement of financial position as of June 30, 2026, and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the six-month periods then ended. The Board of Directors and Management are responsible for the preparation and presentation of there interim financial information in accordance with IAS 34 "Interim Financial Reporting" and are also responsible for the preparation of financial information for there interim period in accordance with Section D of the Securities Regulations (Periodic and Immediate Reports), 1970. Our responsibility is to express a conclusion on there interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (Israel) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Institute of Certified Public Accountants in Israel. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial information was not prepared, in all material respects, in accordance with IAS 34.

In addition to that mentioned in the previous paragraph, based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not comply, in all material respects, with the disclosure requirements of Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

The notes to the condensed consolidated interim financial statements are an integral part thereof.

Note 1 - Description of the Company and its Activities

A. Adama Agricultural Solutions Ltd. (hereinafter - "the Company") is an Israel-resident company incorporated in Israel located at Golan Street in Airport City Park. The condensed consolidated financial statements of the Company as at June 30, 2026 include those of the Company and its subsidiaries (hereinafter together - "the Group") as well as the Company's rights in an associated company and in joint ventures. The Group operates in Israel and abroad and is engaged in the development, manufacture and commercialization of crop protection products, As well as intermediate materials for other industries, food additives and synthetic aromatic products, primarily for export.

As of June 30, 2026, the Company is 100% held by ADAMA Ltd. The Company is a reporting entity.

B. Sales of crop protection products are directly dependent on the agricultural seasons and crop cycles. Therefore, the Company's income is not split equally over the year, and accordingly there are variations between the first and second halves of the year. Countries in the Northern Hemisphere are characterized by similar generally timing of agricultural seasons, with these countries usually having their highest sales in the first half of the calendar year, whereas the agricultural season is the opposite in the Southern Hemisphere (except to some extent in Australia), where most sales occur in the second half of the year.
The Company believes that the Group's global activity and the diversification across the markets in which it operates mitigates to a large extent the inherent seasonality in the business.

Note 2 - Basis for Preparation of Financial Statements

A. Declaration of compliance with International Financial Reporting Standards (IFRS):

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 –*Interim Financial Reporting* and do not include all the information required for full annual financial statements. They should be read in conjunction with the financial statements as at and for the year ended December 31, 2025 (hereinafter – "the Annual Financial Statements"). Furthermore, these financial statements have been prepared in accordance with the Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

The condensed consolidated interim financial statements were authorized for issue by the Group's Board of Directors on August 17, 2026.

B. Use of estimates and judgment:

When preparing the condensed consolidated interim financial statements in conformance with IFRS, Company management is required to use judgment when making assessments, estimates and assumptions that affect the implementation of the policies and amounts of assets and liabilities, revenues and expenses. It is clarified that the actual results are likely to be different than these estimates.

Management's judgment when applying the Group's accounting policies and the key assumptions used in estimates that involve uncertainty are consistent with those used in the Annual Financial Statements.

Note 3 - Significant Accounting Policies

A. The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its annual financial statements.

Note 4 - Operating Segments

A. Products and services:

The Company presents its segment reporting according to a format based on a breakdown by business segments:

Crop Protection (Agro):

This is the main area of the Company's operations and includes the manufacture and marketing of conventional agrochemical products.

Intermediates and ingredients:

This field of activity includes a large number of sub-fields, including: Lycopene (an oxidization retardant), aromatic products, and other chemicals. It combines all the Company's activities not included in the agro-products segment.

Segment results reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly financing expenses, net.

Information regarding the results of each reportable segment is included below:

Total	1,930,344	1,844,642	980,400	968,050	3,660,125

Note 5 - Financial Instruments

Fair value:

The fair value of forward contracts on foreign currency is based on their listed market price, if available. In the absence of market prices, the fair value is estimated based on the discounted difference between the stated forward price in the contract and the current forward price for the residual period until redemption, using an appropriate interest rate.

The fair value of foreign currency options is based on bank quotes. The reasonableness of the quotes is evaluated through discounting future cash flow estimates, based on the conditions and duration to maturity of each contract, using the market interest rates of a similar instrument at the measurement date and in accordance with the Black & Scholes model.

A. Financial instruments measured at fair value for disclosure purposes only:

The carrying amount of certain financial assets and liabilities, including cash and cash equivalents, trade receivables, other receivables, other short-term investments, derivatives, bank overdrafts, short-term loans and credit, trade payables and other payables, are the same or proximate to their fair value.

The following table details the carrying amount in the books and fair value of groups of non-current financial instruments presented in the financial statements not in accordance with their fair value ($ thousands):

Item	June 30, 2026 Carrying value (Unaudited)	June 30, 2026 Fair value (Unaudited)	June 30, 2025 Carrying value (Unaudited)	June 30, 2025 Fair value (Unaudited)	December 31, 2025 Carrying value (Audited)	December 31, 2025 Fair value (Audited)
Financial assets:						
Long-term loans and other receivables (a)	4,481	3,522	2,319	1,871	2,170	1,694
Financial liabilities:						
Long-term loans and other liabilities (b)	640,943	634,202	736,463	708,457	689,973	675,082
Debentures (c)	829,835	917,470	784,313	826,277	765,916	839,668

(a) The fair value of the long-term loans granted is based on a calculation of the present value of cash flows, using the acceptable interest rate for similar loans having similar characteristics (Level 2).

(b) The fair value of the long-term liabilities is based on a calculation of the present value of cash flows, using the acceptable interest rate for similar liabilities having similar characteristics (Level 2).

(c) The fair value of the debentures is based on stock exchange quotes (Level 1).

Note 5 - Financial Instruments (cont.)

B. Fair value hierarchy of financial instruments measured at fair value:

The table below presents an analysis of financial instruments measured at fair value, measured by valuation method. The various levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in an active market for identical instruments.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.
- Level 3: Inputs that is not based on observable market data (unobservable inputs).

The Company's financial instruments carried at fair value are evaluated by observable inputs and therefore are concurrent with the definition of Level 2.

Item	June 30 2026 (Unaudited)	June 30 2025 (Unaudited)	December 31 2025 (Audited)
Derivatives used for hedging the cash flow:			
Forward contracts and options	8,840	(4,017)	1,598
Derivatives used for economic hedging:			
Forward contracts and options	(11,974)	59,648	35,364
Short term investment	398	286	174
Long term investment	15,027	18,364	14,696

Note 6 - Additional Information

A. ADAMA is a global company with manufacturing and formulation facilities in several locations around the world, principally in Israel, China and Brazil. It is headquartered and has three manufacturing sites in Israel. Despite regional tensions that have escalated more recently on February 28, 2026, the Company's Israeli production sites and supply chain, including ports, continued to operate without significant delays allowing the Company to support its markets, and ongoing activities.

B. During March and early April 2026, the Company's Neot Hovav site suffered limited and localized damages caused by falling debris following missile interceptions in the southern region of Israel. The direct damage to its core production facilities was not meaningful and was primarily limited to a finished goods warehouse, certain ancillary equipment and systems, and an open storage area. The Company expects the overall impact of these occurrences to be non-material, also due to appropriate compensation from governmental authorities. Accordingly, the Company recognized an inventory impairment, classified as other expenses, with a corresponding accrued income reflecting the compensation received, classified as other income.

C. During the first quarter of 2026, a wholly owned subsidiary of the Company completed the sale of its logistics center in Israel. The asset is being leased back for the first two years following closing. The total consideration is approximately USD 49 million, with a capital gain of approximately USD 36.5 million.

Chapter C

Report Regarding the Effectiveness of the Internal Auditing of Financial Reporting and Disclosure

Periodic report regarding the effectiveness of the internal auditing of financial reporting and disclosure according to Regulation 38C(a):

The Management, under the supervision of the Board of Directors of ADAMA Agricultural Solutions Ltd. (hereafter: the "**Corporation**") is responsible for determining and maintaining appropriate internal auditing of financial reporting and of disclosure in the Corporation.

In this matter, the members of the Management are the following:

- Gael Hili, President and CEO
- Efrat Nagar, EVP, CFO
- Elad Shabtai, EVP, Formulation Supply
- Hongsheng Liu, EVP, AI Production
- Florian Wagner, EVP, Portfolio & Innovation
- Eric Dereudre, EVP, Chief Commercial Officer

The internal auditing of financial reporting and disclosure includes the existing controls and procedures in the Corporation, which were designed by the Chief Executive Officer and the senior corporate financial officer or under their supervision, or by the individual who in practice executes these functions, under the supervision of the Corporation's Board of Directors and which are intended to provide a reasonable confidence regarding the reliability of financial reporting and preparation of the reports according to the instructions of the law, and to ensure that the information the Corporation is required to disclose in the reports that it publishes according to the instructions of the law is collected, processed, summarized and reported on the dates and in the format dictated by law.

The internal auditing includes, inter alia, audits and procedures that were designated to ensure that said information the Corporation is required to disclose was accumulated and submitted to the Corporation's Management, including the Chief Executive Officer and the senior corporate financial officer or the individual who in practice fulfills these functions, so as to facilitate decision making at the appropriate time, with regard to the disclosure requirements.

Due to its structural constraints, internal auditing of financial reporting and disclosure is not intended to fully guarantee that a biased presentation or the omission of information in the reports will be avoided or discovered.

In the quarterly report on the effectiveness of the internal auditing of the financial reports and disclosure which was attached to the quarterly report for the period ended on March 31, 2026 (hereinafter: the "**Last Quarterly Report on Internal Auditing**"), the internal auditing was found to be effective.

Up to the date of the report, the Board of Directors and the Management were not made aware of any event or matter that would have changed their assessment of the effectiveness of internal auditing, as it was presented in the Last Quarterly Report on Internal Auditing.

As of the date of the report and based on the assessment of the effectiveness of the internal auditing in the Last Quarterly Report on Internal Auditing and on the information brought to the attention of the Management and the Board of Directors as mentioned above, the internal auditing is effective.

Officers' Certification

Certification of CEO according to Regulation 38C(d)(1)

I, Gael Hili, affirm that:

1. I have reviewed the quarterly reports of ADAMA Agricultural Solutions Ltd. (hereinafter: the "**Corporation**") for the second quarter of 2026 (hereinafter: the "**Reports**").
2. Based on my knowledge, the Reports do not contain any untrue statement of a material fact or omit a material fact necessary in order to make the statements made therein, in light of the circumstances under which such statements were made, misleading with respect to the period covered by the Reports.
3. Based on my knowledge, the financial statements and other financial information included in the Reports, fairly present in all material respects, the financial condition, results of operations and cash flows of the Corporation as of the dates and for the periods presented in the reports.
4. Based on my most recent evaluation regarding internal control over financial reporting and disclosure, I have disclosed to the Corporation's Auditors, Board of Directors and the Corporation's Audit Committee and Financial Statements Committee:
   a. All significant deficiencies and material weaknesses in the establishment or operation of internal control over financial reporting and disclosure, which may reasonably adversely affect the Corporation's ability to collect, process, summarize or report financial data so as to cast doubt on the reliability of financial report and the preparation of financial statements in accordance with law; and -
   b. Any fraud, whether or not material, that involves the CEO or anyone directly subordinated to the CEO or that involves other employees who have a significant role in internal control over financial reporting and disclosure.
5. I, alone or together with others in the Corporation, state that:
   a. Have established such controls and procedures, or I have confirmed the establishment and existence of such controls and procedures to under my supervision, so as to ensure that material information relating to the Corporation, including its consolidated corporations as defined in the Securities Regulations (Annual Financial Statements) 5770-2010, is made known to me by others in the Corporation and the consolidated corporations, particularly during the course of the period wherein the Reports are being prepared; and
   b. Have established such controls and procedures, or I have confirmed the establishing and existence of such controls and procedures under my supervision, so as to ensure reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the law, including in accordance with generally accepted accounting principles; and
   c. No event or matter which occurred during the period between the date of the last report (quarterly or periodic, as the case may be) and the date of this report has been brought to my attention that would change the conclusion of the Board of Directors and the Management with respect to the effectiveness of the internal auditing of the Corporation's financial reporting and disclosure.

Nothing in the aforesaid derogates from my responsibility or from the responsibility of any other individual under the law.

Date: 17.8.2026

Gael Hili
President and CEO

Officers' Certification

Certification of Chief Financial Officer according to Regulation 38C(d)(2)

I, Efrat Nagar, affirm that:

1. I have reviewed the interim financial statements and other financial information included in the interim period reports of ADAMA Agricultural Solutions Ltd. (hereinafter: the "**Corporation**") for the second quarter of 2026 (hereinafter: the "**Reports**" or the "**Interim Period Reports**").
2. Based on my knowledge, the interim financial statements and other financial information included in the Interim Period Reports do not contain any untrue statement of a material fact nor do they omit a material fact necessary in order to make the statements made therein, in light of the circumstances under which such statements were made, misleading with respect to the period covered by the reports.
3. Based on my knowledge, the interim financial statements and other financial information included in the Interim Period Reports, fairly present in all material respects, the financial condition, results of operations and cash flows of the Corporation as of the dates and for the periods presented in the reports.
4. Based on my most recent evaluation regarding internal control over financial reporting and disclosure, I have disclosed to the Corporation's Auditors, Board of Directors and the Corporation's Audit Committee and Financial Statements Committee:
   a. All significant deficiencies and material weaknesses in the establishment or operation of internal control over financial reporting and disclosure insofar as such refers to the Interim Period Reports and the other financial information recorded therein, which may reasonably adversely affect the Corporation's ability to collect, process, summarize or report financial data so as to cast doubt on the reliability of financial report and the preparation of financial statements in accordance with law; and
   b. Any fraud, whether or not material, that involves the CEO or anyone directly subordinated to the CEO or that involves other employees who have a significant role in internal control over financial reporting and disclosure.
5. I, alone or together with others in the Corporation:
   a. Have established such controls and procedures, or have confirmed the establishment and existence of such controls and procedures to be designed under our supervision, so as to ensure that material information relating to the Corporation, including its consolidated corporations as defined in the Securities Regulation (Annual Financial Statements) 5770 - 2010, is made known to me by others in the Corporation and the consolidated corporations, particularly during the course of the period wherein the Reports are being prepared; and
   b. Have established such controls and procedures, or confirmed the establishment and existence of such controls and procedures under my supervision, so as to ensure reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the law, including in accordance with generally accepted accounting principles; and
   c. No event or matter has been brought to my attention which occurred during the course of the period between the date of the last report (quarterly or periodic, as the case may be) and the date of this report that relates to the interim financial statements and any other financial information that is included in the interim period reports, that would change the conclusion of the Board of Directors and the Management with respect to the effectiveness of the internal auditing of the Corporation's financial reporting and disclosure.

Nothing in the aforesaid derogates from my responsibility or from the responsibility of any other individual under the law.
