Chapter A

Board of Directors' Report on the state of the Company's Affairs

ADAMA

ADAMA Agricultural Solutions Ltd.

Board of Directors' Report for the Quarter and the Nine-Month Period Ended September 30, 2026

This Report is limited in scope and should be reviewed together with the 2025 Periodic Report, published on March 27, 2026 (Ref: 2026-01-028506)
(the "**2025 Periodic Report**")

Performance in Context of General Crop Protection (CP) Market Environment

During the first nine months of 2026, crop protection market volumes saw weaker than anticipated growth due to elevated farmer costs and just-in-time purchasing patterns, despite low channel inventories supporting healthy underlying crop protection demand. Additionally, crop protection pricing, particularly in the off-patent market, continued to remain under pressure, mainly due to lower farmer profitability, as well as persistently low active ingredient prices resulting from structural production overcapacity in China.

Overall market conditions varied across regions and crops, while farmer margins remained under pressure in many markets due to higher borrowing costs as well as higher fertilizer and fuel costs.

Geopolitical tensions and weather-related disruption continued to create uncertainty along the entire value chain from crop production, input costs and grower profitability[1].

Geopolitical Situation

ADAMA is a global company with manufacturing and formulation facilities in several locations around the world, principally in Israel, China and Brazil. It is headquartered and has three manufacturing sites in Israel. Despite regional tensions that have escalated on February 28, 2026, the Company's Israeli production sites and supply chain, including ports, continued to operate without significant delays allowing the Company to support its markets, and ongoing activities.

During March and early April 2026, the Company's Neot Hovav site suffered limited and localized damages caused by falling debris following missile interceptions in the southern region of Israel. No bodily injuries were reported, and an immediate safety-driven closure of the facilities was carried out, followed by a phased shutdown, also for safety reasons. The Company initiated comprehensive damage assessments. The direct damage to its core production facilities was not meaningful and was primarily limited to a finished goods warehouse, certain ancillary equipment and systems, and an open storage area. Thereafter, the Company undertook certain restoration activities, and as of the date of this Report Neot Hovav site has returned to normal operational status. The Company expects the overall impact of these occurrences to be non-material, also due to appropriate compensation from governmental authorities.

For further details, refer to the Company's immediate reports dated March 30, 2026 (ref: 2026-01-029278) and April 6, 2026 (ref: 2026-01-032036) and the Company's Board of Directors' Report for the Quarter Ended March 31, 2026 (ref: 2026-01-039434).

Additionally, in respect to changes in global tariff policies, despite the uncertainty regarding changes to trade and tariff policies around the world, the Company currently expects that the impact on its operations and business results will continue to be immaterial.

Mergers with Wholly-Owned Subsidiaries

Further to the description of the Mergers approved by the Company's Board of Directors on December 31, 2025, as set forth in Section 1 of the Company's 2025 Periodic Report (Description of the Structural Changes; Material Mergers and Acquisitions), on June 30, 2026, the Mergers were completed, such that ADAMA Makhteshim Ltd., ADAMA Agan Ltd., and Agan Aroma and Fine Chemicals Ltd. (the Target Companies) merged with and into the Company, and the Target Companies were deregistered from the Israeli Companies Register. Following the completion of the Mergers, all assets and liabilities of the Target Companies were transferred to the Company, which is the surviving company.

For more details, see the Company's immediate reports dated December 31, 2025 (ref: 2025-01-105920) and dated June 30, 2026 (ref: 2026-01-061515), incorporated herein by reference.

ADAMA's Strategy Execution

ADAMA is focused on turning stabilization into profitable growth and sustained value creation. Its strategy prioritizes selective growth in markets, segments and offerings where ADAMA can create clear value for customers and generate attractive returns. Execution is focused on four sources of value: (i) driving portfolio differentiation that meets grower needs; (ii) enhancing commercial capabilities to support profitable growth; (iii) shifting to a more competitive, flexible and asset-light supply and manufacturing network; and (iv) improving organizational design, processes, and systems to support better decisions and create additional value across the business. Across these areas, ADAMA remains focused on improving margins, generating cash, maintaining cost control and directing investment toward the highest-return opportunities.

The Company's assessments with regard to changes in demand for crop protection products, the impact of the regional geopolitical situation on its ability to support its markets or on the Company's business results, potential impacts of the tariff policies on the Company's operations and the Company's strategy execution are forward looking statements, as defined in the Securities Law, 1968. Such assessments are based on the information available to the Company as of the date hereof and may not be realized or be realized in a different manner than the Company estimates, inter alia, due to factors that are not in the Company's control.

Relevant income statement items contained in this report are also presented on an "adjusted" basis, which exclude items that are of a transitory or non-cash/non-operational nature that do not impact the ongoing performance of the business, and reflect the way the Company's management and the Board of Directors view the performance of the Company internally. The Company believes that excluding the effects of these items from its operating results allows management and bondholders to effectively compare the true underlying financial performance of its business from period to period and against its global peers. A detailed summary of these adjustments appears in Appendix A below.

[2] CER - Constant Exchange Rates

Analysis of the Company's Results

Revenues

Revenues in the third quarter decreased by approximately 5% (-7% in CER) to $809 million compared to last year, reflecting a decline of 4% in volumes and 3% in prices, partially compensated by positive impact of foreign exchange rates.

The lower volumes resulted from lower market demand in certain regions due to higher farmer costs and weather conditions, partially compensated by new product introductions. Lower prices reflected the overall lower market pricing and weaker farmer purchasing power.

These results brought the revenues in the first nine months of 2026 to $2,740 million, an increase of 2% compared to last year (-1% in CER terms), reflecting an increase of 2% in volumes as well as the positive impact of foreign exchange, moderated by a decrease of 4% in prices.

Revenue distribution by region

Third quarter sales distribution:

Region	Q3 2026 In Million USD	Q3 2025 In Million USD	% Change in USD	% Change in CER[2]
Europe, Africa & Middle East (EAME)	199	231	-13.9%	-16.6%
of which, Israel	*31*	*28*	*10.5%*	*0.2%*

Total	**2,740**	**2,698**	**1.5%**	**-1.4%**

In the tables above, numbers may not sum due to rounding.

Noteworthy trends and developments in the various geographies affecting the Company's activities

Europe, Africa & Middle East (EAME)

Sales declined in the third quarter reflecting significantly weaker market consumption and lower crop-protection applications across several European markets due to weather impacts creating channel inventory build-up and due to elevated farmer input costs. Market-share gains partly mitigated the decline, while competitive and pricing pressure remained high, concentrated in specific off-patent active ingredients.

North America

Sales increased supported by growth across Professional Solutions, Consumer and Canada. US Ag was impacted by lower market prices mainly in commodity categories, while continuing to present growth in key products and customer segments. Pricing pressure and elevated inventories affected several US agricultural products.

Latin America

In **Brazil,** sales declined despite intensified commercial execution ahead of the soybean season particularly across fungicides and insecticides. This was offset by continued pricing pressure, farmer liquidity constraints and intense competition, particularly in commodity products.

In **the rest of LATAM,** sales increased supported by higher volumes, particularly in Argentina, following disciplined implementation of its strategic growth priorities across the region, despite continued competitive and pricing pressure and El-Niño impact in certain countries.

Asia Pacific

Sales increased supported by growth in Pacific and India more than offsetting a decline in other South-East Asia sales. Pacific benefited from fungicide demand in Southern and Western Australia supported by new product introductions. South-East Asia sales were impacted by El-Niño impact on demand.

During the third quarter of 2026, the Company continued to advance the development of its differentiated product portfolio, obtaining multiple new product registrations and launching several new products.

Gross profit

Reported gross profit in the third quarter reached $201 million (gross margin of 24.8%) and reached $768 million (gross margin of 28.0%) in the nine-month period, compared to $242 million (gross margin of 28.3%) and $780 million (gross margin 28.9%) in the corresponding periods last year, respectively.

Adjusted gross profit in the third quarter reached $205 million (gross margin of 25.3%) and reached $777 million (gross margin of 28.4%) in the nine-month period, compared to $242 million (gross margin of 28.3%) and $788 million (gross margin 29.2%) in the corresponding periods last year, respectively.

The decline in gross profit in the third quarter and nine-month period was due to the decline in sales, as described above and negative cost impact. These impacts were slightly moderated by the improvement in the Company's sales mix of higher margin products and positive impact of exchange rates.

Operating expenses

Total reported operating expenses in the third quarter were $220 million (27.2% of sales) and $645 million (23.6% of sales) in the nine-month period, compared to $214 million (25.1% of sales) and $654 million (24.2% of sales) in the corresponding periods last year, respectively.

Adjustments to reported results: The Company recorded certain non-operational items within its reported operating expenses, amounting to an expense of $35 million in Q3 in comparison to an expense of $20 million in Q3 2025, and an expense of $30 million in the nine-month period in comparison to an expense of $59 million in the corresponding period last year. These include, mainly, non-cash amortization charges in respect of Transfer Assets received from Syngenta related to the 2017 ChemChina-Syngenta acquisition; charges related to the non-cash amortization of intangible assets created as part of the Purchase Price Allocation (PPA) on acquisitions, with no impact on the ongoing performance of the companies acquired; capital gain (in 2026) from the sale of a subsidiary's logistics center in Israel; fixed assets impairment (in 2026) and restructuring charges (in both 2025 and 2026); and advisory costs incurred in 2025 as part of the implementation of the Fight Forward transformation plan. For further details on these non-operational charges, please see Appendix A to this report.

Excluding the impact of the abovementioned non-operational charges, adjusted operating expenses in the third quarter were $186 million (22.9% of sales), and $615 million (22.4% of sales) in the nine-month period, compared to $194 million (22.7% of sales) and $595 million (22.0% of sales), in the corresponding periods last year, respectively.

In the third quarter operating expenses decreased despite the negative impact of exchange rates following tight expense discipline. In the nine-month period operating expenses were still higher reflecting the negative impact of exchange rates, an increase in employee compensation and an increase in the half-year period in expenses supporting business growth.

Financing expenses

Total adjusted net financial expenses were $52 million in the third quarter, and $155 million in the nine-month period, compared to $64 million and $196 million in the corresponding periods last year, respectively.

The lower financial expenses in the third quarter of 2026 reflected the positive impact of the CPI, improved overall loan terms, the benefit of the continued positive cash flow and lower hedging costs. In the nine-month period of 2026 the lower financial expenses also reflected the better debt structure, following the buyback of bonds in the second quarter of 2025.

The financial expenses related to the Israeli CPI on the ILS-denominated, CPI-linked bonds, amounted to $6 million in the third quarter and $16 million in the nine-month period (net of hedging)[3].

Taxation

The Company reported net tax expenses of $47 million in the third quarter, and $42 million in the nine-month period, compared to net tax expenses of $7 million and net tax income of $1 million in the corresponding periods last year, respectively.

The Company recorded higher tax expense in the first nine months of 2026 comparing to 2025 mainly due to lower tax income compared to last year, recognized according to the

[3] For details, see Section 25 "Financing and Credit" of Chapter A to the 2024 Periodic Report. For information concerning CPI and foreign currency exposure, see Note 30 to the Company's financial statements included in the 2024 Periodic Report.

accounting method of calculation of tax assets related to unrealized profits and due to lower tax income compared to last year from foreign exchange impact of the stronger BRL. In addition, during the third quarter of 2026 the Company adjusted the tax asset in Brazil according to the projected statutory profit before tax.

Revenue distribution by operating segment

Third quarter

Operating Segment	Q3 2026 in Million USD	%	Q3 2025 in Million USD	%	Change in Million USD	Change %
Crop protection	761	94.1%	808	94.7%	-47	-5.8%

Intermediates and Ingredients	134	4.9%	125	4.6%	8	6.7%
Total	**2,740**	**100%**	**2,698**	**100%**	**42**	**2%**

Financial Condition and Liquidity

Trade working capital

Trade working capital on September 30, 2026, was $1,815 million, compared to $1,874 million at the same point last year. The level of inventory decreased to $1,600 million as of September 30, 2026 from $1,631 million as of September 30, 2025.

The decrease in working capital was mainly due to lower inventory levels, reflecting inventory consumption following the merger of the Israeli entities and improved procurement control, as well as an increase in trade payables, driven by higher purchasing volumes compared to the nine-month period of 2025, combined with lower payments in the nine-month period of 2026.

Cash flow and investment in fixed assets

Operating cash flow of $53 million was generated in the third quarter, and $90 million was generated in the nine-month period, compared to $49 million and $157 million generated in the corresponding periods last year, respectively.

In the nine-month period, lower operating cash inflow was mainly due to lower collections of basic chemicals and timing differences mainly in the first quarter of 2025, partially offset by lower procurement in comparison to last year, in which the Company increased procurement and inventory in order to provide business continuity during the merging of entities in Israel.

Net cash used in investing activities was $37 million in the third quarter, and $29 million in the nine-month period, compared to $44 million and $83 million used in the corresponding periods last year, respectively.

The Company continued to prioritize critical investments in infrastructure, portfolio and innovation, while optimizing its existing asset base. The decrease in net cash used in investing activities during the nine-month period was mainly attributable to proceeds from the sale of a logistics center in Israel earlier in 2026, partially offset by proceeds from the sale of a subsidiary in the corresponding period last year.

Investments in fixed assets, net of investment grants, amounted to $15 million in the third quarter, and $50 million in the nine-month period, compared to $23 million and $62 million in the corresponding periods last year, respectively.

Free cash flow of $16 million was generated in the third quarter and $61 million was generated in the nine-month period, compared to $5 million generated and $74 million generated in the corresponding periods last year, respectively, reflecting the aforementioned operating and investing cash flow dynamics.

Current assets

Total current assets as of September 30, 2026, amounted to $3,291 million compared to $3,533 million as of September 30, 2025 and $3,408 million as of December 31, 2025.

Cash, current liabilities and long-term loans

The Company's total financial liabilities include credit from banks and others, as well as the series B debentures (in this report: “**Financial Liabilities**”), were $1,958 million as of September 30, 2026 (of which 44.5% was short-term), compared to $2,204 million (of which 46.2% was short-term) as of September 30, 2025, and to $2,118 million as of December 31, 2025 (of which 62.5% was short-term).

	September 30, 2026 in Million USD	December 31, 2025 in Million USD	Effective Interest Rate as of September 30, 2026
Short-term loans and credit from banks and commercial papers	196	325	5.64%
Short-term loans from related parties[4]	490	490	5.03%
Long-term loans from banks (including current maturities)	113	202	2.69%
Long-term loans from related parties (including current maturities)[5]	345	336	4.98%
Debentures (ILS denominated)	814	766	5.15%+CPI[5]
Total	**1,958**	**2,118**	

As of September 30, 2026, the Company has unused committed credit lines from banks of approximately $317 million, and unused committed credit lines from related parties of approximately $260 million.

The Company's balances of cash and short-term investments as of September 30, 2026, were $318 million, compared to $473 million as of September 30, 2025, and to $446 million as of December 31, 2025.

The Company's net debt, including credit, the impact of hedging transactions attributed to debt, and net of cash and short-term investments, was $1,650 million as of September 30, 2026, compared to $1,707 million as of September 30, 2025, and to $ 1,639 million as of December 31, 2025.

Financial covenants

The financial covenants of the Company's bank financing documents and its Receivables Financing Facility Program are:

In USD Million

	Net Debt/Equity	Net Debt/EBITDA	Equity	Retained Earnings
Financial Covenants - Bank Credit	1.25x	4.0x	1,220	700
Financial Covenants - Receivables Facility	1.25x	4.0x		
Compliance of the Company with Financial Covenants as of September 30, 2026	0.5	1.8	1,600	1,192

As of September 30, 2026, and on the date of publication of this report, the Company complied with the financial covenants included in its financing documents and the Receivables Financing Facility Program.[6]

4 The credit facilities and loans from related parties are subordinated to other liabilities of the Company.

5 Not including hedging costs.

6 The calculation of the covenant Net Debt/EBITDA is based on the twelve months ended on the date of the financial statements, and excludes the Receivables Facility and loans from related parties. For more information about the Financial Covenants and additional limitations that apply to the Company pursuant to the provisions of the financing agreements and the Receivables Financing Facility Program, see Section 25 in Chapter A of the 2025 Periodic Report, and Note 20 to the financial statements as of December 31, 2025.

Shareholders' equity

The Company's shareholders' equity was $1,600 million as of September 30, 2026, compared to $1,734 million as of September 30, 2025 and $1,656 million as of December 31, 2025. Equity as a proportion of total assets was 28.9% as of September 30, 2026, 29.3% million as of September 30, 2025, and 28.8% as of December 31, 2025.

The Company's issued and paid-up share capital for September 30, 2026, is 137,990,881 ordinary shares of NIS 3.12 par value each.

Financial ratios

As of:	September 30, 2026	September 30, 2025
Ratio of current assets to current liabilities (current ratio)	1.27	1.28
Ratio of current assets, excluding inventory, to current liabilities (quick ratio)	0.68	0.70
Ratio of Financial Liabilities to total balance sheet, gross	35.4%	37.2%
Ratio of Financial Liabilities to total equity, gross	122.3%	127.1%

Financing sources

The Company finances its business operations from its own equity and external funding sources.[7]

Warning signs

As of September 30, 2026, the Company's separate (solo) financial statements reflect a working capital deficit of approximately USD 175 million. The Board of Directors reviewed and analyzed the Company's financial statements, including its separate financial statements, together with the Company's sources of liquidity. It determined that this working capital deficit does not indicate a liquidity problem in the Company. Accordingly, as of the date of the Report, there are no Warning Signs in the Company, as defined in article 10(b)(14) of the Securities Regulations (Periodic and Immediate Reports), 1970.

The main considerations behind the resolution of the Board of Directors include, inter alia, the following:

1. **Nature of the working capital deficit.** The working capital deficit in the separate financial statements is mainly due to short-term loans from ADAMA Group companies. These loans form part of the Group's ongoing cash management and cash pooling activities.
2. **Flexibility of intra-group financing.** Because the deficit is driven mainly by short-term intra-group loans, their maturities can be extended, subject to agreement with the relevant Group entities.
3. **Positive cash flow from operating activities.** Based on its consolidated financial statements, the Company generated positive cash flow from operating activities for each of the years ended December 31, 2023, 2024 and 2025, and for each of the nine-month periods ended September 30, 2024 and 2025. This shows its ability to generate cash and to meet its financial obligations.

[7] For details, see Section 25, “Financing and Credit”, and Section 24 “Working Capital” of Chapter A of the 2025 Periodic Report.

4. **Committed credit facilities.** The Company has unused committed credit facilities from several banks, with terms of two to three years, which provide additional liquidity and refinancing flexibility.

5. As of September 30, 2026, the Company complied with the financial covenants included in its financing documents and the Receivables Financing Facility Program.

The Company's assessments regarding the extension of the maturities of intra-group loans, the Company's continued ability to generate cash and to meet its financial obligations, the availability of its unused committed credit facilities and of other financing sources are forward-looking statements, as defined in the Securities Law, 1968. These assessments are based on information available to the Company as of the date of the Report. They may not be realized, or may be realized differently than the Company estimates, among other things due to factors outside the Company's control.

For information about the debentures held by the public at the reporting date, see Appendix B.

In Million USD

Adjustments Period	9M 2026	9M 2025
Net Income (loss) (as Reported)	**-71.7**	**-76.1**
Adjustments to COGS & Operating Expenses:		
1. Amortization of transfer assets received and written-up due to 2017 ChemChina-Syngenta transaction (non-cash)	16.4	16.3
2. Incentive plans	-	-1.7
3. Amortization of acquisition-related PPA (non-cash), other acquisition-related costs	7.4	7.6
4. Restructuring and advisory costs	12.3	35.5
5. Cleanup and remediation costs for plants in Israel	-	6.7
6. Fixed assets and inventory impairment	34.7	1.2
7. Compensation related to product liability	-2.3	-
8. Capital gain from sale of a subsidiary's logistics center in Israel	-36.5	-
Other	6.8	1.5
Total Adjustments to Operating Income (EBIT)	**38.9**	**67.2**
Total Adjustments to EBITDA	**-24.3**	**41.5**
7. Other financing expenses	-	9.5
Total Adjustments to Income before taxes	**38.9**	**76.6**
Adjustments to Taxes:		
Taxes impact	-1.1	-1.4
Total adjustments to Net Income (loss)	**37.7**	**75.3**
Net income (Adjusted)	**-34.0**	**-0.8**

In the tables above, numbers may not sum due to rounding.

Notes:

1. **Amortization of transfer assets received and written-up due to the 2017 ChemChina-Syngenta transaction (non-cash):** The proceeds from the divestment of crop protection products in connection with the approval by the EU Commission of the acquisition of Syngenta by ChemChina, net of taxes and transaction expenses, were paid to Syngenta in return for the transfer of a portfolio of products in Europe of similar nature and economic value. Since the products acquired from Syngenta are of the same nature and with the same net economic value as those divested, and since in 2018 the Company adjusted for the one-time gain that it made on the divested products, the additional amortization charge incurred due to the written-up of the acquired assets is also adjusted to present a consistent view of divestment and transfer transactions, which had no net impact on the underlying economic performance of the Company. These additional amortization charges will continue until 2032 but at a reducing rate, yet will still be at a meaningful level until 2028.
2. **Incentive plans (non-cash):** The Company granted its employees a long-term incentive (LTI) in the form of 'phantom' options, based on the mother company's share, due to the complexity of granting Chinese-listed, equity-settled options to non-Chinese employees. As such, the Company records an expense, or recognizes income, depending on the fluctuation in the Parent Company's share price, even though the Company will not incur any cash impact prior to exercise of the phantom options. To neutralize the impact of such share price movements on the measurement of the Company's performance and expected employee compensation and to reflect the existing phantom options, in the Company's adjusted financial performance, the LTI is presented on an equity-settled basis in accordance with the value of the existing plan at the grant date.
3. **Amortization of acquisition-related PPA (non-cash), other acquisition-related costs:** Related mainly to the non-cash amortization of intangible assets created as part of the Purchase Price Allocation (PPA) on acquisitions with no impact on the ongoing performance of the company acquired, while the related tax expense is also adjusted for, as well as other M&A-related costs.
4. **Restructuring and advisory costs**: The Company initiated its Fight Forward transformation plan in early 2024. Part of the plan includes restructuring its organizational structure, workforce and managerial processes, and as a result thereof, the Company recorded restructuring and advisory costs.
5. **Cleanup and remediation costs for plants in Israel**: ADAMA Makhteshim Ltd, a wholly-owned subsidiary of the Company (merged with and into the Company on June 30, 2026) recorded remediation costs for its plants in Israel in 2025.
6. **Fixed assets and inventory impairment**: As part of the Company's strategic direction to enhance operational efficiency, the Company decided to focus on high-performing facilities. Consequently, after evaluating their net book value and recoverable amount, the Company recorded impairments related to certain facilities in Israel.
7. **Compensation related to product liability**
8. **Capital gain from sale of a subsidiary's logistics center in Israel**: A subsidiary of the Company sold a logistic center in Israel as part of optimizing its asset base and received capital gain.

   - Other: Related mainly to accelerated depreciation associated with operational efficiency.

   - Other financing expenses: As part of strengthening its debt structure, During Q2 2025 the Company repurchased a significant part of its bond principal for the purpose of improving its long-term financing structure and efficiency. A loss was recorded due to the premium between the buyback price and its issuance price. As the repurchase was completed late in the quarter, the impacts on improving the financial costs were minor during the reporting periods.

Notes:

(a) The trustee for debentures (Series B) is Mishmeret Trust Company Ltd., 48 Menachem Begin Road, Tel Aviv (Tel: 03-6374351; Fax: 03-6374344). Contact person: Rami Sebti, C.P.A. VP, E-mail: Ramis@mtrust.co.il.

(b) **Series B is considered a material liability of the Company.**

(c) At the date of the report, the Company was in compliance with all the terms and undertakings under the Deed of Trust, and no conditions existed giving rise to a cause of action for immediate repayment of the debentures.

(d) On March 27, 2024, S&P Maalot affirmed the ilAA- rating of the debentures (Series B), and revised the outlook to Negative (reference: 2024-01-027478). S&P Maalot affirmed the ilAA- rating of the debentures (Series B) on June 17, 2024, (reference: 2024-01-061446), on February 25, 2025 (reference: 2025-01-012886) and on July 3, 2025 (reference: 2025-15-048499).

On August 5, 2024, the Company's Board of Directors approved a buyback plan for the Company's debentures (Series B) in the amount of up to USD 50 million. On September 1, 2024, the Company purchased NIS 129,081,000 par value of Bonds for a total consideration of approximately USD 50 million (NIS 183 million), fully utilizing the buyback plan. For further information, see the Company's immediate report dated September 2, 2024 (reference: 2024-01-600101). On May 26, 2025, the Company's Board of Directors approved a buyback plan for the Company's debentures (Series B) in the amount of up to USD 300 million. On May 29, 2025, the Company purchased NIS 642,448,000 par value of Bonds for a total consideration of approximately USD 268 million (NIS 941,828,768 million). For further information, see the Company's immediate report dated May 27, 2025 (reference: 2025-01-037477).

Review Report
To the Shareholders of Adama Agricultural Solutions Ltd

Introduction

We have reviewed the accompanying financial information of Adama Agricultural Solutions Ltd. and its subsidiaries (hereinafter – "the Group") comprising the condensed consolidated interim statement of financial position as of September 30, 2026 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the nine-month and three-month periods then ended. The Board of Directors and Management are responsible for the preparation and presentation of these interim financial information in accordance with IAS 34 "Interim Financial Reporting", and are also responsible for the preparation of financial information for these interim periods in accordance with Section D of the Securities Regulations (Periodic and Immediate Reports), 1970. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (Israel) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Institute of Certified Public Accountants in Israel. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial information was not prepared, in all material respects, in accordance with IAS 34.

In addition to that mentioned in the previous paragraph, based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not comply, in all material respects, with the disclosure requirements of Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

Note 1 - Description of the Company and its Activities

A. Adama Agricultural Solutions Ltd. (hereinafter - "the Company") is an Israel-resident company incorporated in Israel located at Golan Street in Airport City Park. The condensed consolidated financial statements of the Company as of September 30, 2026 include those of the Company and its subsidiaries (hereinafter together - "the Group") as well as the Company's rights in an associated company and in joint ventures. The Group operates in Israel and abroad and is engaged in the development, manufacture and commercialization of crop protection products, as well as intermediate materials for other industries, food additives and synthetic aromatic products, primarily for export.

As of September 30, 2026, the Company is 100% held by ADAMA Ltd. The Company is a reporting entity.

B. Sales of crop protection products are directly dependent on the agricultural seasons and crop cycles. Therefore, the Company's income is not split equally over the year, and accordingly there are variations between the first and second halves of the year. Countries in the Northern Hemisphere are characterized by similar generally timing of agricultural seasons, with these countries usually having their highest sales in the first half of the calendar year, whereas the agricultural season is the opposite in the Southern Hemisphere (except to some extent in Australia), where most sales occur in the second half of the year.
The Company believes that the Group's global activity and the diversification across the markets in which it operates mitigates to a large extent the inherent seasonality in the business.

Note 2 - Basis for Preparation of Financial Statements

A. Declaration of compliance with International Financial Reporting Standards (IFRS):

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 –*Interim Financial Reporting* and do not include all the information required for full annual financial statements. They should be read in conjunction with the financial statements as at and for the year ended December 31, 2025 (hereinafter – "the Annual Financial Statements"). Furthermore, these financial statements have been prepared in accordance with the Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

The condensed consolidated interim financial statements were authorized for issue by the Group's Board of Directors on October 28, 2026.

B. Use of estimates and judgment:

When preparing the condensed consolidated interim financial statements in conformance with IFRS, the Company's management is required to use judgment when making assessments, estimates and assumptions that affect the implementation of the policies and amounts of assets and liabilities, revenues and expenses. It is clarified that the actual results are likely to be different than these estimates.

Management's judgment when applying the Group's accounting policies and the key assumptions used in estimates that involve uncertainty are consistent with those used in the Annual Financial Statements.

Note 3 - Significant Accounting Policies

A. The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its annual financial statements.

Note 4 - Operating Segments

A. Products and services:

The Company presents its segment reporting according to a format based on a breakdown by business segments:

Crop Protection (Agro):

This is the main area of the Company's operations and includes the manufacture and marketing of conventional agrochemical products.

Intermediates and ingredients:

This field of activity includes a large number of sub-fields, including: Lycopene (an oxidization retardant), aromatic products, and other chemicals. It combines all the Company's activities not included in the agro-products segment.

Segment results reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly financing expenses, net.

Information regarding the results of each reportable segment is included below ($ thousands):

Item	For the nine-month period ended September 30, 2026 (Unaudited)

Note 5 - Financial Instruments

Fair value:

The fair value of forward contracts on foreign currency is based on their listed market price, if available. In the absence of market prices, the fair value is estimated based on the discounted difference between the stated forward price in the contract and the current forward price for the residual period until redemption, using an appropriate interest rate.

The fair value of foreign currency options is based on bank quotes. The reasonableness of the quotes is evaluated through discounting future cash flow estimates, based on the conditions and duration to maturity of each contract, using the market interest rates of a similar instrument at the measurement date and in accordance with the Black & Scholes model.

A. Financial instruments measured at fair value for disclosure purposes only:

The carrying amount of certain financial assets and liabilities, including cash and cash equivalents, trade receivables, other receivables, other short-term investments, derivatives, bank overdrafts, short-term loans and credit, trade payables and other payables, are the same or proximate to their fair value.

The following table details the carrying amount in the books and fair value of groups of non-current financial instruments presented in the financial statements not in accordance with their fair value ($ thousands):

Item	September 30, 2026 Carrying value	September 30, 2026 Fair value	September 30, 2025 Carrying value	September 30, 2025 Fair value	December 31, 2025 Carrying value	December 31, 2025 Fair value
	(Unaudited)	(Unaudited)	(Unaudited)	(Unaudited)	(Audited)	(Audited)
Financial assets:						
Long-term loans and other receivables (a)	4,758	3,967	2,295	1,860	2,170	1,694
Financial liabilities:						
Long-term loans and other liabilities (b)	596,973	582,442	716,370	695,247	689,973	675,082
Debentures (c)	814,390	895,593	810,816	866,316	765,916	839,668

(a) The fair value of the long-term loans granted is based on a calculation of the present value of cash flows, using the acceptable interest rate for similar loans having similar characteristics (Level 2).

(b) The fair value of the long-term liabilities is based on a calculation of the present value of cash flows, using the acceptable interest rate for similar liabilities having similar characteristics (Level 2).

(c) The fair value of the debentures is based on stock exchange quotes (Level 1).

Note 5 - Financial Instruments (cont.)

B. Fair value hierarchy of financial instruments measured at fair value:

The table below presents an analysis of financial instruments measured at fair value, measured by valuation method. The various levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in an active market for identical instruments.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.
- Level 3: Inputs that is not based on observable market data (unobservable inputs).

The Company's financial instruments carried at fair value are evaluated by observable inputs and therefore are concurrent with the definition of Level 2.

Item	September 30 2026 (Unaudited)	September 30 2025 (Unaudited)	December 31 2025 (Audited)
Derivatives used for hedging the cash flow:			
Forward contracts and options	3,624	(1,914)	1,598
Derivatives used for economic hedging:			
Forward contracts and options	(9,193)	7,968	35,364
Short term investment	3,463	218	174
Long term investment	17,059	14,019	14,696

Note 6 - Additional Information

A. ADAMA is a global company with manufacturing and formulation facilities in several locations around the world, principally in Israel, China and Brazil. It is headquartered and has three manufacturing sites in Israel. Despite regional tensions that have escalated on February 28, 2026, the Company's Israeli production sites and supply chain, including ports, continued to operate without significant delays allowing the Company to support its markets, and ongoing activities.

B. During March and early April 2026, the Company's Neot Hovav site suffered limited and localized damages caused by falling debris following missile interceptions in the southern region of Israel. The direct damage to its core production facilities was not meaningful and was primarily limited to a finished goods warehouse, certain ancillary equipment and systems, and an open storage area. The Company expects the overall impact of these occurrences to be non-material, also due to appropriate compensation from governmental authorities. Accordingly, the Company recognized an inventory impairment, classified as other expenses, with a corresponding accrued income reflecting the compensation received, classified as other income.

C. During the first quarter of 2026, a wholly owned subsidiary of the Company completed the sale of its logistics center in Israel. The asset is being leased back for the first two years following closing. The total consideration is approximately USD 49 million, with a capital gain of approximately USD 36.5 million.

Note 6 - Additional Information (cont.)

D. IFRS 18 *Presentation and Disclosure in Financial Statements* (the "Standard" or "IFRS 18") replaces IAS 1 *Presentation of Financial Statements*. The Group has elected not to early adopt the Standard and continues to assess the expected effects of its application on the Group's financial statements. The standard will be applied for annual reporting periods beginning on or after January 1, 2027 and will be applied retrospectively with specific transition requirements.

The application of the Standard is not expected to have an impact on the Group's total comprehensive income or net assets; however, it is expected to affect the structure and presentation of the Group's financial statements.
The actual effects of adopting the Standard on January 1, 2027 may differ from those described below, among other things, because:
(a) The Group has not yet completed its assessment of all the implications of the Standard for its financial statements; and
(b) The application of certain requirements of the Standard is still subject to discussion and further assessments.

Structure of the Statement of Profit or Loss
In accordance with the requirements of the Standard, an entity is required to classify all income and expenses into five categories in the statement of profit or loss: operating, investing, financing, discontinued operations and income taxes.

Main expected effects on the statement of profit or loss
a. Foreign exchange gains and losses
Gains and losses arising from changes in foreign exchange rates are currently presented, on a net basis, within "Finance income (expenses)." Under the new Standard, foreign exchange differences are required to be classified in the same category as the income and expenses arising from the items that gave rise to those foreign exchange differences.
b. Gains (losses) on derivative financial instruments
Gains (losses) on derivative financial instruments that are not designated in hedge accounting relationships but are used to manage identified financial risks are currently presented within finance income and finance expenses. Under the new Standard, gains (losses) on such instruments are required to be classified in the same category as the expenses exposed to the risk that the derivative is used to manage.
c. Expenses related to securitization transactions
Expenses related to securitization transactions, which are currently presented within finance expenses, will be classified in the operating category under IFRS 18.

Management-defined Performance Measures (MPMs)
Management-defined performance measures ("MPMs") are subtotals of income and expenses used in public communications outside the financial statements to communicate management's view of an aspect of the financial performance of the entity as a whole. The new Standard requires disclosures relating to certain MPMs to be presented in a single note to the financial statements.
The performance measures for which the Group will provide disclosure in its financial statements following the adoption of the new Standard will be determined based on the measures communicated publicly by the Company, including in its Board of Directors' reports, investor presentations and other information communicated publicly.

Expected Impact on Financial Covenants
Under the terms of the financing agreements relating to the Company's long-term borrowings, the Company is required to comply with a financial covenant based on the net debt-to-EBITDA ratio. The Company estimates that changes in the classification of income and expense items under IFRS 18, particularly the expected changes in operating profit, may have a material effect on the manner in which EBITDA is calculated.

Note 6 - Additional Information (cont.)

D. (cont.)

The Company intends to approach the relevant banking institutions in order to agree on the manner in which the financial covenant will be calculated from the date of initial application of IFRS 18, such that the accounting measures comprising the covenant will continue to be assessed and calculated in accordance with the accounting standards applicable at the date the loans were entered into.

To:
The shareholders of Adama Agricultural Solutions Ltd.

Subject: Special auditors' report on separate interim financial information according to Regulation 38D of the Securities Regulations (Periodic and Immediate Reports) – 1970

Introduction

We have reviewed the separate interim financial information presented in accordance with Regulation 38D of the Securities Regulations (Periodic and Immediate Reports) – 1970 of Adama Agricultural Solutions Ltd. (hereinafter – the Company) as of September 30, 2026 and for the nine-month and three-month periods then ended. The separate interim financial information is the responsibility of the Company's Board of Directors and of its Management. Our responsibility is to express a conclusion on the separate interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (Israel) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Institute of Certified Public Accountants in Israel. A review of separate interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial information was not prepared, in all material respects, in accordance with Regulation 38D of the Securities Regulations (Periodic and Immediate Reports) – 1970.

Condensed Interim Separate Financial Data

Additional Information as of September 30, 2026

1 : General:

Presented hereunder are the financial data from the Group's consolidated financial statements of September 30, 2026 (hereinafter - the consolidated financial statements), which are issued within the framework of the periodic reports, and which are attributed to the Company itself (hereinafter – condensed interim separate financial data), and are presented in accordance with Regulation 38D (hereinafter – "the regulation") and the tenth addendum to the Securities Regulations (Periodic and Immediate Reports) – 1970 (hereinafter – "the tenth addendum") with respect to condensed separate interim financial information of an entity.

The condensed interim separate financial information data should be read together with the consolidated financial statements.

In previous reporting periods, the Company did not present separate financial information, in accordance with the relief provided under the Israeli Securities Regulations (Periodic and Immediate Reports), 1970. Following the merger of certain subsidiaries into the Company as described in Note 3 below and the resulting changes in the structure and activities of the Company as a separate legal entity, the conditions for applying the aforementioned relief are no longer met. Accordingly, commencing with the current reporting period, the Company presents separate financial information

In this Separate Financial Information:

1. **The Company** – ADAMA Agriculture Solutions Ltd.
2. **Consolidated Companies / Subsidiaries** – Companies, including partnerships, whose financial statements are fully consolidated, directly or indirectly, with those of the Company.
3. **Investee Companies** – Consolidated companies and companies, including partnerships or joint arrangements, in which the Company's investment is included, directly or indirectly, in the financial statements using the equity method.

2 : Significant accounting policies applied in the separate financial data:

The accounting policies described in Note 3 to the consolidated financial statements have been applied consistently to all periods presented in the Company's separate financial data, including how the financial data was classified in the consolidated financial statements, with any necessary adjustments deriving from the following:

A. Presentation of Financial Data:

(1) Data on financial position:

Information included in the consolidated financial statements on amounts of assets and liabilities attributable to the Company itself (other than in respect of investees), according to categories of assets and liabilities, as well as information regarding the net amount, on the basis of the consolidated financial statements, that is attributable to the Company's owners, of total assets less total liabilities, in respect of investees, including goodwill.

(2) Data on comprehensive income:

Information included in the consolidated financial statements on amounts of revenues and expenses, allocated between income and other comprehensive income, attributable to the Company itself (other than in respect of investees), while specifying the categories of revenues and expenses, as well as information regarding the net amount, on the basis of the consolidated financial statements, that is attributable to the Company's owners, of total revenues less total expenses in respect of the operating results of investees.

2 : Significant accounting policies applied in the separate financial information: (cont'd)

(3) Data on cash flows:

Information on cash flows included in the consolidated financial statements that are attributable to the Company itself (other than in respect of investees), taken from the consolidated statement of cash flows, classified according to flow from operating activities, investing activities and financing activities with the details of their composition. Cash flows from operating activities, investing activities and financing activities for transactions with investees are presented separately on a net basis, under the relevant type of activity, in accordance with the nature of the transaction.

B. Transactions Between the Company and Investees:

(1) Presentation:

Balances, income and expenses resulting from transactions with investees that were eliminated within the framework of the consolidated financial statements, are assessed and presented within those relevant sections of the data with regard the financial position, the profit or loss, or comprehensive Income, in the same manner these transactions would have been assessed and presented as if they were executed with third parties.

(2) Measurement:

Transactions between the Company and its investee were measured according to the recognition and measurement principles provided in International Financial Reporting Standards ("IFRS") with respect for the accounting treatment for such transactions executed with third parties.

3 : Merger of group companies:

On December 31, 2025, the Company's Board of Directors approved a merger between the Company and its wholly owned subsidiaries, ADAMA Makhteshim Ltd. and ADAMA Agan Ltd., as well as its wholly owned indirect subsidiary, Agan Aroma Ltd. (the "Merging Companies").

Upon completion of the merger, beginning July 1, 2026, all assets (including rights) and liabilities of the Merging Companies were transferred to the Company.

The Company applied the carrying amount approach, whereby the assets and liabilities of the Merging Companies were recognized at their carrying amounts immediately prior to the merger, without restating comparative figures.

Below is a detail of the main assets and liabilities transferred to the Company as of the merger date:

Item	June 30, 2026 ($ thousands) (Unaudited)
Current assets related to group companies	762,980
Other current assets	594,578
Total current assets	1,357,558
Fixed assets, Net	853,183
Intangible assets, Net	369,365
Other non-current assets	566,891
Total non-Current Assets	1,789,439
Total Assets	**3,146,997**
Current liabilities related to group companies	(1,078,618)
Other current liabilities	(877,844)
Total Current liabilities	(1,956,462)
Non-Current liabilities	(779,087)
Total Liabilities	**(2,735,549)**
Total Net Assets Transferred to the Company	**411,448**

4 : Material Transactions and Agreements with Related Parties:

A Loans:

1. On September 15, 2026, the Company received a loan from its subsidiary, Fahrenheit BV, in the total amount of USD 295 million. The loan is fully repayable at the end of three years from its issuance date and bears interest based on the three-month (quarterly) SOFR rate plus a fixed margin of 1.54%.
2. On June 1, 2026, the subsidiary ADAMA Agriculture Espana S.A. extended a credit line to the Company in the total amount of EUR 60 million for a period of seven months. The credit line bears variable interest at the three-month EURIBOR rate (EURIBOR 3M) plus a fixed margin of 1.12%.
3. On June 1, 2026, the subsidiary ADAMA France SAS extended a credit line to the Company in total amount of EUR 100 million for a period of seven months. The credit line bears variable interest at the three-month EURIBOR rate (EURIBOR 3M) plus a fixed margin of 1.12%.
4. On June 1, 2026, the subsidiary ADAMA Polska Sp. z o.o. extended a credit line to the Company in total amount of PLN 150 million for a period of seven months. The credit line bears variable interest at the three-month WIBOR rate (WIBOR 3M) plus a fixed margin of 1.15%.

Chapter C

Report Regarding the Effectiveness of the Internal Auditing of Financial Reporting and Disclosure

Periodic report regarding the effectiveness of the internal auditing of financial reporting and disclosure according to Regulation 38C(a):

The Management, under the supervision of the Board of Directors of ADAMA Agricultural Solutions Ltd. (hereafter: the "**Corporation**") is responsible for determining and maintaining appropriate internal auditing of financial reporting and of disclosure in the Corporation.

In this matter, the members of the Management are the following:

- Gael Hili, President and CEO
- Sammy Leibowitz, CFO
- Elad Shabtai, EVP, Formulation Supply
- Hongsheng Liu, EVP, AI Production
- Florian Wagner, EVP, Portfolio & Innovation
- Eric Dereudre, EVP, Chief Commercial Officer
- Ingolf-Christian Quandt, General Counsel
- Orly Pascal, EVP, HR

The internal auditing of financial reporting and disclosure includes the existing controls and procedures in the Corporation, which were designed by the Chief Executive Officer and the senior corporate financial officer or under their supervision, or by the individual who in practice executes these functions, under the supervision of the Corporation's Board of Directors and which are intended to provide a reasonable confidence regarding the reliability of financial reporting and preparation of the reports according to the instructions of the law, and to ensure that the information the Corporation is required to disclose in the reports that it publishes according to the instructions of the law is collected, processed, summarized and reported on the dates and in the format dictated by law.

The internal auditing includes, inter alia, audits and procedures that were designated to ensure that said information the Corporation is required to disclose was accumulated and submitted to the Corporation's Management, including the Chief Executive Officer and the senior corporate financial officer or the individual who in practice fulfills these functions, so as to facilitate decision making at the appropriate time, with regard to the disclosure requirements.

Due to its structural constraints, internal auditing of financial reporting and disclosure is not intended to fully guarantee that a biased presentation or the omission of information in the reports will be avoided or discovered.

In the quarterly report on the effectiveness of the internal auditing of the financial reports and disclosure which was attached to the quarterly report for the period ended on June 30, 2026 (hereinafter: the "**Last Quarterly Report on Internal Auditing**"), the internal auditing was found to be effective.

Up to the date of the report, the Board of Directors and the Management were not made aware of any event or matter that would have changed their assessment of the effectiveness of internal auditing, as it was presented in the Last Quarterly Report on Internal Auditing.

As of the date of the report and based on the assessment of the effectiveness of the internal auditing in the Last Quarterly Report on Internal Auditing and on the information brought to the attention of the Management and the Board of Directors as mentioned above, the internal auditing is effective.

Officers' Certification

Certification of CEO according to Regulation 38C(d)(1)

I, Gael Hili, affirm that:

1. I have reviewed the quarterly reports of ADAMA Agricultural Solutions Ltd. (hereinafter: the "**Corporation**") for the third quarter of 2026 (hereinafter: the "**Reports**").
2. Based on my knowledge, the Reports do not contain any untrue statement of a material fact or omit a material fact necessary in order to make the statements made therein, in light of the circumstances under which such statements were made, misleading with respect to the period covered by the Reports.
3. Based on my knowledge, the financial statements and other financial information included in the Reports, fairly present in all material respects, the financial condition, results of operations and cash flows of the Corporation as of the dates and for the periods presented in the reports.
4. Based on my most recent evaluation regarding internal control over financial reporting and disclosure, I have disclosed to the Corporation's Auditors, Board of Directors and the Corporation's Audit Committee and Financial Statements Committee:
   a. All significant deficiencies and material weaknesses in the establishment or operation of internal control over financial reporting and disclosure, which may reasonably adversely affect the Corporation's ability to collect, process, summarize or report financial data so as to cast doubt on the reliability of financial report and the preparation of financial statements in accordance with law; and -
   b. Any fraud, whether or not material, that involves the CEO or anyone directly subordinated to the CEO or that involves other employees who have a significant role in internal control over financial reporting and disclosure.
5. I, alone or together with others in the Corporation, state that:
   a. Have established such controls and procedures, or I have confirmed the establishment and existence of such controls and procedures to under my supervision, so as to ensure that material information relating to the Corporation, including its consolidated corporations as defined in the Securities Regulations (Annual Financial Statements) 5770-2010, is made known to me by others in the Corporation and the consolidated corporations, particularly during the course of the period wherein the Reports are being prepared; and
   b. Have established such controls and procedures, or I have confirmed the establishing and existence of such controls and procedures under my supervision, so as to ensure reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the law, including in accordance with generally accepted accounting principles; and
   c. No event or matter which occurred during the period between the date of the last report (quarterly or periodic, as the case may be) and the date of this report has been brought to my attention that would change the conclusion of the Board of Directors and the Management with respect to the effectiveness of the internal auditing of the Corporation's financial reporting and disclosure.

Nothing in the aforesaid derogates from my responsibility or from the responsibility of any other individual under the law.

Date: 28.10.2026

Gael Hili
President and CEO

Officers' Certification

Certification of Chief Financial Officer according to Regulation 38C(d)(2)

I, Sammy Leibowitz, affirm that:

1. I have reviewed the interim financial statements and other financial information included in the interim period reports of ADAMA Agricultural Solutions Ltd. (hereinafter: the "**Corporation**") for the third quarter of 2026 (hereinafter: the "**Reports**" or the "**Interim Period Reports**").
2. Based on my knowledge, the interim financial statements and other financial information included in the Interim Period Reports do not contain any untrue statement of a material fact nor do they omit a material fact necessary in order to make the statements made therein, in light of the circumstances under which such statements were made, misleading with respect to the period covered by the reports.
3. Based on my knowledge, the interim financial statements and other financial information included in the Interim Period Reports, fairly present in all material respects, the financial condition, results of operations and cash flows of the Corporation as of the dates and for the periods presented in the reports.
4. Based on my most recent evaluation regarding internal control over financial reporting and disclosure, I have disclosed to the Corporation's Auditors, Board of Directors and the Corporation's Audit Committee and Financial Statements Committee:
   a. All significant deficiencies and material weaknesses in the establishment or operation of internal control over financial reporting and disclosure insofar as such refers to the Interim Period Reports and the other financial information recorded therein, which may reasonably adversely affect the Corporation's ability to collect, process, summarize or report financial data so as to cast doubt on the reliability of financial report and the preparation of financial statements in accordance with law; and
   b. Any fraud, whether or not material, that involves the CEO or anyone directly subordinated to the CEO or that involves other employees who have a significant role in internal control over financial reporting and disclosure.
5. I, alone or together with others in the Corporation:
   a. Have established such controls and procedures, or have confirmed the establishment and existence of such controls and procedures to be designed under our supervision, so as to ensure that material information relating to the Corporation, including its consolidated corporations as defined in the Securities Regulation (Annual Financial Statements) 5770 - 2010, is made known to me by others in the Corporation and the consolidated corporations, particularly during the course of the period wherein the Reports are being prepared; and
   b. Have established such controls and procedures, or confirmed the establishment and existence of such controls and procedures under my supervision, so as to ensure reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the law, including in accordance with generally accepted accounting principles; and
   c. No event or matter has been brought to my attention which occurred during the course of the period between the date of the last report (quarterly or periodic, as the case may be) and the date of this report that relates to the interim financial statements and any other financial information that is included in the interim period reports, that would change the conclusion of the Board of Directors and the Management with respect to the effectiveness of the internal auditing of the Corporation's financial reporting and disclosure.

Nothing in the aforesaid derogates from my responsibility or from the responsibility of any other individual under the law.
