RE: South Place City Center
20505 S Dixie Highway
Cutler Bay, Florida 33189

Colliers File #: JAX260215

Mr. Miller:

Pursuant with our engagement, the above captioned property was appraised utilizing best practice appraisal principles for this property type. This appraisal report satisfies the scope of work and requirements agreed upon by American Landmark, LLC and Colliers International Valuation & Advisory Services.

At the request of the client, this appraisal is presented in an Appraisal Report format as defined by *USPAP* Standards Rule 2-2(a). Our appraisal format provides a detailed description of the appraisal process, subject and market data and valuation analyses.

The purpose of this appraisal is to develop an opinion of the As-Is Market Value of the subject property's leased fee and fee simple interests. The IVSB considers that the definition of Fair Value in IFRS is generally consistent with market value with respect to IFRS Standard according to IFRS 13 as it relates to fair market value according to IFRS 9 and 10 (which also refers to IAS 40). This is further discussed in IVS 300 Valuations for Financial Reporting. The following table conveys the final opinion of market value of the subject property that is developed within this appraisal report:

VALUE TYPE	INTEREST APPRAISED	DATE OF VALUE	VALUE
As-Is Market Value	Leased Fee And Fee Simple	June 30, 2026	$243,300,000

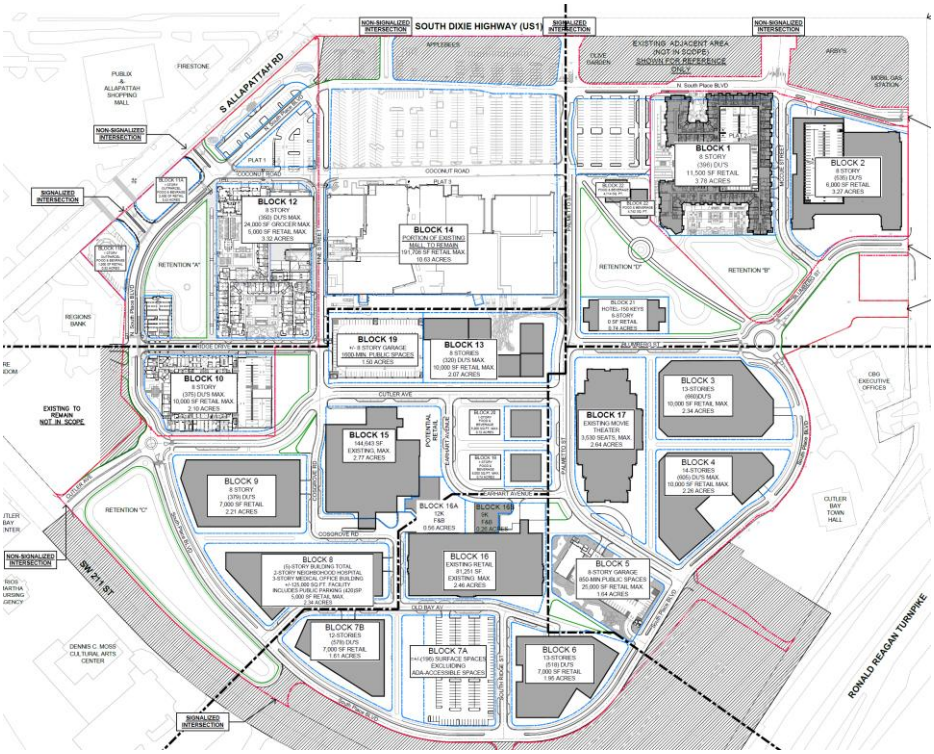

Colliers International Valuation & Advisory Services, and certain of its subsidiaries, is an independently owned and operated business and a member firm of Colliers International Property Consultants, an affiliation of independent companies with over 500+ offices throughout more than 62 countries worldwide.

Colliers has provided several prior appraisals on the subject property. The following table summarizes these value conclusions.

Prior Appraisal Services

DATE	PURPOSE	AS-IS MARKET VALUE
June 30, 2023	As-Is Market Value	$225,400,000
June 30, 2024	As-Is Market Value	$222,200,000
June 30, 2025	As-Is Market Value	$231,100,000
June 30, 2026	As-Is Market Value	$243,300,000

The subject is Southland Mall, a 983,844-SF enclosed regional mall located at 20505 S Dixie Highway in Cutler Bay, Florida. The current owner acquired the subject property in 2022 with plans to redevelop the existing mall and surrounding surface parking for mixed-use development. The overall development as planned will include 22 blocks and will be known as South Place City Center. As of the date of inspection, demolition had begun on Blocks 1-2 and 10-12, and ownership has already started “de-leasing” the inline shop space within the mall. A site plan showing the various development blocks is presented below.

Redevelopment plans for the existing mall include demolition of the majority of the shop/inline retail space to reposition the existing retail as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. Blocks 1-13, and 18-22 within South Place City Center are planned for mixed-use development and include residential apartments with supportive retail, medical office and food/beverage uses as well as a hotel. They will also contain some common areas used for parking garages, stormwater retention and plaza/open areas that will benefit the development as a whole. Redevelopment of the current improvements and horizontal infrastructure work for the proposed blocks began in late-2023 and is anticipated to continue into 2028. The owner/developer has already received conceptual master plan approval for the overall development from the Town of Cutler Bay and will only need site plan approval for specific development of the individual blocks. Blocks 1, 11 and 12 have received site plan approval to date, while site plan approval for Block 2 is in process. As of late 2023, the company began implementing the development and demolition plan for Block 12.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Blocks 14-17 consist of the portions of the existing mall which will remain as part of the redevelopment as a power center. The façade and common areas of this retail component will be renovated as part of the redevelopment. Also included in the retail component is Block 11A. Upon completion, the retail component within Blocks 11A and 14-17 will include 516,942 square feet of NRA; including a 5,600 SF Applebee's restaurant which is part of a ground lease. The retail component includes three freestanding anchors, Macy's (Block 15 - 156,643 SF), JC Penney (Block 16 - 90,251 SF), and Regal Cinemas (Block 17 - 70,718 SF). Junior anchor tenants are located in Block 14 and include TJ Maxx (35,640 SF), Ross Dress for Less (28,145 SF), Old Navy (14,352 SF), DSW (14,037 SF), Florida Technical College (30,017 SF) and Five Below (10,194 SF), and PetSmart (15,693 SF), along with some smaller inline shop tenants. As part of the redevelopment, DSW has downsized from their original space and relocated into Suite 560, and Ross Dress for Less has backfilled the DSW space. Block 11A will consist of a 1,500 SF quick service restaurant to be leased to Sonic.

We note that LA Fitness currently leases Suite 535 (32,000 SF) but will be vacating in June 2027. As part of a lease dispute settlement, the landlord will pay $6,000,000 to the tenant in two equal payments. The first payment was to be made 30 business days after execution of the agreement and is understood and assumed to have already been paid. The second payment of $3,000,000 is to be made within 11 months of the agreement, which is understood to be funded by the holding company rather than the subject P&L. However, we have not made a deduction from the subject valuation within our analysis, as this represents a legal discount outside of the normal property operations. Ownership notes that they are accounting for the remaining payment in a different component of their financial reporting and, therefore, it is excluded from this analysis so it is not double-counted. This valuation is based on the extraordinary assumption that all past, present, and future financial liabilities associated with this settlement are the sole responsibility of the holding company and does not run with the property. In the event the subject property sells, it is assumed the settlement will be fully satisfied by the seller, and will not be carried forward with the property or transferred to any subsequent buyer. If this is not true, then we reserve the right to readdress our value conclusions, which would effectively equate to the amount of the outstanding second payment.

According to ownership, they have started "de-leasing" the existing mall spaces that will be demolished as part of the redevelopment, and all applicable spaces will be vacated by 3rd Quarter 2026. We note that the shop/inline retail space being demolished will provide some interim revenue until the leases expire and/or the spaces are demolished. However, the revenue will be largely offset by the costs of operating, including high insurance, security, and cleaning costs. Therefore, we have not included any additional contributory interim income in our cash flow for the shop/inline space that is coming offline by 3Q2026.

The redevelopment of the mall (Blocks 14-17, 11A) is scheduled to be fully completed and stabilized by 2028. Completed construction to date of capital improvements associated with renovation of the mall include roof improvements, bathroom renovations, addition of a loading dock for the new junior anchor suites, renovations of the primary entrance, and landlord work associated with the new junior anchor space, Suite 905, leased to PetSmart. The developer also estimates landlord work associated with the development of Suite 829 and Blocks 15 and 16, not including tenant improvement allowances and leasing commissions. As of the effective date, budgeted landlord work costs are projected to be $8,830,389.

The analyses, opinions and conclusions communicated within this appraisal report were developed based upon the requirements and guidelines of the current Uniform Standards of Professional Appraisal Practice (USPAP), the requirements of the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute.

The report, in its entirety, including all assumptions and limiting conditions, is an integral part of, and inseparable from, this letter. *USPAP* defines an Extraordinary Assumption as, "an assignment specific-assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

appraiser's opinions or conclusions". *USPAP* defines a Hypothetical Condition as, "that which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis".

The Extraordinary Assumptions and/or Hypothetical Conditions that were made during the appraisal process to arrive at our opinion of value are fully discussed below. We advise the client to consider these issues carefully given the intended use of this appraisal, as their use might have affected the assignment results.

EXTRAORDINARY ASSUMPTIONS

We are aware of an existing lease dispute settlement with LA Fitness who currently leases Suite 535 (32,000 SF) but will be vacating in June 2027. As part of a lease dispute settlement, the landlord will pay $6,000,000 to the tenant in two equal payments. The first payment was to be made 30 business days after execution of the agreement and is understood and assumed to have already been paid. The second payment of $3,000,000 is to be made within 11 months of the agreement, which is understood to be funded by the holding company rather than the subject P&L. However, we have not made a deduction from the subject valuation within our analysis, as this represents a legal discount outside of the normal property operations. Ownership notes that they are accounting for the remaining payment in a different component of their financial reporting and, therefore, it is excluded from this analysis so it is not double-counted. This valuation is based on the extraordinary assumption that all past, present, and future financial liabilities associated with this settlement are the sole responsibility of the holding company and does not run with the property. In the event the subject property sells, it is assumed the settlement will be fully satisfied by the seller, and will not be carried forward with the property or transferred to any subsequent buyer. If this is not true, then we reserve the right to readdress our value conclusions, which would effectively equate to the amount of the outstanding second payment.

We have been provided with a variety of information from ownership related to the respective size and leasing of the redeveloped improvements, as well as the timeline for development and construction costs. We have also relied on information provided by the owner/developer regarding the sizes and configuration of the proposed development blocks, which we assume are accurate. We reserve the right to amend our value conclusions should more accurate information become available.

The subject property currently has adequate surfacing parking. However, as part of the larger development plan, portions of subject's existing surface parking will be redeveloped and included in the other Blocks. The development plans include multiple parking garages which will serve the subject and surrounding development. Upon completion of the proposed development, the subject will have a mix of surface and garage parking. Our value opinion assumes the subject's parking will be compliant with zoning requirements, and will be adequate to serve the subject's tenants and customers based on market standards for similar retail centers.

HYPOTHETICAL CONDITIONS

This Appraisal Report is not contingent on any hypothetical conditions.

RELIANCE LANGUAGE

The Appraisal is for the sole use of the Client; however, Client may provide only complete, final copies of the Appraisal report in its entirety (but not component parts) to third parties who shall review such reports in connection with loan underwriting or securitization efforts. Colliers International Valuation & Advisory Services is not required to explain or testify as to appraisal results other than to respond to the Client for routine and customary questions. Please note that our consent to allow the Appraisal prepared by Colliers International Valuation & Advisory Services or portions of such Appraisal, to become part of or be referenced in any public offering, the granting of such consent will be at our sole and absolute discretion and, if given, will be on condition that Colliers International Valuation & Advisory Services will be provided with an Indemnification Agreement

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

and/or Non-Reliance letter, in a form and content satisfactory to Colliers International Valuation & Advisory Services, by a party satisfactory to Colliers International Valuation & Advisory Services. Colliers International Valuation & Advisory Services does consent to your submission of the reports to rating agencies, loan participants or your auditors in its entirety (but not component parts) without the need to provide Colliers International Valuation & Advisory Services with an Indemnification Agreement and/or Non-Reliance letter.

Colliers International Valuation & Advisory Services hereby expressly grants to Client the right to copy the Appraisal and distribute it to other parties in the transaction for which the Appraisal has been prepared, including employees of Client, other lenders in the transaction, and the borrower, if any.

Our opinion of value reflects current conditions and the likely actions of market participants as of the date of value. It is based on the available information gathered and provided to us, as presented in this report, and does not predict future performance. Changing market or property conditions can and likely will have an effect on the subject's value.

CLIENT RELIANCE LANGUAGE

The intended users of the appraisal are American Landmark and Electra, and each of their respective subsidiary entities whose financial statements are consolidated with any of the foregoing named entities, but only in connection with such parties' participation in the Intended Use. The identification of Intended User(s) of the appraisal is to determine the type and extent of research, analysis and reporting appropriate for the assignment. Designation of a party other than Client as an Intended User is not intended to confer upon such party any rights under this Agreement. The intended use of the appraisal is for financial reporting by the Client. The Firm knows and agrees that the appraisal will be used and/or included in certain quarterly and annual financial statements as of dates in calendar year 2026 of some or all of the Intended Users, including such financial statements as shelf prospectuses or shelf offering reports to be published by any of the said Intended Users, including by way of referral, as well as in any immediate report under Securities Law, 5728-1968 and its regulations which, according to the provisions of the law, the said companies will be required to include. The complete report may also be used by Client and its holding companies as an addendum to public filings on the Tel Aviv Stock Exchange. The appraisal was developed based on, and this report has been prepared in conformance with the Client's appraisal requirements, the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice (USPAP), the Interagency Appraisal and Evaluation Guidelines (December 2, 2010), and the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.

PROPERTY IDENTIFICATION

The subject is Southland Mall, a 983,844-SF enclosed regional mall located at 20505 S Dixie Highway in Cutler Bay, Florida. The current owner acquired the subject property in 2022 with plans to redevelop the existing mall and surrounding surface parking for mixed-use development. The overall development as planned will include 22 blocks and will be known as South Place City Center. As of the date of inspection, demolition had begun on Blocks 1-2 and 10-12, and ownership has already started “de-leasing” the inline shop space within the mall.

Redevelopment plans for the existing mall include demolition of the majority of the shop/inline retail space to reposition the existing retail as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. Blocks 1-13, and 18-22 within South Place City Center are planned for mixed-use development and include residential apartments with supportive retail, medical office and food/beverage uses as well as a hotel. They will also contain some common areas used for parking garages, stormwater retention and plaza/open areas that will benefit the development as a whole. Redevelopment of the current improvements and horizontal infrastructure work for the proposed blocks began in late-2023 and is anticipated to continue into 2028. The owner/developer has already received conceptual master plan approval for the overall development from the Town of Cutler Bay and will only need site plan approval for specific development of the individual blocks. Blocks 1, 11 and 12 have received site plan approval to date, while site plan approval for Block 2 is in process. As of late 2023, the company began implementing the development and demolition plan for Block 12.

Blocks 14-17 consist of the portions of the existing mall which will remain as part of the redevelopment as a power center. The façade and common areas of this retail component will be renovated as part of the redevelopment. Also included in the retail component is Block 11A. Upon completion, the retail component within Blocks 11A and 14-17 will include 516,942 square feet of NRA; including a 5,600 SF Applebee’s restaurant which is part of a ground lease. The retail component includes three freestanding anchors, Macy’s (Block 15 - 156,643 SF), JC Penney (Block 16 - 90,251 SF), and Regal Cinemas (Block 17 - 70,718 SF). Junior anchor tenants are located in Block 14 and include TJ Maxx (35,640 SF), Ross Dress for Less (28,145 SF), Old Navy (14,352 SF), DSW (14,037 SF), Florida Technical College (30,017 SF) and Five Below (10,194 SF), and PetSmart (15,693 SF), along with some smaller inline shop tenants. As part of the redevelopment, DSW has downsized from their original space and relocated into Suite 560, and Ross Dress for Less has backfilled the DSW space. Block 11A will consist of a 1,500 SF quick service restaurant to be leased to Sonic. We note that LA Fitness currently leases Suite 535 (32,000 SF) but will be vacating in June 2027.

According to ownership, they have started “de-leasing” the existing mall spaces that will be demolished as part of the redevelopment, and all applicable spaces will be vacated by 3rd Quarter 2026. We note that the shop/inline retail space being demolished will provide some interim revenue until the leases expire and/or the spaces are demolished. However, the revenue will be largely offset by the costs of operating, including high insurance, security, and cleaning costs. Therefore, we have not included any additional contributory interim income in our cash flow for the shop/inline space that is coming offline by 3Q2026.

The redevelopment of the mall (Blocks 14-17, 11A) is scheduled to be fully completed and stabilized by 2028. Completed construction to date of capital improvements associated with renovation of the mall include roof improvements, bathroom renovations, addition of a loading dock for the new junior anchor suites, renovations of the primary entrance, and landlord work associated with the new junior anchor space, Suite 905, leased to PetSmart. The developer also estimates landlord work associated with the development of Suite 829 and Blocks 15 and 16, not including tenant improvement allowances and leasing commissions. As of the effective date, budgeted landlord work costs are projected to be $8,830,389.

The assessor’s parcel numbers are: 36-6007-020-0020, 36-6007-000-0546, 36-6007-020-0010, 36-6007-020-0015. A detailed legal description specific to the subject's various components was not provided.

CLIENT IDENTIFICATION

The client of this specific assignment is American Landmark, LLC.

PURPOSE

The purpose of this appraisal is to develop an opinion of the As-Is Market Value of the subject property's leased fee and fee simple interests. The IVSB considers that the definition of Fair Value in IFRS is generally consistent with market value with respect to IFRS Standard according to IFRS 13 as it relates to fair market value according to IFRS 9 and 10 (which also refers to IAS 40). This is further discussed in IVS 300 Valuations for Financial Reporting.

INTENDED USE

The report to be performed under this Agreement ("Appraisal") is intended only for use in Financial Reporting for IFRS compliance, inclusive in the Prospectus of ENA 2. The report is not intended for any other use.

INTENDED USERS

Intended users of this report include American Landmark, LLC and Electra America, Inc. Use of this report by third parties and other unintended users is not permitted. This report must be used in its entirety. Reliance on any portion of the report independent of others, may lead the reader to erroneous conclusions regarding the property values. Unless approval is provided by the authors no portion of the report stands alone.

ASSIGNMENT DATES

Date of Report	August 11, 2026
Date of Inspection	June 7, 2026
Valuation Date - As-Is	June 30, 2026

PERSONAL INTANGIBLE PROPERTY

No personal property or intangible items are included in this valuation.

PROPERTY AND SALES HISTORY

Current Owner

The subject title is currently recorded in the name of BH South Dixie SL Mall, LLC, BH South Dixie Dev, LLC, and BH Retail South Dixie, LLC, who acquired title to the property on April 29, 2022, in separate transactions as recorded in the Miami-Dade County Deed Records.

Three-Year Sales History

The subject property previously sold under multiple transactions, as indicated in the table that follows. Based on discussions with the current owner and/or broker and a review of public records and private data services, the prior sales appear to have been an arm's-length transactions and were not impacted by any concessions.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

As indicated above, the subject property was acquired in multiple transactions between April 29, 2022, and October 20, 2022, for a combined sale price of $134,000,000. This acquisition included an operating enclosed mall and surrounding land, and was purchased for redevelopment. Since the acquisition, the subject property has received approval for a mixed-use master plan development and extensive entitlements have been secured. These approvals have resulted in a material value change since the acquisition. The previous sale reflects not only an assemblage but also the acquisition of an improved property that does not reflect the highest and best use since the approvals have been received. Based on these factors, the previous sale price does not reflect the current value of the subject property and has only been considered from a historical context given the material impact in change the conceptual master plan approval has had on the asset value.

Subject Sale Status
The Sponsor plans to sell the blocks to like-minded developers or related parties to achieve the master development vision. There has been interest in several of the other subject blocks and talks are underway, although asking prices have not been established and no agreements are reportedly imminent based on our discussions with ownership.

DEFINITIONS

This section summarizes the definitions of value, property rights appraised, and value scenarios that are applicable for this appraisal assignment. All other applicable definitions for this assignment are located in the Valuation Glossary section of the Addenda.

DEFINITIONS OF VALUE

Given the scope and intended use of this assignment, the following definition of value is applicable:

Market Value
The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised, and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. [1]

PROPERTY RIGHTS APPRAISED

The property rights appraised for Blocks 11A and 14-17 constitute the leased fee interest, while the remaining land blocks constitute a fee simple interest.

Fee Simple Estate
Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat.[2]

[1] Interagency Appraisal and Evaluation Guidelines, December 10, 2010, Federal Register, Volume 75 Number 237, Page 77472
[2] The Dictionary of Real Estate Appraisal, Seventh Edition, Appraisal Institute, Chicago, Illinois, 2022

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Leased Fee Interest
The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.[3]

VALUE SCENARIOS

As-Is Value
The estimate of the market value of real property in its current physical condition, use, and zoning as of the appraisal date.[4]

INTRODUCTION

The appraisal development and reporting processes requires gathering and analyzing information about those assignment elements necessary to properly identify the appraisal problem to be solved. The scope of work decision must include the research and analyses that are necessary to develop credible assignment results given the intended use of the appraisal. Sufficient information includes disclosure of research and analyses performed and might also include disclosure of research and analyses not performed. The scope of work for this appraisal assignment is outlined below:

- The appraisers analyzed the regional and local area economic profiles including employment, population, household income, and real estate trends. The local area was further studied to assess the general quality and condition, and emerging development trends for the real estate market. The immediate market area was inspected and examined to consider external influences on the subject.
- The appraisers confirmed and analyzed legal and physical features of the subject property including sizes of the site and improvements, flood plain data, seismic zone, zoning, easements and encumbrances, access and exposure of the site, and construction materials and condition of the improvements. This process also included estimating the remaining economic life of the improvements, analysis of the subject's site coverage and parking ratios compared to market standards, a process to identify deferred maintenance and a conclusion of the subject's overall functional utility.
- The appraisers completed a retail and apartment market analysis that included market and sub-market overviews. The Miami market and South Dade sub-market overviews analyzed supply/demand conditions using vacancy, absorption, supply change and rent change statistics. Conclusions were drawn regarding the subject property's competitive position given its physical and locational characteristics, the prevailing economic conditions and external influences.
- The appraisers conducted a Highest and Best Use analysis, determining the highest and best use of the subject property As-Vacant and As-Improved. The analysis considered legal, locational, physical and financial feasibility characteristics of the subject property. Development of the Highest and Best Use As-Improved explored potential alternative treatments of the property including demolition, expansion, renovation, conversion, and continued use "as-is."
- The appraisers confirmed and analyzed financial features of the subject property including historical and budgeted income/expense data, rent roll, lease documents, and tax and assessment records. This information as well as trends established by confirmed market indicators was used to forecast performance of the subject property.
- Selection of the valuation methods was based on the identifications required in USPAP relating to the intended use, intended users, definition and date of value, relevant property characteristics and assignment conditions. As a result, this appraisal developed the Income (Discounted Cash Flow & Direct Capitalization) and Sales Comparison approaches to value. The resulting value indicators were reconciled within the Analysis of Value Conclusions section. The appraisal develops an opinion of the As-Is Market Value of the subject property's leased fee and fee simple interests. The reasoning for including or excluding traditional approaches to value is developed within the Valuation Methodology section.
- Reporting of this appraisal is in an Appraisal Report format as required in USPAP Standard 2. The appraiser's analysis and conclusions are fully described within this document.
- We understand the Competency Rule of USPAP and the authors of this report meet the standards.
- No one provided significant real property appraisal assistance to appraisers signing this certification.

REGIONAL ANALYSIS

The Miami-Fort Lauderdale-Pompano Beach, FL MSA is in the southeast portion of the state. The MSA is comprised of Florida's three most populous counties: Broward, Palm Beach and Miami-Dade. The MSA's principal cities include Miami, Fort Lauderdale, Pompano Beach, West Palm Beach, and Boca Raton. The tri-county region is referred to as South Florida.

Florida certainly has a winning formula for business attraction. In particular, Florida is becoming a hotspot for banking and financial services, while Miami is emerging as "one of the hottest new tech hubs in North America today.

Inflation 2025

The Consumer Price Index (CPI) as of September 2025 increased on an annual basis of 3.0%. Core inflation, which excludes food and energy, has increased at an annualized rate of 3.0%.

Business Friendliness

Locating in Miami-Dade is a great financial decision. There is no state or local personal income tax, corporate income tax is low, and businesses can rely on a favorable regulatory climate.

The state is encouraging companies to create new jobs for local workers alongside relocating their existing workforce. West Palm Beach has offered financial incentives to companies moving to the city based on the number of jobs they create, including expedited permit reviews and tax exemptions. And it's not just finance and tech workers who are benefiting from Florida's growing economy. The state's current minimum wage is $12 per hour and plans on also increasing the minimum wage to $15 per hour by 2026.

Florida doesn't have a personal income tax, and this is one of the major motivators for migration. Many people moving to the state come from high-tax states that don't have such a pro-business environment, like Connecticut and New Jersey, as well as New York, which recently announced plans to bump up its income-tax rates for its wealthiest residents.

Jeff Bezos announced in November of 2023 he is moving to Miami FL permanently and since his announcement, Amazon in 2025 signed a 50,000 SF of office lease in Wynwood.

Financial firms such as hedge fund Citadel, investments firms Goldman Sachs and Elliott Management and real estate investors and money manager Black Rock all set up operations in South Florida during 2022.

2022 was a record-breaking year for corporate relocations to South Florida. Miami-Dade County's economic development arm said 57 companies either relocated or expanded into the county this year, and another 51 companies are in the pipeline for 2024. These companies expect to generate 14,818 new jobs locally, including 5,734 new direct high-value positions at an average salary of $98,000, and contribute an estimated $405M in capital investments.

Florida's Live Local Act is intended to address the statewide erosion in affordability by providing low interest rate loans for the development of affordable housing, property tax exemption for new or rehabilitated 0- to 5-unit

multifamily housing, and down payment/closing assistance for eligible workforce first-time homebuyers (e.g., teachers, police, firemen), among others.

Gateway To The World

Miami is the perfect pivot point to manage operations in both North and Latin America. The South Florida area is home to over 1,400 multinational businesses staffed by skilled and energetic residents speaking 128 languages. There are over 5,200 financial services firms, and legal and accounting firms comprehensively covering transaction requirements. Miami-Dade is also home to the USA's third largest number of consular corps, foreign trade offices, and binational chambers of commerce.

Seamless Connectivity

Miami-Dade is easily accessible to all areas of the globe, with the region's three international airports handling more than 2,000 daily flights. PortMiami –boasting the only Panamax-ready port south of Virginia –plays a leading role in global commerce and is the driving force behind $43 billion in economic activity. Port Miami is also known as the 'cruise capital' of the world. Which is home to some of the world's largest cruise lines, including Carnival Corporation, Disney Cruise Line, MSC Cruises, Norwegian Cruise Line and Royal Caribbean Cruises Ltd. Its popularity could be due to its south-east Florida location, which is ideal for cruise ships wanting to sail the Caribbean within a matter of hours.

Highly Skilled And Diverse Talent

South Florida residents are a part of Miami-Dade County - Best Region for Investment the "tri-county" market of 6.1 million 2022 local residents and a combined workforce of over 3 million people. They are highly educated: Miami is top in the USA for percentage growth of adults with graduate degrees, and second in the nation for foreign-born residents with advanced degrees. There are more than 170,000 college students and 775K K-12 students are enrolled in South Florida Public Schools. Miami proper draws young professionals with a multitude of trade and banking careers, while Miami Beach still has a party-hard atmosphere.

According to the Economic Sourcebook & Market Profile for 2023, a study was conducted to measure the level of education of the population that is 25 years old or older in Broward County. The conclusion is that the general public is pursuing a high form of education with 62.3% of the population having achieve a higher level of education. The breakdown goes as follows from the largest group to the smallest: some college or associate degree 29.2%, high school graduate 27.0%, bachelor's degree 20.6%, advanced degree 12.5%, no high school diploma 10.6%

A Global Cultural Capital

Living the dream is a reality in Miami with endless opportunities for world-class shopping, dining, and entertainment. For adventure and outdoor activities, Miami-Dade offers world famous beaches and 250 days of sunshine annually. For sports fans, Greater Miami is globally unique, it is the only metropolis with professional basketball, football, baseball, hockey, soccer and Formula1 teams. Greater Miami is a capital for international art and culture, there are also many world-class museums, performing arts and music events, and celebrity chefs crafting haute cuisine. Miami also has an artistic side, which can be experienced at the Art Basel Miami Beach art fair, as well as in Wynwood and the Design District. These neighborhoods also encompass antiques stores, craft breweries and vintage sports car dealers.

DEMOGRAPHIC ANALYSIS

The following is a demographic study of the region sourced by *Esri ArcGIS®*, an on-line resource center that provides information used to analyze and compare the past, present, and future trends of geographical areas. Demographic changes are often highly correlated to changes in the underlying economic climate. Periods of economic uncertainty necessarily make demographic projections somewhat less reliable than projections in more stable periods. These projections are used as a starting point, but we also consider current and localized market knowledge in interpreting them within this analysis. Please note that our demographics provider sets forth income projections in constant dollars which, by definition, reflect projections after adjustment for inflation. We are aware of other prominent demographic data providers that project income in current dollars, which do not account for inflation. A simple comparison of projections for a similar market area made under the constant and current dollar methodologies can and likely will produce data points that vary, in some cases, widely. Further, all forecasts, regardless of demographer methodology(ies), are subjective in the sense that the reliability of the forecast is subject to modeling and definitional assumptions and procedures.

Population

According to Esri ArcGIS®, a Geographic Information System (GIS) Company, the Miami-Fort Lauderdale-West Palm Beach metropolitan area had a 2025 population of 6,279,575 and experienced an annual growth rate of 0.5%, which was lower than the Florida annual growth rate of 1.3%. The metropolitan area accounted for 27.3% of the total Florida population (23,027,836). Within the metropolitan area the population density was 1,239.3 people per square mile compared to the lower Florida population density of 429.2 people per square mile and the lower United States population density of 96.2 people per square mile.

Education

In Florida, each county has its own school district. The school districts within the MSA include the Miami-Dade County School District, the Palm Beach County School District, and Broward County Public School District. The largest universities and colleges in the regional area include Barry University, Broward College, Florida Atlantic University, Florida International University, Lynn University, Miami Dade College, and Palm Beach State University.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

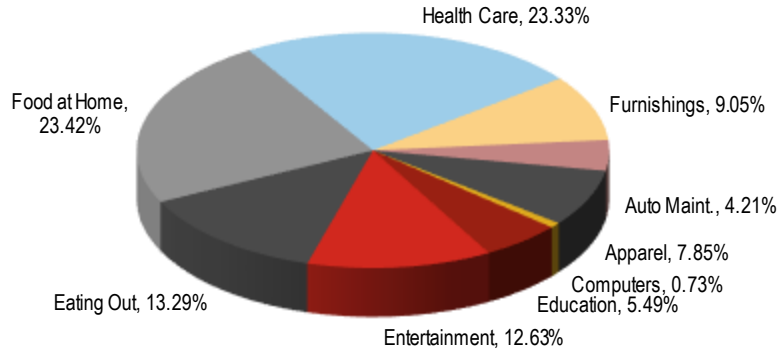

Household Trends

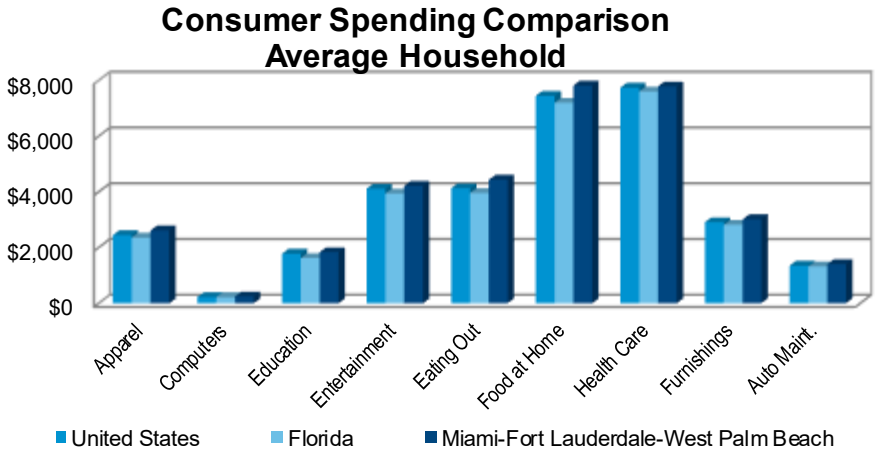

The 2025 Households number of households in the metropolitan area was 2,435,179. The number of households in the metropolitan area is projected to grow by 0.6% annually, increasing the number of households to 2,513,778 by 2030 Households. The 2025 average household size for the metropolitan area was 2.54, which was 1.60% larger than the United States average household size of 2.50 for 2025. The average household size in the metropolitan area is anticipated to retract by 0.24% annually, reducing the average household size to 2.51 by 2030. The Miami-Fort Lauderdale-West Palm Beach metropolitan area had 39.96% renter occupied units, compared to the lower 32.83% in Florida and the lower 35.77% in the United States.

Income Trends

The 2025 median household income for the metropolitan area was $81,469, which was -0.19% lower than the United States median household income of $81,624. The median household income for the metropolitan area is projected to grow by 3.35% annually, increasing the median household income to $96,053 by 2030. According to the American Chamber of Commerce Researchers Association (ACCRA) Cost of Living Index, the Miami-Fort Lauderdale-West Palm Beach, FL MSA's cost of living is 120.1 compared to the national average score of 100. The ACCRA Cost of Living Index compares groceries, housing, utilities, transportation, health care and miscellaneous goods and services for over 300 urban areas.

Consumer Spending Miami-Fort Lauderdale-West Palm Beach

EMPLOYMENT

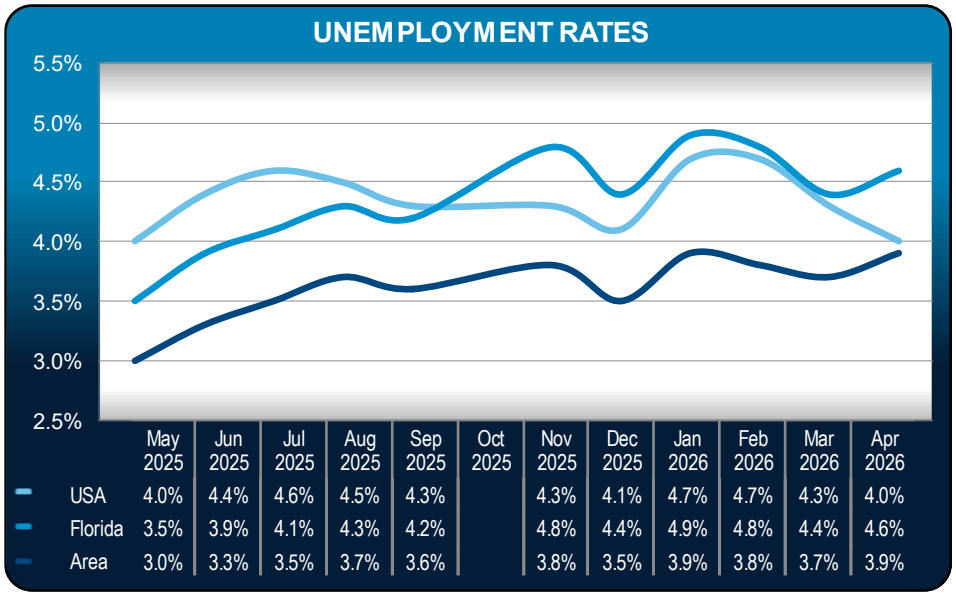

Total employment has increased annually over the past decade in the state of Florida by 1.5% and increased annually by 1.2% in the area. From 2024 to 2025 unemployment increased in Florida by 0.5% and increased by

0.4% in the area. In the state of Florida unemployment has increased over the previous month by 0.2% and increased by 0.2% in the area.

In addition to large corporations, universities, hospitals and public-sector employment located within the Miami-Fort Lauderdale-Pompano Beach MSA, smaller businesses make up a large portion of the local employment picture.

TRANSPORTATION

The South Florida metropolitan area has a well-developed transportation system. Miami is the primary transportation hub of the United States to the Caribbean Islands and Latin America. It has three international airports supported by numerous municipal airports in close proximity, four seaports as well as a considerable number of highways, U.S. routes and state roads as well as several public transportation systems.

Roadway

The South Florida metropolitan area is served by five interstate highways operated by the Florida Department of Transportation in conjunction with local agencies. I-95 runs north to south along the coast, ending just south of Downtown Miami. I-75 runs east to west, turning south in western Broward County; it connects suburban North Miami-Dade to Naples on the west coast via Alligator Alley, which transverses the Florida Everglades before turning north. I-595 connects the Broward coast and downtown Fort Lauderdale to I-75 and Alligator Alley. I-195 and I-395 both connect the main I-95 route to Biscayne Boulevard and Miami Beach, which is across Biscayne Bay. I-195 and I-395 also connect (at their interchanges with I-95) to the Airport Expressway (State Road 112) and the Dolphin Expressway (State Road 836), respectively, both of which run west to Miami International Airport; the Dolphin Expressway also connects to Florida's Turnpike and the western suburbs of Miami-Dade County.

Air

The South Florida area is served by three major airports: Miami International Airport (MIA), Fort-Lauderdale-Hollywood International Airport (FLL), and Palm Beach International Airport (PBI). The three airports combine to make the fourth largest domestic origin and destination market in the United States, after New York City, Los Angeles, and Chicago. The top 5 Air Carriers in South Florida ranked by domestic departing passengers from South Florida include American Airlines, Delta Air Lines, Southwest Airlines, JetBlue Airways and US Airways. Miami International Airport is the largest gateway between the United States and Latin America and is one of the largest airline hubs in the United States, owing to its proximity to tourist attractions, local economic growth, large local Latin American and European populations, and strategic location to handle connecting traffic between North America, Latin America, and Europe. Miami’s airport ranks third, behind Chicago and Memphis, in the US for cargo volumes with 1.8 million tons which fuels the demand for warehousing space. Miami International Airport is the primary airport serving the South Florida area and is the main connecting point for cargo between Latin America and the world. Miami International Airport handles 83% of all imports and exports to and from Latin America and the Caribbean. In 2015, the International Air Transport Association (IATA) certified Miami International Airport as a pharmaceuticals freight hub, the first U.S. and second global airport designated. MIA is home to 101 carriers which is the most of any U.S. airport. The following chart summarizes the local airport statistics. The following chart summarizes the local airport statistics.

AIRPORT STATISTICS

The following chart summarizes the local airport statistics.

Rail

In Miami, Miami-Dade Transit operates Metrorail, Florida's only rapid transit metro with 22 stations on a 22.4-mile (36.0 km) track, the Downtown Miami people mover, (Metromover) with 21 stations and 3 lines on 4.4-mile (7.1 km) track, as well as Metrobus. Miami-Dade commissioners announced a plan to build six new mass transit lines, “Strategic Miami Area Rapid Transit”, this will hopefully boost Miami’s often-criticized public transportation system, despite its 11th ranking nationally. In Broward County, Broward County Transit runs public buses as does Palm Tran in Palm Beach County. Additionally, the South Florida Regional Transportation Authority operates Tri-Rail, a commuter rail train that connects the three of the primary cities of South Florida (Miami, Fort Lauderdale, and West Palm Beach), and most intermediate points.

All Aboard Florida or Brightline is a passenger rail project that connects Miami and Orlando through express intercity service while also building new passenger stations. A wholly owned subsidiary of Florida East Coast Industries (FECI) is developing the project. It includes stations located in downtown Fort Lauderdale and West Palm Beach. The service will use the existing FEC corridor between Miami and Cocoa, while also building a new 40-mile stretch of tracks along the State Road 528 corridor between Cocoa and the Orlando International Airport. All Aboard Florida will serve the historic FEC rail corridor along the east coast of Florida, where approximately 50% of the state’s population (9M+) currently live.

The Florida East Coast Industries (FECI) train line is home to the newly opened Brightline train system. The privately operated higher-speed train opened in 2018 with its main hub, MiamiCentral, being just less than one mile west of Little Havana. Aventura and Boca Raton stations opened December 2022. In June 2020, Brightline announced the future addition of five Miami-Dade stations, one of which is proposed for Wynwood/Midtown at NE 27th Street between North Miami Avenue and Northeast 2nd Avenue. Though the exact location has not been finalized or made public, Tri-Rail previously expressed interest for a Wynwood/Midtown train station along the same tracks located at either 36th Street or 29th Street. The most recent addition was the Orlando International Airport Station opened in September 2023. In April 2024 Brightline reported an increase in ridership by 48% year over year, with over 223,000 total passengers. South Florida made up more than 50% of the ridership. There are 18 daily round trips with hourly departures between Miami and Orlando. One-way from Orlando to their station in Miami on their non-stop train will take three hours. There are additional train options out of Orlando that stop in West Palm Beach, Boca Raton, Fort Lauderdale and Aventura. In March 2024, Brightline announced its plans to build a new station in Stuart.

Ports

The metropolis also has four seaports, the largest and most important being the Port of Miami. The Port of Miami is an important contributor to the local south Florida and state economies and caters to both cruise ships and containerized cargo. The Port of Miami has been dredged to 50 feet to allow the bigger post-Panamatic ships to come through. Miami is the first port on the U.S. Eastern Seaboard prepared for the Panama Canal Expansion.

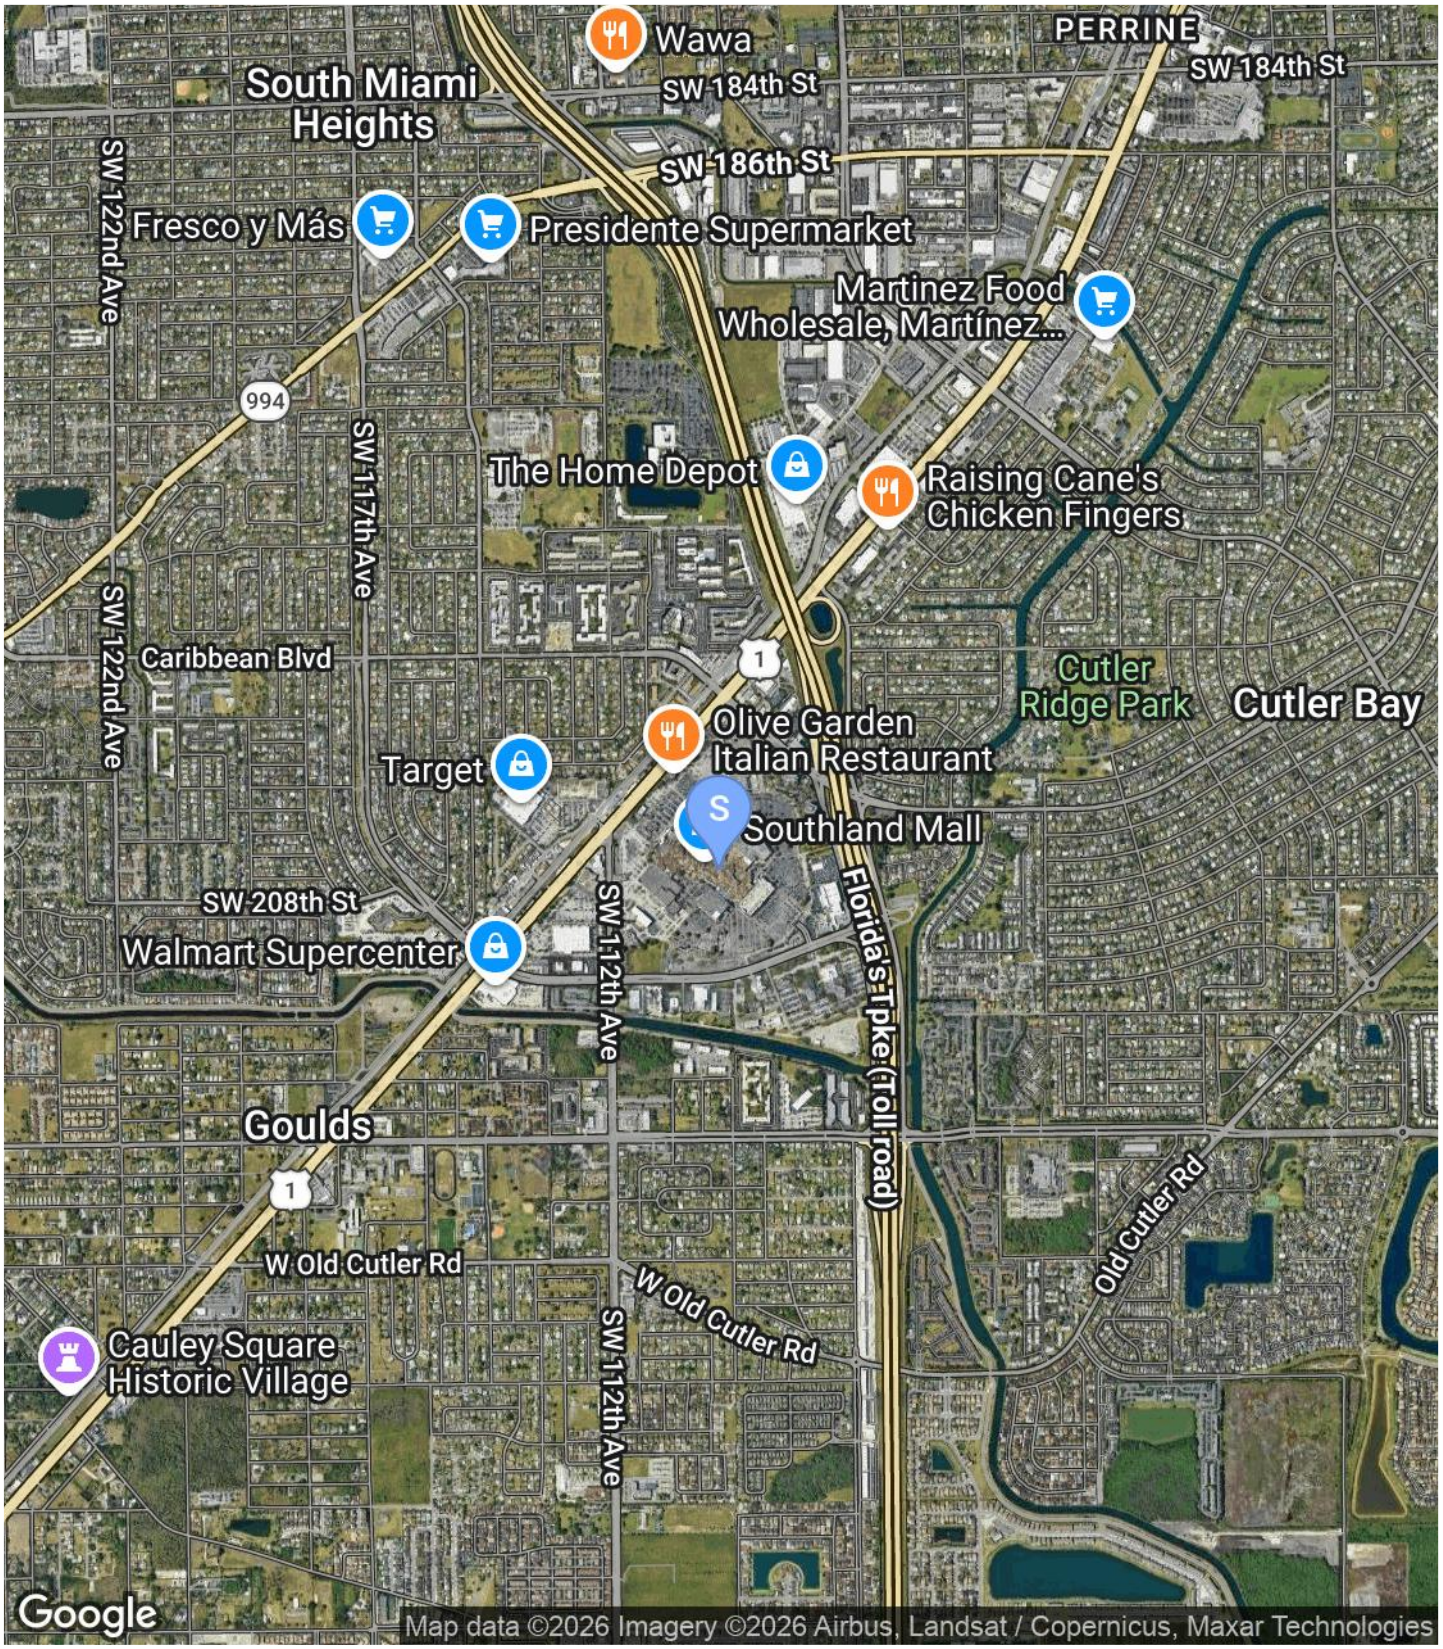

The Port of Miami infrastructure improvement tunnel (costing about $1.5B) has been completed and allows trucks and containers to travel on I-95 from the port all the way to NY without a stoplight. In addition, the port received a TIGER grant from the federal government to repair a damaged bridge and increase the capacity of the existing by increasing the capacity of the on-dock rail connection already in place which will move cargo off the docks quicker. These improvements allow the port to triple its capacity from one million TEUs to three million TEUs. The port also serves more than four million cruise line passengers each year. Others in the area include Port Everglades, Port of Palm Beach and the Miami River Port.

The largest cruise ship in the world, Royal Caribbean's Icon of the Seas now calls Port Miami Home. The ship which reportedly cost $2B to build features 20 decks, six water slides, seven pools, an aqua theater, casinos, and over 40 dining and drinking locations. The ship has a total capacity of 10,000 people including crewmembers and able to accommodate 7,600 passengers. On January 23, 2024, world renowned soccer player Lionel Messi christened the ship and announced the partnership between InterMiami FC and Royal Caribbean.

SUMMARY

Given its relative central position—the city is equidistant from New York City and Mexico City, Boston and Caracas, and from London and Buenos Aires—Miami is an international trading nexus and one of the prime centers of commerce in the global economy. Miami's location and cultural diversity offer an appealing quality of life with an abundance of cultural and recreational activities. The Miami metropolitan area encompasses Miami-Dade County at the southeastern tip of the Florida peninsula and covers over 2,000 square miles. The Miami area is the "anchor" of the South Florida megalopolis of 6.2 million people that also includes metropolitan Ft. Lauderdale-Hollywood, and West Palm Beach-Boca Raton. The region's recent rapid population growth is the result of several factors including quality of life, expanding international economic base, diversified economy, and the "globalization" of Latin America with the United States. Equally alluring as the tropical setting is the city's stable economy, its prime location for conducting business and its convenient air transportation to major international gateways. Approximately 2.6 million residents call Miami home, and the city hosts over 13 million tourists per year from around the globe. Today, Miami is considered a thriving business hub of Latin America, attracting not only U.S. and Latin American corporations, but increasingly companies from Canada, Europe, and Asia.

INTRODUCTION

In this section of the report, we provide details about the local area and describe the influences that bear on the real estate market as well as the subject property. A map of the local area is presented on the prior page. Below are insights into the local area based on fieldwork, interviews, demographic data and experience working in this market.

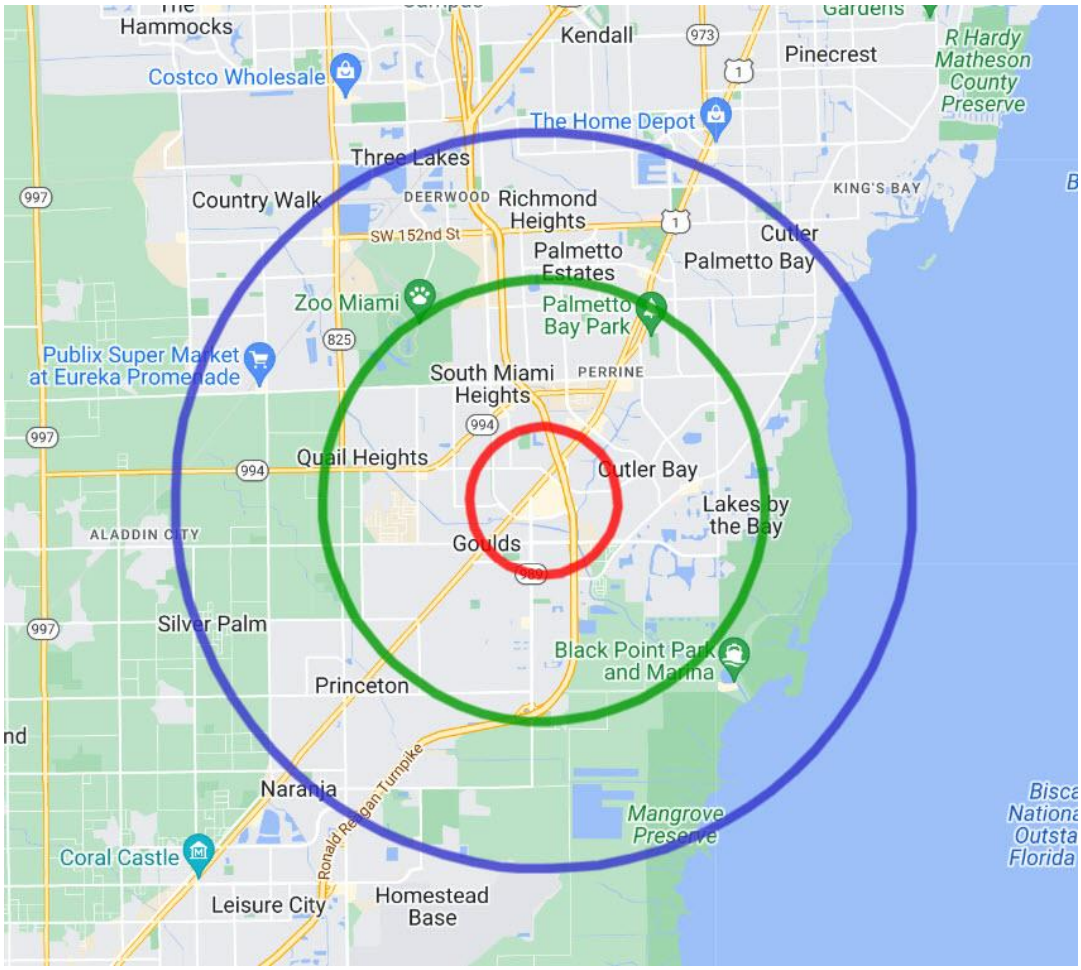

LOCAL AREA PROFILE

The subject property is located in Cutler Bay, Florida, within Miami-Dade County. Cutler Bay is located in the southern portion of the MSA and although suburban in nature, the area is largely built-out. It is approximately 20 minutes south of Miami International Airport.

DEMOGRAPHIC PROFILE

Below is a demographic study of the area, sourced by *Esri ArcGIS®*, an on-line resource center that provides information used to analyze and compare the past, present, and future trends of properties and geographical areas. Please note that our demographics provider sets forth income projections in constant dollars which, by definition, reflect projections after adjustment for inflation. We are aware of other prominent demographic data providers that project income in current dollars, which do not account for inflation. A simple comparison of projections for a similar market area made under the constant and current dollar methodologies can and likely will produce data points that vary, in some cases, widely. Further, all forecasts, regardless of demographer methodology(ies), are subjective in the sense that the reliability of the forecast is subject to modeling and definitional assumptions and procedures.

The following map shows the 1, 3 and 5-mile radii surrounding the subject.

LOCAL AREA DEMOGRAPHICS

Transportation Routes

Major traffic arteries are shown in the chart below:

MAJOR ROADWAYS & THOROUGHFARES			
HIGHWAY	**DIRECTION**	**FUNCTION**	**DISTANCE FROM SUBJECT**
US Highway 1	north-south	Local Highway	The subject property fronts this street.
Ronald Reagan Turnpike	north-south	Local Highway	This is just down the street from the subject property.
SURFACE STREETS	**DIRECTION**	**FUNCTION**	**DISTANCE FROM SUBJECT**
Caribbean Boulevard	southeast-northwest	Secondary Arterial	The subject property fronts this street.
Allapattah Road	north-south	Secondary Arterial	The subject property fronts this street.
Cutler Ridge Boulevard	east-west	Secondary Arterial	The subject property fronts this street.

Public Transportation is available at the subject property's location. It is located along SW 112th Avenue and US Highway 1 and provided by Miami-Dade Transit. The system consists of about 93 routes and 893 buses, which connect most points in the county and part of southern Broward County.

South Corridor Rapid Transit Project recently upgraded into a modernized, all-electric Bus Rapid Transit (BRT) line known as Metro Express. This newly upgraded system launched in October 2025 and provides a 20-mile mobility connection between Miami's central business district and the County's southern-most communities.

Economic Factors

Miami is a hub for global commerce, finance, and international business. The city has a highly diversified economy with over 1,200 multinational companies established in the area. Top economic sectors include tourism, services, trade, manufacturing, and real estate. Miami's access to Latin America has made it a top international banking and investment center, with most bank offices in the city's financial district on Brickell Avenue. It is home to the international trade divisions of several prominent U.S. banks. The local area is also known as a television production hub, with the presence of Univision, Telemundo, and UniMas headquarters. The film/entertainment industry is another generator of income for Miami. Together, movies, television, and commercial/fashion photography generates more than $212 million annually in income in the area. Its tourism industry also plays a key role in the overall economy. Miami International Airport and Port Miami are among the nation's busiest ports of entry. Port Miami is Miami-Dade County's second most important economic engine contributing $28 billion annually to the local economy and supporting more than 207,000 jobs in South Florida. It is recognized as the Cargo Gateway of the Americas. The 47-acre Miami Free Zone consists of an area of 846,000-square-foot warehouse and office complex near Miami International Airport.

Community Services

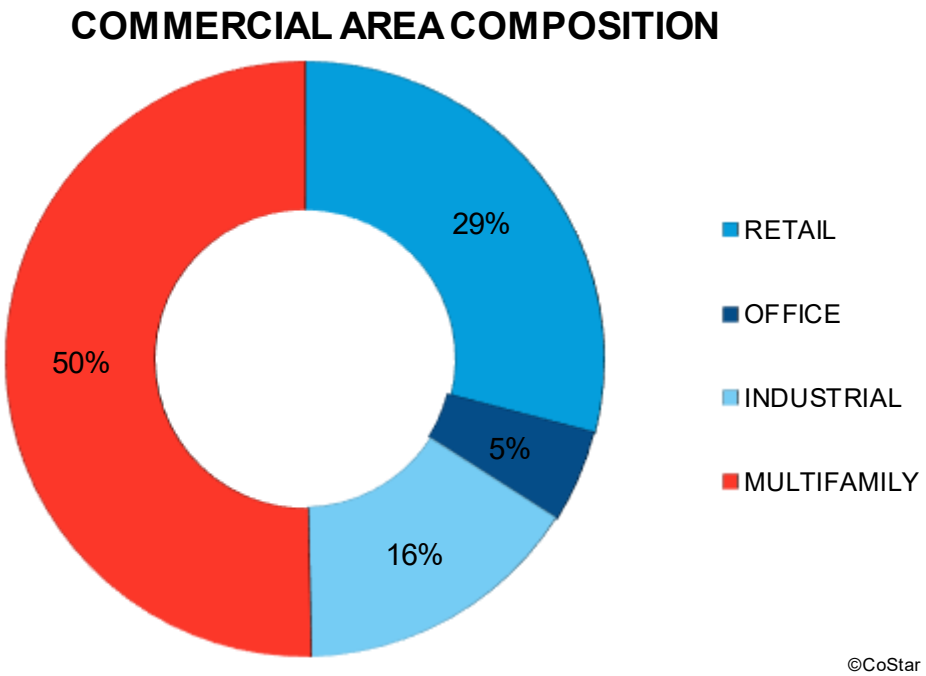

Community services and facilities are readily available in the surrounding area. These include public services such as fire stations, hospitals, police stations, and schools (all ages).

IMMEDIATE AREA PROFILE

This section discusses uses and development trends in the immediate area that directly impact the performance and appeal of the subject property.

Predominant Land Uses

Significant development in the immediate area consists of office, retail, industrial, mixed-use and auto dealership uses along major arterials that are interspersed with multi-family complexes and single-family residential development removed from arterials. The local area has a mix of commercial uses nearby and the composition is shown in the following graph.

Multi-Family Development

The following chart shows a summary of multi-family data by type in the immediate area from CoStar.

MULTIFAMILY SUMMARY

CLASS	PROPERTIES	NRA (SF)	AVG YR BLT

Source: CoStar

The following map shows the subject property and the five largest retail, office, and industrial properties in the immediate area from CoStar.

SUBJECT PROPERTY ANALYSIS

The following discussion draws context and analysis on how the subject property is influenced by the local and immediate areas.

Subject Property Analysis

The uses adjacent to the property are noted below:

- **North -** Retail, lodging and residential uses
- **South -** Civic, office and residential uses
- **East -** Retail and office uses
- **West -** Retail and residential uses

Access

The subject site has frontage on an arterial and a commercial collector roadway. Based on our field work, the subject's access is rated good compared to other properties with which it competes.

Visibility

The subject is clearly visible in both directions along the street. The visibility of the property is not hampered by adjacent properties, trees or other obstructions. In comparison to competitive properties, the subject property has good visibility.

Subject Conclusion

Trends in the local and immediate areas, adjacent uses and the property's specific location features indicate an overall positive external influence for the subject, which is concluded to have a good position in context of competing properties.

SUMMARY

Overall the condition and appeal of the market area is generally good. The subject is located directly along the new South Corridor Rapid Transit Project which opened in October 2025 and provides a 20-mile mobility connection between Miami's central business district and the County's southern-most communities. With a general lack of undeveloped land, new projects in the area will be accomplished by redevelopment of under-improved properties. As demand continues to increase for underdeveloped properties, property values are expected to appreciate in the subject's immediate market area.

General Description

The subject site consists of 4 tax assessment parcels which will be subdivided within the master plan into 22 development "blocks". As noted below, the subject site has a total of 3,665,668 SF (84.15 AC) of land area. The areas of individual blocks are shown below in a separate table. The land areas are estimated based on the surveys and site plans provided. Going forward, our valuation analysis will utilize the usable site area. The following discussion summarizes the subject site size and characteristics.

Frontage The subject has approximately 825 feet of frontage on US Highway 1 (S Dixie Highway), 1,000 feet on SW 112th Avenue, 420 feet along Caribbean Boulevard, and 940 feet along SW 211th Street. Though the subject does not have direct frontage on the Florida Turnpike, the overall scale of development provides good visibility from this roadway.

Traffic Counts

	DATE	SOURCE	COUNT
S Dixie Highway	2025	Florida DOT	50,500
SW 211th Street	2025	Florida DOT	19,000
Caribbean Boulevard	2025	Florida DOT	22,000
SW 112th Avenue	2025	Florida DOT	36,500
	TOTAL		128,000

Accessibility The accessibility of the subject is rated as good. The subject is accessed from four streets, with the main entrance and primary point of ingress/egress being S Dixie Highway. Major transportation arterials within proximity to the subject include US Highway 1/S Dixie Highway and Florida Turnpike, providing linkage to the surrounding area.

Exposure The subject has good exposure, as it is located along a major arterial. The project's exposure rating takes into account its high visibility and its above average traffic count. It also considers the subject's exposure from multiple streets.

Seismic The subject is in a no risk zone.

Flood Zone	Zone AE. This is referenced by Community Number 120218, Panel Number 12086C0603L, dated September 11, 2009. Zone AE is a High Risk Special Flood Hazard Area (SFHA). Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones. Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
Easements	A preliminary title report was not available for review. During the on-site inspection, no adverse easements or encumbrances were noted. This appraisal assumes that there is no negative value impact on the subject improvements. If questions arise regarding easements, encroachments, or other encumbrances, further research is advised.
Soils	A detailed soils analysis was not available for review. Based on the development of the subject, it appears the soils are stable and suitable for the existing improvements.
Hazardous Waste	We have not conducted an independent investigation to determine the presence or absence of toxins on the subject property. If questions arise, the reader is strongly cautioned to seek qualified professional assistance in this matter. Please see the Assumptions and Limiting Conditions for a full disclaimer.

INTRODUCTION

The information presented below is a basic description of the existing improvements. This information is used in the valuation of the property. Reliance has been placed upon information provided by sources deemed dependable for this analysis. It is assumed that there are no hidden defects, and that all structural components are functional and operational, unless otherwise noted. If questions arise regarding the integrity of the improvements or their operational components, it may be necessary to consult additional professional resources.

The improvement descriptions below reflect only the portions of the existing retail improvements that will remain within Blocks 14-17 as part of the redevelopment, as well as proposed development for Block 11A; it does not consider any proposed improvements of the surrounding land blocks. Redevelopment plans for the existing mall include demolition of majority of the shop/inline retail space to reposition the subject as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. Upon completion, the subject improvements within Blocks 11A and 14-17 will include 516,942 square feet of NRA.

Functional Design	Upon completion of the proposed renovation, the subject will be repositioned from an enclosed regional mall to a power center consisting primarily of large format, anchor and junior anchor spaces. The subject will be centrally located within the South City Place Center, a proposed mixed-use development consisting of multifamily, retail, office/medical office, and open park areas. The subject will offer good utility to the tenants and their customers. Overall, the subject will have a functional design upon completion of the proposed renovation.
Basic Construction	Steel and masonry
Foundation	Reinforced concrete slab
Framing	Structural steel with masonry and concrete encasement
Exterior Walls	Concrete block, brick, EIFS
Roof	Sealed membrane
Insulation	Assumed to be standard and to code for both walls and ceilings
HVAC	Roof-mounted package systems
Lighting	Fluorescent and Incandescent
Interior Walls	Primarily painted drywall, but varies with each tenant concept
Electrical	Assumed adequate and to-code.
Ceilings	Mixture of suspended acoustic tiles, painted drywall, exposed, and skylights
Windows	Standard windows; glass in aluminum frames
Doors	Glass doors with metal frames, and metal service doors
Flooring	Floors in the common areas are tile. Floors in tenant sales areas are a mix of tile, carpet, and vinyl.
Plumbing	Standard plumbing for a shopping center
Fire Protection	The subject has a fire sprinkler system and smoke alarms.
Security	Video surveillance and alarm system. There is also a security office.
Elevators	None
Landscaping	Asphalt paving, concrete sidewalks, concrete curbing, pole mounted lights and low maintenance sprinklered landscaping
Signage	Each tenant has space for signage above their units. There are monument style signs along S Dixie Highway and SW 211th Street at the entrances of the subject.
Parking	As part of the larger development plan, portions of subject's existing surface parking will be redeveloped and included in the other Blocks. The development plans include multiple parking garages which will serve the subject and surrounding development. Upon completion of the proposed development, the subject will have a mix of surface and garage parking. Based on information provided, a total of 1,288 spaces will be contained within three parking garages designated for public use; we were not provided with a total number of surface parking spaces. Multifamily blocks will have private parking garages for tenants.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Our value opinion assumes the subject's parking will be compliant with zoning requirements, and will be adequate to serve the subject's tenants and customers based on market standards for similar retail centers.

Planned Renovations

Redevelopment plans for the existing mall include demolition of majority of the shop/inline retail space to reposition the subject as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. The façade and common areas will be renovated as part of the redevelopment. The redevelopment of the mall (Blocks 14-17, 11A) is scheduled to be fully completed and stabilized by 2028. Completed capital projects associated with renovation of the mall include roof improvements, bathroom renovations, addition of a loading dock for the new junior anchor suites, renovations of the primary entrance, and landlord work associated with the new junior anchor space, Suite 905, leased to PetSmart. The developer also estimates landlord work associated with the development of Suite 829 and Blocks 15 and 16, not including tenant improvement allowances and leasing commissions. As of the effective date, budgeted landlord work costs are projected to be $8,830,389. These cost estimates are treated as a deduction ahead within the Valuation section in development of the As-Is Market Value.

Hazardous Materials

This appraisal assumes that the improvements are constructed free of all hazardous waste and toxic materials, including (but not limited to) asbestos. Please refer to the Assumptions and Limiting Conditions section regarding this issue.

***ADA* Compliance**

This analysis assumes that the subject complies with all ADA requirements. Please refer to the Assumptions and Limiting Conditions section regarding this issue.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

INTRODUCTION

Assessment of real property is established by an assessor that is an appointed or elected official charged with determining the value of each property. The assessment is used to determine the necessary rate of taxation required to support the municipal budget. A property tax is a levy on the value of property that the owner is required to pay to the municipality in which it is situated. Multiple jurisdictions may tax the same property.

ASSESSMENT IN FLORIDA

Real property in Miami-Dade County in the State of Florida is re-assessed every year. Real estate taxes are due March 31st of each year. However, if taxes are paid by November 30th, a property owner can realize a 4% discount in the total liability. The discount is reduced by 1% each month after November 30th until the full liability is due in March. Our analysis assumes a prudent investor would take advantage of this discount.

County Assessor's offices tend to be more conservative in terms of increasing assessments despite ongoing improvements in the multifamily sector. This is attributed to limited staff and cost of defending tax appeals and the change in 2009 from the Assessor having the Presumption of Correctness to the Preponderance of Evidence, requiring the assessor to have a much greater burden to support assessments if contested. Assessment levels are impacted by the following primary factors:

- Re-assessment without a transaction
- Re-assessment following a transaction

Re-Assessment Without Transaction

Although re-assessment occurs annually, in the event that there is not a sale, all taxing authorities with the exception of schools have a 10% cap on assessment increases per year. This can result in a difference between the County estimated *Market Value* (also called *Just Value*) and the actual *Assessed Value* as it applies to the other taxing authorities. Additionally, assessments are typically done on a 3-year rotation and assessments are in arrears, reflecting assessments effective January 2025 and sales prior to that date. As a result, the subject and comparable assessments could reflect as far back as January 2023 meaning they potentially reflect values based on sales as far back as 2022. As a result, properties that have not been re-assessed following a sale in recent history tend to lag actual market value considerably.

Re-Assessment Following Transaction

The sale of a property can trigger re-assessment for the following year, but the property will not necessarily be re-assessed at the sale price. It is typical for assessment levels to lag actual market values. Generally, we see assessment levels range from 65% - 85% of market value. However, in the event of a sale, we are seeing increases more typical at 70% - 85% of the purchase price the following January 1. The level of increase depends on the County, asset class and type as well as the conditions of sale. Now that there has been significant market improvement for several years, we are seeing that there may be a substantial increase in the year following acquisition, but a relatively flat re-assessment the year following the initial increase. However, this can vary from county-to-county.

Analysis

As a result of the dynamics involved, projecting future real estate tax assessment levels, and thus, liability can be subjective. The primary factors are:

- Variability in how counties are handling re-assessment following a sale
- Lag that occurs based on the timing of re-assessment following a sale
- In an up-market, assessments lagging in the years following a re-set either due to assessments being held flat, or further market improvement as a result of market trends overall, or property improvements completed by new ownership following acquisition.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

When all of these factors are considered, a more reasonable range for projected tax assessments over the holding period is wider than the initial re-set would suggest. For this reason, it is our opinion the applicable range is really 70% - 85% of value or purchase price, depending on the particular asset or location.

As implicit in the definition of Market Value is the consummation of a sale, even in the event of a refinance, the potential real estate tax implication following a sale must be considered. It can be considered via a projected increase in assessment level, loaded capitalization rate, or a combination of both a more moderate increase in the assessment level and a relatively more moderately loaded cap rate.

SUBJECT PROPERTY ANALYSIS

The subject property is located within Miami-Dade County. The assessed value and property tax for the current year are summarized in the following table.

TAX ESTIMATE – BLOCKS 11A, 14-17 (RETAIL)

The following table estimates the tax expense for the retail portion within Blocks 11A and 14-17 by emulating the process that the Miami-Dade County uses to assess changed properties then applying the millage rate.

TAXES UPON REASSESSMENT

	As-Is Market Value - Retail Blocks 11A,14-17	$69,200,000
x	Adjustment for County RMV	70%
=	Estimated Taxable Value	$48,440,000
x	Current Millage Rate ($1,000)	17.8559
=	**Stabilized Taxes Estimate**	**$864,940**
-	Less Discount Early Payment - 4%	($34,598)
=	**Stabilized Tax Estimate**	**$830,342**
	Stabilized Taxes/SF of NRA	**$1.61**

CONCLUSION – BLOCKS 11A,14-17 (RETAIL)

To estimate the taxes attributable to Blocks 11A and 14-17, we have relied on the above analysis as the subject's current assessment reflects the larger property containing the remaining development blocks. Therefore, the current assessment is not applicable when estimating taxes to the retail development. The subject is projected to achieve completion and stabilization by Year 3 of our analysis, or July 1, 2028. The reassessment analysis above projects taxes based on an assumed sale of the property in its current state. The tax expense assumes the maximum annual increase of 10.0% per year until it reaches a "stabilized" level. After that, we project an annual increase of 3.0%.

TAXES DURING SELLOUT

During the sell-out the subject owner will be responsible for real estate taxes. We estimate the subject's real estate tax burden based on the 2025 assessment and millage rate for the subject. We have adjusted the taxes at our projected growth rate of 3% annually. Our analysis takes into consideration the taxes for the retail, which have been deducted from our carrying costs for the overall development.

INTRODUCTION

Zoning requirements typically establish permitted and prohibited uses, building height, lot coverage, setbacks, parking and other factors that control the size and location of improvements on a site. The zoning characteristics for the subject property are summarized below:

ZONING SUMMARY	
Municipality Governing Zoning	City of Cutler Bay Planning & Zoning Department
Current Zoning	Town Center (TC)
Permitted Uses	Mixed use, Commercial and retail, Multifamily (within a mixed use development), Civic (excluding educational facility/school), Office, Hotel, Family entertainment center, Bar or nightclub, Medical marijuana dispensary, Park, Pharmacy, Professional service, Place of public assembly, Recreational facility, Restaurant, Outdoor dining, Medical office, Personal service.
Prohibited Uses	Kennels, Manufacturing, Outdoor storage, Self storage facility, Funeral home, Donated goods store, Adult entertainment, Motel, Pawn shop, Cash checking service.
Current Use	Community Shopping Center
Is Current Use Legally Permitted?	Yes
Zoning Change	Not Likely
Proposed Use	Redevelopment with power center and land blocks for mixed-use development
Is Proposed Use Legally Permitted?	Yes

The owner/developer has already received conceptual master plan approval for the overall development from the Town of Cutler Bay and will only need site plan approval for specific development of the individual blocks. Blocks 1, 11 and 12 have received site plan approval to date, while site plan approval for Block 2 is in process.

ZONING CONCLUSIONS

The town center district is coded to accommodate the higher overall intensity of development required to support the town. It is expected that the district may be expanded over time to meet the growth in demand for downtown facilities and services. The town center district is provided to encourage the expansion and redevelopment of Southland Mall and adjoining areas zoned town center. A broad array of uses is expected in a pattern which integrates shops, restaurants, services, workplaces, civic, educational, and public assembly uses, and higher density housing in a compact, pedestrian-oriented environment. The town center district anchors the surrounding residential neighborhoods while also serving the broader community. Based on the interpretation of the zoning ordinance, the subject property is an outright permitted use that could be rebuilt if unintentionally destroyed.

Based on the current zoning and approvals in place, the subject has approval for development. Detailed zoning studies are typically performed by a zoning or land use expert, including attorneys, land use planners, or architects. The depth of our analysis correlates directly with the scope of this assignment, and it considers all pertinent issues that have been discovered through our due diligence. Please note that this appraisal is not intended to be a detailed determination of compliance, as that determination is beyond the scope of this real estate appraisal assignment.

INTRODUCTION

As previously discussed, the subject property is a proposed mixed-use development and the highest and best use of the subject site is to complete the proposed redevelopment of the existing mall to reposition as a lifestyle/power center, and redevelop the surrounding land. The majority of the subject's planned development will be multifamily apartments with supportive commercial uses. Therefore, we have provided a market analysis for both retail and apartment uses.

The market analysis section provides a comprehensive study of supply/demand conditions, examines transaction trends, and interprets ground level information conveyed by market participants. Based on these findings and an analysis of the subject property, conclusions are drawn with regard to the subject's competitive position within the marketplace. Below is a list of the various sections covered in the following Apartment Market Analysis:

- Miami Retail Market
- South Dade Retail Submarket
- Miami-Miami Beach-Kendall Apartment Market
- Homestead/South Dade County Apartment Submarket
- Transaction Trends
- Subject Property Analysis

MIAMI RETAIL MARKET

The following is an analysis of supply/demand trends in the Miami Retail Market using information provided by CoStar, widely recognized as a credible source for tracking market statistics. The table below presents historical data for key market indicators.

MIAMI HISTORICAL STATISTICS (LAST TEN YEARS)

PERIOD	SUPPLY	NEW CONSTRUCTION	NET ABSORPTION	VACANCY	ASKING RENT
2016	134,158,612 SF	1,375,113 SF	973,285 SF	3.2%	$29.25/SF

The four year period from 2016 to 2019 was highlighted with significantly increased supply, positive absorption, moderate increase of vacancy rates and considerable increase of asking rent in the market. The next three year period from 2020 to 2022 featured increased supply, slight positive absorption, moderate decrease of vacancy rates and considerable increase of asking rent levels. The most recent three year period from 2023 to 2025 featured increased supply, slight positive absorption, moderate increase of vacancy rates and considerable increase of asking rent levels.

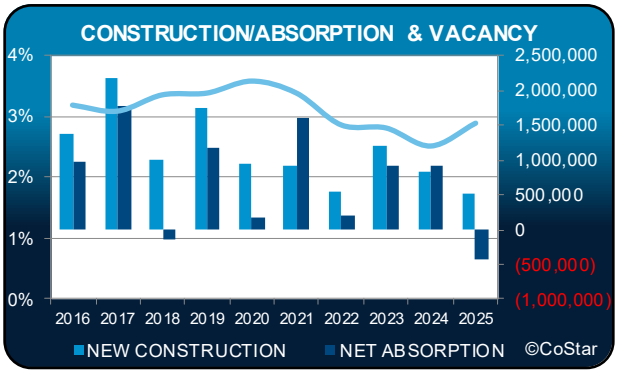

Over the past ten years the market had a compound annual growth rate (CAGR) of 0.4% per year. Vacancy has ranged from 2.5% to 3.6% with an average of 3.1%. Vacancy increased from 3.2% in 2016 to 3.4% in 2019, decreased from 3.6% in 2020 to 2.9% in 2022 and increased from 2.8% in 2023 to 2.9% in 2025.

Over the past ten years asking rent has experienced a CAGR of 4.3%. Asking rent hit a low of $29.25/SF in 2016 and a high in 2024 at $48.03/SF.

In the past ten years a total of 11,257,703 SF were added to the supply with 7,156,819 SF of net absorption achieved during the same period.

The following table summarizes the trailing four quarter performance of the Miami market.

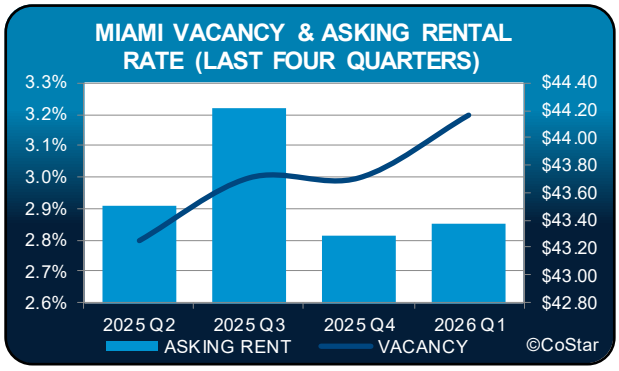

MIAMI TRAILING FOUR QUARTER PERFORMANCE

PERIOD	SUPPLY	NEW CONSTRUCTION	NET ABSORPTION	VACANCY	ASKING RENT
2025 Q2	139,908,136 SF	27,000 SF	(227,775) SF	2.8%	$43.50/SF
2025 Q3	140,028,686 SF	130,982 SF	(66,568) SF	3.0%	$44.22/SF
2025 Q4	140,062,572 SF	51,239 SF	(24,596) SF	3.0%	$43.28/SF
2026 Q1	139,917,987 SF	24,555 SF	(413,431) SF	3.2%	$43.38/SF

Source: Costar®

As of Q1 2026 the Miami market has a total Retail inventory of 139,917,987 SF with 4,491,833 SF vacant indicating a current vacancy rate of 3.2%. There was 24,555 SF completed last quarter, whereas there was 233,776 SF added in the last year.

Over the past four quarters the Miami retail market has experienced a moderate increase of supply. These key factors have resulted in negative net absorption, increase of vacancy rates and nominal decrease of asking rent in the marketplace.

Key supply/demand statistics for the most recent quarter, last year and historical averages are summarized below.

MIAMI MARKET TREND ANALYSIS

	Q1 2026	2025	Last 10
Total SF	139,917,987	140,062,572	137,687,491
Vacant SF	4,491,833	4,033,802	4,265,558
Market Vacancy	3.2%	2.9%	3.1%
Construction Grow th Rate	0.0%	0.4%	0.4%
Absorption Rate	(0.3%)	(0.3%)	0.5%
Average Asking Rent/SF	$43.38	$44.58	$37.10

Source: Costar®

Vacancy

The Q1 2026 vacancy rate (3.2%) is consistent with last year (2.9%) and consistent with the average vacancy over the past ten years (3.1%). The historic vacancy trend indicates stable long-term demand for retail space in the Miami market. The most recent vacancy trends demonstrate similar market conditions in comparison to the historic trend and suggest continued moderately strong demand moving forward.

Supply

The inventory grew by 0.0% during Q1 2026, whereas the growth rate was 0.4% last year. Over the past ten years the Miami retail market grew at a CAGR of 0.4%. The historic trend demonstrates a stable growth rate that was generally supported. The most recent trends show similar growth in comparison to the historic trend in reaction to the current economic conditions. As summarized in the table below, there are 26 Retail projects under construction in the Miami Retail market totaling 949,264 SF that represent 0.7% of supply that will be added in the near term. The construction activity in the market appears to be at a level that will reasonably be supported by the market. Based on this evidence it appears that supply side issues do not represent a threat to the stability of supply/demand conditions in the market.

MIAMI RETAIL CONSTRUCTION ACTIVITY SUMMARY

STATUS	NO. OF PROJECTS	SIZE (SF)	% OF SUPPLY
Under Construction	26	949,264	0.7%

Source: Costar®

Absorption

During Q1 2026 net absorption was -0.3% and net absorption was -0.3% over the last year. The Miami retail market has established an overall trend of stable absorption (0.5%) over the past ten years. The historic absorption trend indicates stable long-term demand for retail space in the Miami market. The most recent absorption trends demonstrate slightly inferior market conditions in comparison to the historic trend and suggest continued stability moving forward.

Miami Market Conclusion

Based on the preceding analysis, the Miami Retail market demonstrates somewhat strong fundamentals. Analysis of supply and demand factors indicate the market is currently stable with no evidence to prove this will change any time soon. The greatest strength of the market appears to be its low vacancy rates. There are no observed weaknesses of the market that stand out.

Source: Costar®

As of Q1 2026 the South Dade submarket has a total Retail inventory of 13,636,550 SF with 392,923 SF vacant indicating a current vacancy rate of 2.9%. There was 21,055 SF completed last quarter, whereas there was 49,221 SF added in the last year.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Over the past four quarters the South Dade retail submarket has experienced a moderate increase of supply. There was also negative net absorption, increase in vacancy rates and decrease of asking rent in the marketplace.

Key supply/demand statistics for the most recent quarter, last year and historical averages are summarized below.

SOUTH DADE MARKET TREND ANALYSIS

	Q1 2026	2025	Last 10
Total SF	13,636,550	13,778,736	13,384,981
Vacant SF	392,923	265,930	303,170
Market Vacancy	2.9%	1.9%	2.3%
Construction Grow th Rate	0.2%	0.2%	0.7%
Absorption Rate	(0.9%)	(1.6%)	0.7%
Average Asking Rent/SF	$33.77	$36.71	$26.70

Source: Costar®

Vacancy

The Q1 2026 vacancy rate (2.9%) is slightly higher than last year (1.9%) and slightly higher than the average vacancy over the past ten years (2.3%). The historic vacancy trend indicates strong long-term demand for retail space in the South Dade submarket. The most recent vacancy trends demonstrate similar market conditions in comparison to the historic trend and suggest continued moderately strong demand moving forward.

Supply

The inventory grew by 0.2% during Q1 2026, whereas the growth rate was 0.2% last year. Over the past ten years the South Dade retail submarket grew at a CAGR of 0.7%. The historic trend demonstrates a stable growth rate that was generally supported. The most recent trends show similar growth in comparison to the historic trend in reaction to the current economic conditions. As summarized in the table below, there are 4 Retail projects under construction in the South Dade Retail submarket totaling 79,662 SF that represent 0.6% of supply that will be added in the near term. The construction activity in the submarket appears to be at a level that will reasonably be supported by the market. Based on this evidence it appears that supply side issues do not represent a threat to the stability of supply/demand conditions in the market.

SOUTH DADE RETAIL CONSTRUCTION ACTIVITY SUMMARY

STATUS	NO. OF PROJECTS	SIZE (SF)	% OF SUPPLY
Under Construction	4	79,662	0.6%

Source: Costar®

Absorption

During Q1 2026 net absorption was -0.9% and net absorption was -1.6% over the last year. The South Dade retail market has established an overall trend of stable absorption (0.7%) over the past ten years. The historic absorption trend indicates stable long-term demand for retail space in the South Dade submarket. The most

recent absorption trends demonstrate slightly inferior market conditions in comparison to the historic trend and suggest continued stability moving forward.

South Dade Submarket Conclusion

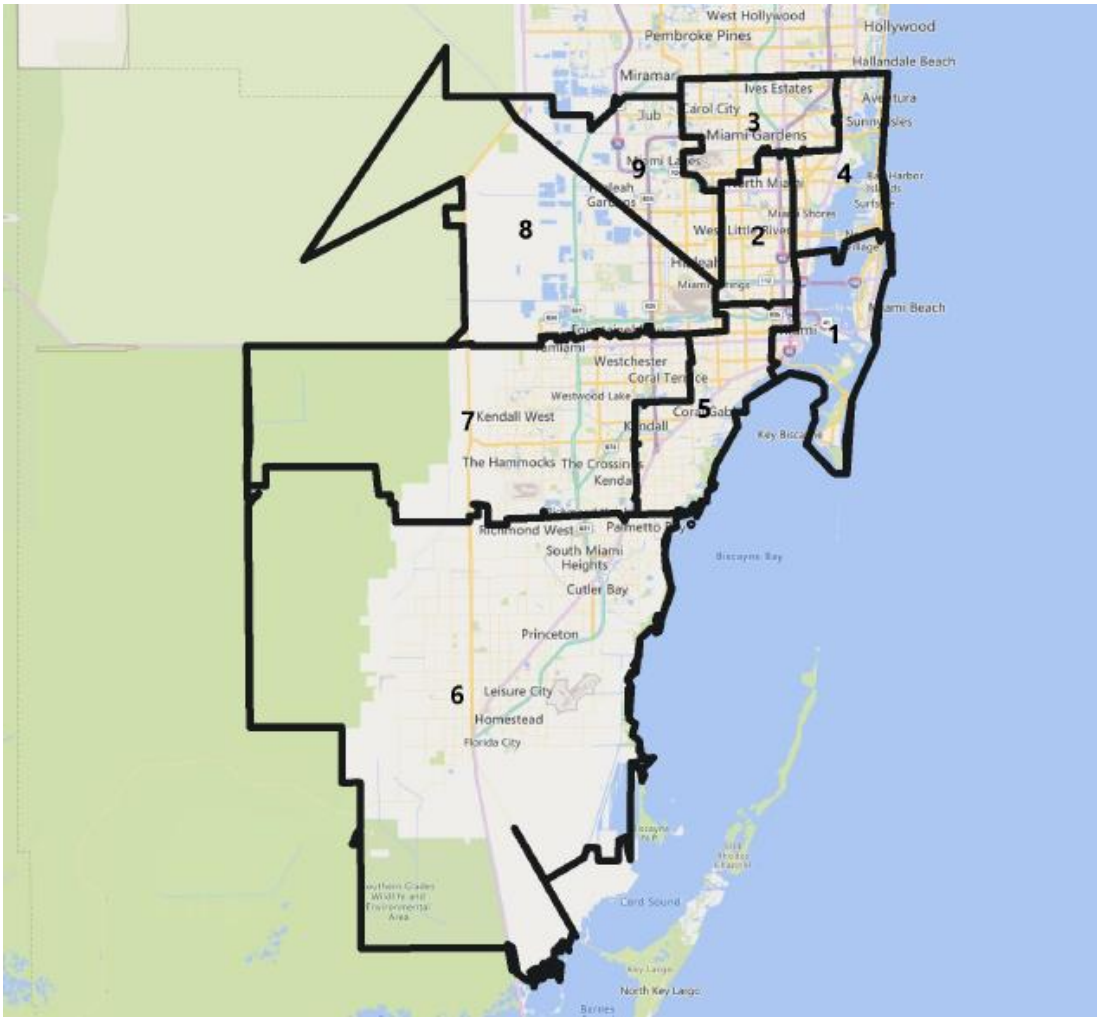

Based on the preceding analysis, the South Dade Retail submarket demonstrates sound fundamentals. Analysis of supply and demand factors indicate the market is currently stable with no evidence to prove this will change any time soon. The greatest strength of the submarket appears to be its low vacancy rates. There are no observed weaknesses of the submarket that stand out.

MIAMI-MIAMI BEACH-KENDALL, FL METRO APARTMENT MARKET ANALYSIS

The following is an analysis of supply/demand trends in the Miami-Miami Beach-Kendall, FL Apartment Market using information provided by MPF Research, widely recognized as a market leader in Apartment data and statistics. Through their coverage of the MPF-100, a collection of the 100 largest primary and secondary markets in the US, data is primarily sourced at the floor-plan, transaction level. This is made possible through MPF's sister company relationship with RealPage, the developers of YieldStar and OneSite revenue and property management software suites, resulting in access to access individual lease transactions for roughly 3.7 million units.

We will first analyze the metro market, followed by the submarket. The following map highlights MPF's coverage of the Miami-Miami Beach-Kendall, FL Metro Market and the individual submarkets tracked. The subject is located within the Homestead/South Dade County submarket denoted as (6) below.

Source: MPF Research® [1] Delivering w ithin next four quarters. [2] Annual Revenue Change = Annual Occ. Change + Annual Rent Change

Occupancy

As presented, the Miami-Miami Beach-Kendall, FL market maintains a current inventory of 345,774 units, up approximately 0.60% (2,050 units) from the previous quarter. The current market-wide occupancy rate of 95.5% is indicated through a range extending from 94.5% to 98.2% across all property styles and vintages. When compared to the previous quarter, the market-wide average occupancy rate has increased 0.4%. On a current-quarter annualized basis, occupancy rates have decreased 0.4%.

Rental Rates / Revenue

On a per unit basis, rental rates by vintage range from a low of $1,986 per month to a high of $3,026 per month. When analyzed on the basis of style, rental rates range from $2,266 (low-rise) to $3,054 (high-rise). In total, the market-wide inventory-weighted average rental rate is $2,694 per unit per month. On a per square foot basis, rental rates range from a low of $2.29 to a high of $3.23 when analyzing property vintage and $2.36 to $3.38 when analyzed by property style. In aggregate, the market-wide average rental rate is $2.91 per square foot. Annual revenue change, defined as annual occupancy change plus annual rent change represents a decrease of -0.3% versus the previous same-quarter annual period.

Concessions

Analyzed by vintage, the percentage of properties currently offering concessions range from 0.5% (pre-1970s) to 25.4% (2010s). When singularly analyzing property style, this range shifts to a low of 6.5% (low-rise) to a high of 26.1% (mid-rise). An aggregate, market-wide average of 26.0% is indicated.

The average concession given ranges from 0.5% to 11.9% (vintage) and 2.7% to 9.1% (style) of potential gross income. An inventory-weighted average across all vintages and styles of 7.8% of potential gross income is indicated.

Trailing Metro Performance

Key supply/demand, occupancy, rental rate, and concession statistics for available trailing annual and quarterly periods are summarized below.

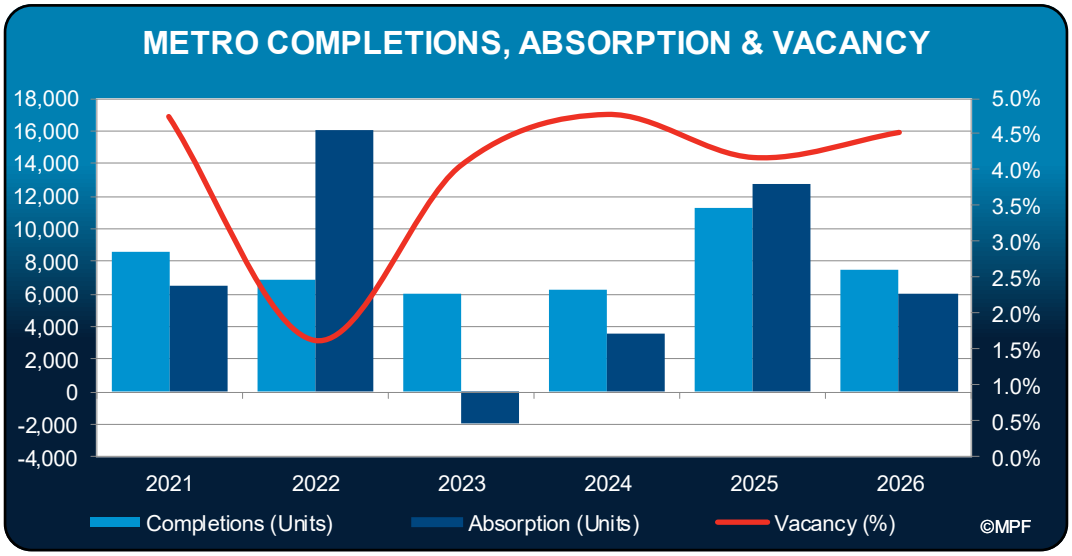

Historical Supply/Demand

The following table highlights the trailing annual and quarterly supply, construction, and absorption metrics.

TRANSACTION TRENDS

Sales Volume

The volume of sale transactions for similar assets has been steady over the past six months within the marketplace. This assertion is supported by the comparable sales that were selected for the Sales Comparison Approach. These sales are somewhat recent transactions, which provides support for the reported market sales activity. Sales volume is directly impacted by the activity levels of sellers and buyers of this property type.

Seller Activity

Based on research completed on various listing sources including CoStar and LoopNet, properties similar to the subject in terms of pricing and overall investment appeal have general availability, with numerous listings offered within the marketplace. This trend represents the general sentiment of market participants interviewed for this and other assignments.

Most Probable Buyer Profile/Activity

In the open market, the subject property type would command most interest from national and regional buyers that are actively pursuing similar large investment properties. There is currently steady buyer demand for substitute properties of the subject based on the volume of sale transactions and reports by buyers, sellers and other market participants during confirmation of market transactions. The most probable buyer is a national and regional investor.

Transaction Trends Conclusion

Based on the preceding analysis, there is an established sales market for the subject property. As previously discussed, the velocity of sale transactions has been steady over the past six months. Currently there is steady buyer demand, while there is general availability for this property type on the supply side. Based on these factors, conditions are in equilibrium in regard to negotiating sale terms. One of the greatest observed strengths of this asset type is its strong investment appeal to a broad pool of potential buyers.

SUBJECT PROPERTY ANALYSIS

This market analysis has examined historical and current supply/demand trends for the subject property type on market and submarket levels. Further, the subject's competitive dataset was profiled and analyzed to gain perspective of supply/demand conditions for properties in direct competition with the subject. Market participant interviews were conducted to provide ground level support of what is really occurring in the marketplace. Next, transaction trends were researched and analyzed. The final step will be to draw conclusions from the market data and analyses based on their perceived influence on the subject property.

The subject is a Shopping Center (Community Shopping Center) asset with a total net rentable area of 516,942 SF. The market generally classifies the subject as a large investment property. The subject consists of anchor, junior anchor, and inline space with a tenant composition of primarily national tenants. The subject is demised into 18 tenant spaces of which 15 spaces are currently occupied. The current occupancy level of 94.8% is below the stabilized occupancy level estimate of 97.0% that was developed in this appraisal. The absorption forecast and related lease-up costs for the subject to achieve stabilization are treated in the Valuation section. The most notable physical strength of the subject is its generally good access and linkage. Investors would be most attracted to the subject due to its strong tenant mix.

Tenant Appeal Conclusion

Based on our analysis of the subject property and investigation of comparable properties in the marketplace, the subject is considered to have good overall tenant appeal with a relatively strong competitive position for attracting and retaining tenants.

Buyer Appeal Conclusion

Based on our analysis of the subject property and investigation of substitute properties in the marketplace, the subject is considered to have good overall buyer appeal with a relatively strong competitive position if the asset was exposed to the open market.

General Vacancy Conclusion

As summarized in the table below this market analysis relied on various published data sources and field research for assessing how supply/demand conditions influence the long-term vacancy estimate of the subject property.

GENERAL VACANCY CONCLUSION

CoStar	1Q 2026	LAST YR	10 YR AVG
Miami Market	3.2%	2.9%	3.1%
South Dade Submarket	2.9%	1.9%	2.3%
GENERAL VACANCY RATE CONCLUSIONS			3.0%

Based on the subject's size, location and appeal, the submarket analysis findings warrant primary consideration. The submarket level analysis indicated a CoStar vacancy rate of 2.9% and an average vacancy rate of 2.3% over the past ten years. Based on our analysis of supply/demand trends and considering the subject's actual performance, a general vacancy rate of 3.0% is concluded.

INFLATION IMPACT / MACROECONOMY OVERVIEW

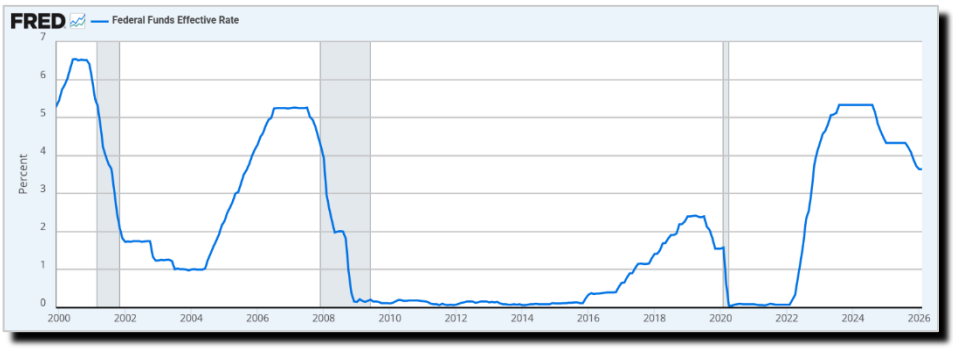

Economic forecasters continue adapting to the evolving policy landscape amid elevated geopolitical uncertainty. Recent indicators have sent mixed signals, with GDP growth holding at a solid pace but the labor market showing continued softness. The conflict in the Middle East and the resulting disruption to regional energy infrastructure have pushed oil prices sharply higher and complicated the inflation outlook, while ongoing trade policy developments and domestic political friction have kept markets volatile. Credit spreads have widened and

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

become more volatile across major property types, and longer-term Treasury yields have remained elevated, reflecting persistent inflation concerns and geopolitical risk premiums.

At its April 2026 meeting, the Federal Reserve voted to keep the federal funds target rate unchanged at 3.50% to 3.75%, marking the third consecutive pause following three quarter-point reductions in the second half of 2025. The Committee's statement acknowledged that economic activity has been expanding at a solid pace, while characterizing job gains as low on average and inflation as elevated, in part reflecting the recent increase in global energy prices. Notably, the statement explicitly cited Middle East developments as contributing to a high level of uncertainty about the economic outlook, and the Committee reiterated its attentiveness to risks on both sides of its dual mandate. Market expectations for near-term easing remain muted, with futures pricing reflecting limited additional cuts through year-end.

The FOMC's stance reflects a cautious balancing act between a softening labor market and persistent inflation pressures, with the Committee underscoring that uncertainty about the economic outlook remains elevated. The yield curve remains upward-sloping as short-term rates hold relatively steady given the Fed's pause while longer-term yields reflect inflation risk and geopolitical uncertainty. Importantly, even as Treasury rates have traded within a relatively narrow range, credit spreads have widened across major property types, pushing all-in borrowing costs higher and embedding greater uncertainty into lender risk premiums. Loan-to-value ratios have risen modestly, signaling a selective reopening of credit markets rather than a broad easing of conditions, with higher leverage concentrated among investor-driven lenders while banks and insurance companies have only marginally loosened underwriting standards. The modest improvement in leverage has not offset wider credit spreads, meaning debt service constraints continue to limit proceeds despite incremental improvements in availability. Even modest spread widening can materially reduce loan proceeds, forcing buyers to add equity or reprice bids, and in many cases transactions are stalling not due to disagreement over long-term value but because current debt economics no longer support legacy pricing. The next phase of market recovery will depend less on the timing of rate cuts and more on lenders regaining confidence that risk is adequately priced. Until spreads stabilize, credit pricing, rather than monetary policy, will remain the primary constraint on CRE deal activity. Chair Powell's term expires in May, and the transition to his nominated successor adds an additional layer of policy uncertainty for the second half of the year.

The labor market has continued to soften beyond the slow-cooling narrative that prevailed through much of 2025. Recent jobs reports have shown subdued payroll growth, and the unemployment rate has edged higher while labor force participation has slipped. Weakness has been broad-based, spanning health care, federal government, information, and transportation sectors, with social assistance among the few sectors posting consistent gains. Wage growth has come in slightly above expectations, adding to the inflation side of the Fed's dilemma. The St. Louis Fed has characterized the labor market as remaining in a "low-hire, low-fire" stasis, with monthly payroll growth averaging only modestly positive over the past year. These labor market developments, combined with the tension between persistent inflation and weakening employment, have reinforced the Federal Reserve's decision to hold rates steady while signaling increased caution about the pace and timing of future easing.

SUMMARY OF MARKET ANALYSIS

According to MPF's 1Q 2026 report: "Following a lackluster second half of 2025, demand for apartment units in the South Florida region rebounded in 2026's first quarter. The 4,918 units absorbed in the January to March time frame ranked as one of South Florida's strongest 1st quarters historically, surpassing the region's quarterly average demand (3,358 units) in the 2010s decade. On an annual basis, total demand for 12,786 units in South Florida registered on par with current deliveries, though the performance was a decrease from prior periods. Miami regained its title as regional demand leader with 6,010 units absorbed over the last 12 months. Fort Lauderdale and West Palm Beach both saw demand levels soften slightly on an annual basis from the prior period, with 4,611 units and 1,527 units absorbed, respectively. As a region, South Florida added 12,752 new units in the year-ending 1st quarter 2026, increasing local inventory by 1.9%. That continued the downward trend from the peak volume of new deliveries seen in the year-ending 2nd quarter 2025 but remained nearly double the region's historic average annual completion rate in the 2010s decade (roughly 6,675 units). Fort Lauderdale (3,976 units) and West Palm Beach (1,246 units) both registered a slight decline in annual completion volumes while Miami supply levels remained relatively unchanged (7,530 units) from the prior period. As quarterly demand levels outpaced supply volumes, the region's occupancy rate improved 0.3 points quarter-over-quarter. This landed occupancy in the South Florida region at 95.4% in 1st quarter, which was an increase of 0.1 point from one year prior. The spread in occupancy rates across the region remained tight in the January to March time frame, with a variance of 0.3 points between region leading Miami (95.5%) and laggard Fort Lauderdale (95.2%). Following robust apartment demand at the beginning of 2026, operators grew effective asking rents 0.6% from the prior quarter. Still, despite this improvement, the region's average pricing remained 0.1% below one year ago. This was largely due to Fort Lauderdale's annual performance. Pricing in Miami remained essentially flat in the year-ending 1st quarter 2026 (0.1%), while West Palm Beach registered growth of 1.1% annually, the market's first positive acceleration in 11 quarters. After mid-2025 marked a new peak in supply volumes, completions are anticipated to stabilize, with 14,345 units scheduled to deliver in the next 12 months. Miami remains a developer favorite with 6,725 units slated to complete in the coming year, followed by Fort Lauderdale (4,403 units) and West Palm Beach (3,217 units)."

OUTLOOK

The South Florida apartment market outlook remains positive, with rent performance likely to improve alongside relatively stabilized occupancy and stabilizing supply volumes. The region continues to see positive, albeit slowed, job growth and in-migration, though the question remains around longer-term impact from slowed international migration. Still, the coming 12 to 18 months will likely present a slow return to normalcy as the region continues to work through the pressure of a record level of new supply. Further, roughly 30,900 units were underway at the end of 1st quarter 2026, which will expand existing inventory an additional 4.5%. Deliveries have pulled back from their recent peak and starts remain lower than in recent years. The expense side of the equation – due to insurance premiums in particular – likely presents the largest headwind for operators in South

Florida (and the state at large) in the coming years. Though incomes have generally seen some growth over the last year, concerns linger that bottom-line revenue growth could stagnate.

QUARTERLY SNAPSHOT

The South Florida region apartment market recorded demand for 4,918 units in 1st quarter 2026 while 2,797 units delivered concurrently, causing occupancy to increase 0.3 points quarter-over-quarter. On an annual basis, the region recorded demand for 12,786 units while 12,752 units came online concurrently. As a result, occupancy increased 0.1 point year-over-year with the 1st quarter rate landing at 95.4%. Meanwhile, effective asking rents increased 0.6% in 1st quarter and were down 0.1% on an annual basis. The average effective asking rent in South Florida as of 1st quarter 2026 sat at $2,569 per month or $2.587 per square foot."

EXPOSURE TIME & MARKETING PERIOD

Exposure time is defined as "An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal." (The Dictionary of Real Estate Appraisal, Appraisal Institute, 2022). Reasonable exposure time is impacted by the aggressiveness and effectiveness of a property's exposure to market participants, availability and cost of financing, and demand for similar investments. Exposure time is best established based the recent history of marketing periods for comparable sales, discussions with market participants and information from published surveys.

The following information was taken into consideration to develop estimates of exposure time and marketing period for the subject property:

EXPOSURE TIME & MARKETING PERIOD

SOURCE	QUARTER	RANGE	AVG	LAST Q	LAST YR
PriceWaterhouse Coopers					
National Pow er Center	1Q 26	3.0 to 12.0	6.5	6.6	6.3
AVERAGE		**3.0 to 12.0**	**6.5**	**6.6**	**6.3**

The availability of acquisition financing factors into exposure time. In recent quarters, financing has been available for well-positioned commercial real estate, particularly for stabilized assets within core MSAs and owner/user deals. For second tier or marginal properties, financing has been available but subject to more stringent requirements. Based on review of the local capital market, we conclude that adequate financing options would have been available to consummate a sale of the property on the date of value.

Exposure Time Conclusion - Retail

The preceding information generally supports an exposure time range from 3 to 12 months for Shopping Center (Community Shopping Center) properties. The subject property is of average quality and is in average condition. Further, the subject has a strong tenant base with national credit tenants. Based on its overall physical and locational characteristics, the subject has above average overall appeal to investors. Considering these factors, a reasonable estimate of exposure time for the subject property is 12 months or less.

Marketing Period Conclusion - Retail

Marketing period is very similar to exposure time, but reflects a projected time period to sell the property, rather than a retrospective estimate. We have reviewed open listings and discussed the market with local participants, and given the nature of the subject property, we feel that a time period of 12 months or less is supported for the subject's marketing period.

Exposure Time Conclusion - Land

Market trends generally support an exposure time range from 6 to 12 months for sites similar to the subject. Similar development sites are scarce in the market due to the built out nature of the area. The location of the

subject, overall development potential, and existing contracts, and interest in the proposed development blocks place downward pressure on the subject's likely exposure time. Based on its overall physical and locational characteristics, the subject site has above average overall appeal to developers. Considering these factors, a reasonable estimate of exposure time for the subject property is 12 months or less.

Marketing Period Conclusion - Land

Marketing period is very similar to exposure time, but reflects a projected time period to sell the property, rather than a retrospective estimate. Having reviewed open listings and discussed the market with local participants, and given the nature of this site, we feel that a time period of 12 months or less is supported for the subject's marketing period.

INTRODUCTION

The highest and best use of an improved property is defined as that reasonable and most probable use that will support its highest present value. The highest and best use, or most probable use, must be legally permissible, physically possible, financially feasible, and maximally productive. This section develops the highest and best use of the subject property As-Vacant and As-Improved.

AS-VACANT ANALYSIS

Legal Factors

The legal factors that possibly influence the highest and best use of the subject site are discussed in this section. Private restrictions, zoning, building codes, historic district controls, and environmental regulations are considered, if applicable to the subject site. Permitted uses of the subject's TC (Town Center) zoning were listed in the Zoning Analysis section and include a variety of commercial and residential uses. The potential use that meets the requirements of the legal permissibility test is mixed-use development.

Physical & Locational Factors

Regarding physical characteristics, the subject site is irregular in shape and has level topography with good access and good exposure. The subject is surrounded by commercial development. Of the outright permitted uses, physical and locational features best support mixed-use development for the site's highest and best use as-vacant.

Feasibility Factors

The financial feasibility of those uses that meet the legal and physical tests discussed is analyzed further in this section. Supply and demand conditions affect the financial feasibility of possible uses. Indicators of feasibility, which typically indicate favorable or non-favorable supply and demand conditions, include construction financing and proposed projects. In recent quarters there has been new development throughout the subject's market area. This is evidence that new construction is feasible at this time. Financial feasibility factors generally support near-term development of subject site.

As-Vacant Conclusion

The subject property is currently an operating mall that is part of a larger planned mixed-use development. The property has received a conceptual master plan approval for redevelopment with improvements including multifamily, retail, medical office, and hospitality, with portions of the property being maintained for streets, parking, retention, and green space. Additionally, Blocks 1 and 12 have received specific site plan approval for development of multifamily with supporting retail, while site plan approvals for Blocks 2 and 11 to be improved with multifamily and retail are in process. As reflected in similar redevelopment projects in the region of large infill sites with existing improvements, the subject's highest and best use as-vacant is a mixed-use development consistent with the approved master plan, which is anticipated to retain portions of the existing retail improvements aligned with the overall project plan. Such redevelopment projects have illustrated that large transitional sites similar to the subject are both financially feasible and maximally productive, recognizing that the ultimate improvements may vary and be modified over the course of the project life as supply/demand dynamics per use adjust to market factors. The most likely potential purchasers of the subject include local, regional, and national investment / development groups consistent with well-known Investors/Developers active in the region such as Falcone Group, Codina Partners, Stiles Development, Grass River, The Related Group, Terranova Development Partners, to name a few, along with various other development entities active in the region.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

AS-IMPROVED ANALYSIS

Legal Factors

The subject property, as-improved, is a shopping center community shopping center project that is zoned TC (Town Center). The subject's improvements represent a legal, conforming use. The legal factors influencing the highest and best use of the property support the subject's use as-improved.

Physical & Locational Factors

The physical and locational characteristics of the subject improvements have been previously discussed in this report. In summary, the subject's improvements were constructed in 1959-1994 and have a remaining economic life of 30 years based on our estimate. The project is of average quality construction and in average condition, with adequate service amenities. The subject improvements as-improved are sufficiently supported by site features including its irregular, level topography, good access and good exposure. Further, the subject's location supports the subject improvements as-improved with similar and homogeneous developments present in the subject's immediate market area. Physical and locational factors influencing the highest and best use of the property support the subject's use as-improved.

Alternative Uses & Feasibility Factors

In addition to legal and physical considerations, analysis of the subject property as-improved requires the treatment of two important issues: 1) consideration of alternative uses for the property; and 2) the marketability of the most probable use. The five possible alternative treatments of the property are demolition, expansion, renovation, conversion, and the subject's use as-proposed.

- **Demolition** Redevelopment plans for the existing mall include demolition of majority of the shop/inline retail space to reposition the subject as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. No further demolition is appropriate.
- **Expansion** The subject property comprises approximately 97.95 acres (4,266,730 SF) and is improved with a community shopping center development. The subject site contains some undeveloped land. Based on our review of the zoning code and review of the master development plans, it appears that expansion is a viable option at this time.
- **Renovation** The subject is being renovated as part of the proposed redevelopment and will be in good condition upon completion. No further renovation is appropriate.
- **Conversion** Conversion is neither appropriate nor applicable to this property.
- **Continued Use "As-Is"** The final option is the continued use of the property "As-Is." This is legal, physically possible, financially feasible, and maximally productive. Therefore, continued use as a shopping center, upon completion of the proposed renovation, is considered appropriate.

Among the five alternative uses, the subject's use as-improved is supported to be its Highest and Best Use.

Marketability Factors

In general supply/demand conditions and immediate market area trends support viable short and long-term operations of the subject's use as-improved. Based on our analysis of the subject property and investigation of comparable properties in the marketplace, the subject is considered to have good overall tenant appeal with a relatively strong competitive position for attracting and retaining tenants. Based on our analysis of the subject property and investigation of substitute properties in the marketplace, the subject is considered to have good overall buyer appeal with a relatively strong competitive position if the asset was exposed to the open market.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

As-Improved Conclusion

Based on the previous discussion, the highest and best use of the subject property as-improved is concluded to be complete the proposed redevelopment for lifestyle/power center use in conjunction with the proposed mixed-use development of the surrounding blocks.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

INTRODUCTION

The following presentation of the appraisal process deals directly with the valuation of the subject property. The following paragraphs describe the standard approaches to value that were considered for this analysis.

INCOME APPROACH

The Income Approach is based on the premise that properties are purchased for their income producing potential. It considers both the annual return on the invested principal and the return of the invested principal. This valuation technique entails careful consideration of contract rents currently in place, projected market rents, other income sources, vacancy allowances, and projected expenses associated with the efficient operation and management of the property. The relationship of these income estimates to property value, either as a single stream or a series of projected streams, is the essence of the income approach. The two fundamental methods of this valuation technique include Discounted Cash Flow and Direct Capitalization.

- **Discounted Cash Flow (DCF)**
  The DCF analysis models a property's performance over a buyer's investment horizon from the date of acquisition through the projected sale of the property at the end of the holding period. Net cash flows from property operations and the reversion are discounted at a rate reflective of the property's economic and physical risk profile.
- **Direct Capitalization**
  This method analyzes the relationship of one year's stabilized net operating income to total property value. The stabilized net operating income is capitalized at a rate that implicitly considers expected growth in cash flow and growth in property value over a buyer's investment horizon. The implied value may be adjusted to account for non-stabilized conditions or required capital expenditures to reflect an as is value.

Characteristics specific to the subject property warrant that this valuation technique is developed. Development of the Income Approach is a specific scope requirement of this assignment. The subject is an investment property; therefore, the Income Approach represents the decision making process of knowledgeable buyers and sellers of this property type. Discounted Cash Flow and Direct Capitalization analysis are both applicable and developed within this analysis. The resulting opinions of value are reconciled into an opinion of value by the Income Approach for Blocks 14-17 and 11A. A discount sellout analysis is developed for valuation of the overall subject.

SALES COMPARISON APPROACH

The Sales Comparison Approach is based on the principle of substitution, which asserts that no one would pay more for a property than the value of similar properties in the market. This approach analyzes comparable sales by applying transactional and property adjustments in order to bracket the subject property on an appropriate unit value comparison. The sales comparison approach is applicable when sufficient data on recent market transactions is available. Alternatively, this approach may offer limited reliability because many properties have unique characteristics that cannot be accounted for in the adjustment process.

Characteristics specific to the subject property warrant that this valuation technique to be developed. Development of the Sales Comparison Approach is a specific scope requirement of this assignment. Sufficient sales data is available to provide a credible value estimate by the Sales Comparison Approach. Based on this reasoning, the Sales Comparison Approach is presented within this appraisal. This approach was utilized to value the power center as well as the individual land development blocks.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

LAND VALUATION

Development land in the subject marketplace is most often valued utilizing the Sales Comparison Approach. Characteristics specific to the subject property warrant that a site value is developed. Development of the subject site value is a specific scope requirement of this assignment. Land values were derived for each proposed development block for use in our discounted sellout analysis.

COST APPROACH

The Cost Approach is a set of procedures through which a value indication is derived for the fee simple estate by estimating the current cost to construct a reproduction of (or replacement for) the existing structure, including an entrepreneurial incentive or profit; deducting depreciation from the total cost; and adding the estimated land value. Adjustments may then be made to the indicated value of the fee simple estate in the subject property to reflect the value of the property interest being appraised. For investment properties, this valuation technique is most often relied upon as a test of financial feasibility for proposed construction.

Characteristics specific to the subject property do not warrant that this valuation technique is developed. Development of the Cost Approach is not a specific scope requirement of this assignment. The Cost Approach has limited applicability due to the age of the improvements and lack of market based data to support an estimate of accrued depreciation. Based on the preceding information, the Cost Approach will not be presented.

RECONCILIATION OF VALUE CONCLUSIONS

The Income (Discounted Cash Flow & Direct Capitalization) and Sales Comparison approaches are used to value the subject property, which will be reconciled into the final opinion of market value in the Analysis of Value Conclusions section.

The subject property consists of an operating retail center plus surrounding development land that is to be subdivided and developed for mixed-use. We have valued the subject property as a whole via a discounted cash flow analysis which incorporates the retail cash flows and the sell-off of the individual land blocks. We will first analyze the retail component to estimate its annual cash flows.

INTRODUCTION

The Income Approach is based on the premise that properties are purchased for their income producing potential. It considers both the annual return on the invested principal and the return of the invested principal. This valuation technique entails careful consideration of contract rents currently in place, projected market rents, other income sources, vacancy allowances, and projected expenses associated with the efficient operation and management of the property. The relationship of these income estimates to property value, either as a single stream or a series of projected streams, is the essence of the income approach. The two fundamental methods of this valuation technique include Discounted Cash Flow and Direct Capitalization.

Discounted Cash Flow (DCF)
The DCF analysis models a property's performance over a buyer's investment horizon from the current as is status of the property, to projected stabilization of operations and through the projected sale of the property at the end of the holding period. Net cash flows from property operations and the reversion are discounted at a rate reflective of the property's economic and physical risk profile.

Direct Capitalization
This method analyzes the relationship of one year's stabilized net operating income to total property value. The stabilized net operating income is capitalized at a rate that implicitly considers expected growth in cash flow and growth in property value over a buyer's investment horizon. The implied value may be adjusted to account for non-stabilized conditions or required capital expenditures to reflect an as is value.

Given the appraisal problem and defined scope of work, the following table summarizes the value scenarios and Income Approach methods developed within this appraisal report:

INCOME APPROACH VALUE SCENARIOS

VALUE	METHODS USED	
SCENARIO	DCF	DIRECT CAP
As-Is Market Value	✓	✓

Discounted Cash Flow and Direct Capitalization analysis are both applicable and developed within this analysis. The resulting opinions of value are correlated into a final value when multiple methods are applied to the same scenario. It is noted, these scenarios were used only for the power center component.

Income Approach Framework
The following identifies the primary sections and order in which the Income Approach is developed.

- Overview of Contract Rents
- Market Rent Analysis
- Cash Flow Risk Analysis
- Income & Expense Analysis
- Investment Market Analysis
- Discounted Cash Flow
- Direct Capitalization
- Adjustments to Value
- Income Approach Reconciliation

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

OVERVIEW OF CONTRACT RENTS

This section provides an overview of the subject's existing leases, current leasing activity and asking rents for any vacant space as applicable. The rental income conclusion was reconciled taking into account such items as durability of in-place contract rents, lease escalations and market terms as measured by rent comparables.

Rent Roll

The following Rent Roll Summary reflects a breakdown of the individual tenant spaces and a snapshot of in-place contract rents including lease term, expense structure, base rent, expense recovery and total income. The Rent Roll Detail presented in the Addenda provides additional information on the leases including rent schedules, expense recovery methods, renewal options and expiration assumptions.

RENT ROLL SUMMARY As of Analysis Start Date Jul-26

Occupied %		**94.8%**													
Vacant %		**5.2%**													

(1) Current Dollars Annualized (full year amounts include contractual increases, partial year amounts are annualized in all cases for analysis purposes). For tenants who are expected to be in occupancy for less months (due to start date or expiration) rent and recovery amounts are annualized based on current monthly figure x 12, or the next monthly figure x 12.
Base Rent consists of contractual rental revenue only, and omits porters wage and percentage rent.

Redevelopment plans for the existing mall include demolition of the majority of the shop/inline retail space to reposition the subject as a lifestyle/power center and make room for the mixed-use development planned in the other Blocks. The rent roll above excludes the existing shop space that will be demolished, and reflects the subject upon completion of the proposed renovation. We note that the shop/inline retail space being demolished will provide some interim revenue until the leases expire and/or the spaces are demolished. However, the revenue will be largely offset by the costs of operating, including high insurance, security, and cleaning costs. Therefore, we have not included any additional contributory interim income in our cash flow for the shop/inline space that is coming offline in 3rd Quarter 2026 and will be demolished.

Upon completion, the retail component within Blocks 11A and 14-17 will include 516,942 square feet of NRA; including a 5,600 SF Applebee's restaurant which is part of a ground lease. The retail component includes three freestanding anchors, Macy's (Block 15 - 156,643 SF), JC Penney (Block 16 - 90,251 SF), and Regal Cinemas (Block 17 - 70,718 SF). Junior anchor tenants are located in Block 14 and include TJ Maxx (35,640 SF), Ross Dress for Less (28,145 SF), Old Navy (14,352 SF), DSW (14,037 SF), Florida Technical College (30,017 SF) and Five Below (10,194 SF), and PetSmart (15,693 SF), along with some smaller inline shop tenants. As part of the redevelopment, DSW has downsized from their original space and relocated into Suite 560, and Ross Dress

for Less has backfilled the DSW space. Block 11A will consist of a 1,500 SF quick service restaurant to be leased to Sonic.

A new ground lease with Sonic Drive-In has been executed for Block 11A. The new 20-year lease is a reverse build-to-suit 1,500 SF quick service restaurant in which the developer will contribute $1,500,000 in tenant improvement allowances. PetSmart has also executed a new lease for Suite 905 containing 15,963 SF. The initial lease term is for 10 years and is expected to commence November 2026. The remaining recent leases above are all reflective of renewals and/or relocations of existing tenants. The leases for DSW, Ross Dress for Less, and T Mobile are all relocations as a result of the planned renovations. The base rent for Ross starts at $10.50/SF and escalates to $16.00/SF partially through the first year.

We note that JC Penney exercised a 5-year renewal commencing in December 2022 with a base rent of $4.34/SF. However, the client has indicated that the tenant will be giving the owner consent to redevelop the surrounding area. In exchange, JC Penney has negotiated to pay 4% of sales in lieu of gross rent. Therefore, the table above reflects no base rent during the relevant term. At the end of this term, JC Penney will revert back to regular contract rent.

Additionally, LA Fitness currently leases Suite 535 (32,000 SF) but will be vacating in June 2027. As part of a lease dispute settlement, the landlord will pay $6,000,000 to the tenant in two equal payments. The first payment was to be made 30 business days after execution of the agreement and is understood and assumed to have already been paid. The second payment of $3,000,000 is to be made within 11 months of the agreement, which is understood to be funded by the holding company rather than the subject P&L. However, we have not made a deduction from the subject valuation within our analysis, as this represents a legal discount outside of the normal property operations. Ownership notes that they are accounting for the remaining payment in a different component of their financial reporting and, therefore, it is excluded from this analysis so it is not double-counted. This valuation is based on the extraordinary assumption that all past, present, and future financial liabilities associated with this settlement are the sole responsibility of the holding company and does not run with the property. In the event the subject property sells, it is assumed the settlement will be fully satisfied by the seller, and will not be carried forward with the property or transferred to any subsequent buyer. If this is not true, then we reserve the right to readdress our value conclusions, which would effectively equate to the amount of the outstanding second payment.

There are several tenants whose current lease terms expire prior to the projected completion date. For those tenants who have favorable renewal options, we have assumed said options are exercised. For the tenants who do not have renewal options, we have projected lease up at market terms.

Rent Roll by Tenant Category

The following table summarizes the subject asset by tenant category based on the specific leasing assumptions built into the Argus cash flow model. The analysis breaks each category down by size and number of spaces, and provides averages for in-place contract rent, expense recovery and total income. Segregation and analysis of the tenant spaces in this manner provides insight into the relative performance of each category, which is meaningful when establishing market rent, vacancy projections and for refinement of leasing assumptions.

(1) Current Dollars Annualized (full year amounts include contractual increases, partial year amounts are annualized in all cases for analysis purposes). For tenants who are expected to be in occupancy for less months (due to start date or expiration) rent and recovery amounts are annualized based on current monthly figure x 12, or the next monthly figure x 12.

Asking Rent

Asking rents for the vacant spaces have not been established.

MARKET RENT ANALYSIS

Having discussed the subject's current income producing capability in detail through an analysis of the subject rent roll, it is appropriate to examine competitive comparable properties within the market. This allows for a comparison of the subject property's contracts to what is attainable in the current market. Risks associated with anomalies between the subject rent roll and current market terms will be addressed in the Cash Flow Risk section that follows the Market Rent Analysis section.

Analysis by Tenant Category

Within the Overview of Contract Rents section, the subject tenant spaces were segregated into tenant categories defined in Argus by correlating Market Leasing Assumptions (MLAs). For each MLA, we provide a specific analysis, described below, as a rent module. In each rent module, we derive an opinion of market rent and correlating lease terms for each MLA included in our analysis.

- **Anchor/Jr. Anchor Analysis** - Comparable Anchor/Jr. Anchor leases are used to derive market rent for the Jr. Anchor, Anchor and Theater MLA categories.
- **Inline Analysis** - Comparable Inline leases are used to derive market rent for the Inline MLA category.

Adjustment Process

Quantitative adjustments are made to the comparable leases. The following adjustments or general market trends were considered for the basis of market rent analysis.

Transactional Adjustments

If warranted, the comparable leases were adjusted for varying lease structures, atypical concessions and market conditions. The adjustment for rent concession equivalency quantifies the differences between market standard free rent and tenant improvement allowances compared to those of the lease transaction, which were divided by the comparable's lease term, and applied to the beginning "face" rent of the comparable lease. The market conditions adjustment is explained at the end of this section.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Property Adjustments — Quantitative percentage adjustments were made for location and physical characteristics such as size, age, condition, exposure and parking ratio. Where possible the adjustments applied are based on paired data or other statistical analysis. It should be stressed that the adjustments are subjective in nature and are meant to illustrate our logic in deriving a value opinion for the subject site.

Tenant Space Adjustments — The lease comparables were further adjusted to the subject to account for tenant space specific characteristics such as size and space functionality.

Transactional market conditions adjustment was based on a review of historical sale data, market participant interviews and review of current versus historical pricing. Based on our research, the following table summarizes the market conditions adjustment applied in this analysis.

MARKET CONDITIONS ADJUSTMENT			
Per Year As Of	June 2026	(As-Is)	2%

The analysis applies an upward market conditions adjustment of 2% annually reflecting the conditions between the oldest comparable lease date up through the effective valuation date.

ANALYSIS OF COMPARABLE ANCHOR/JR. ANCHOR LEASES

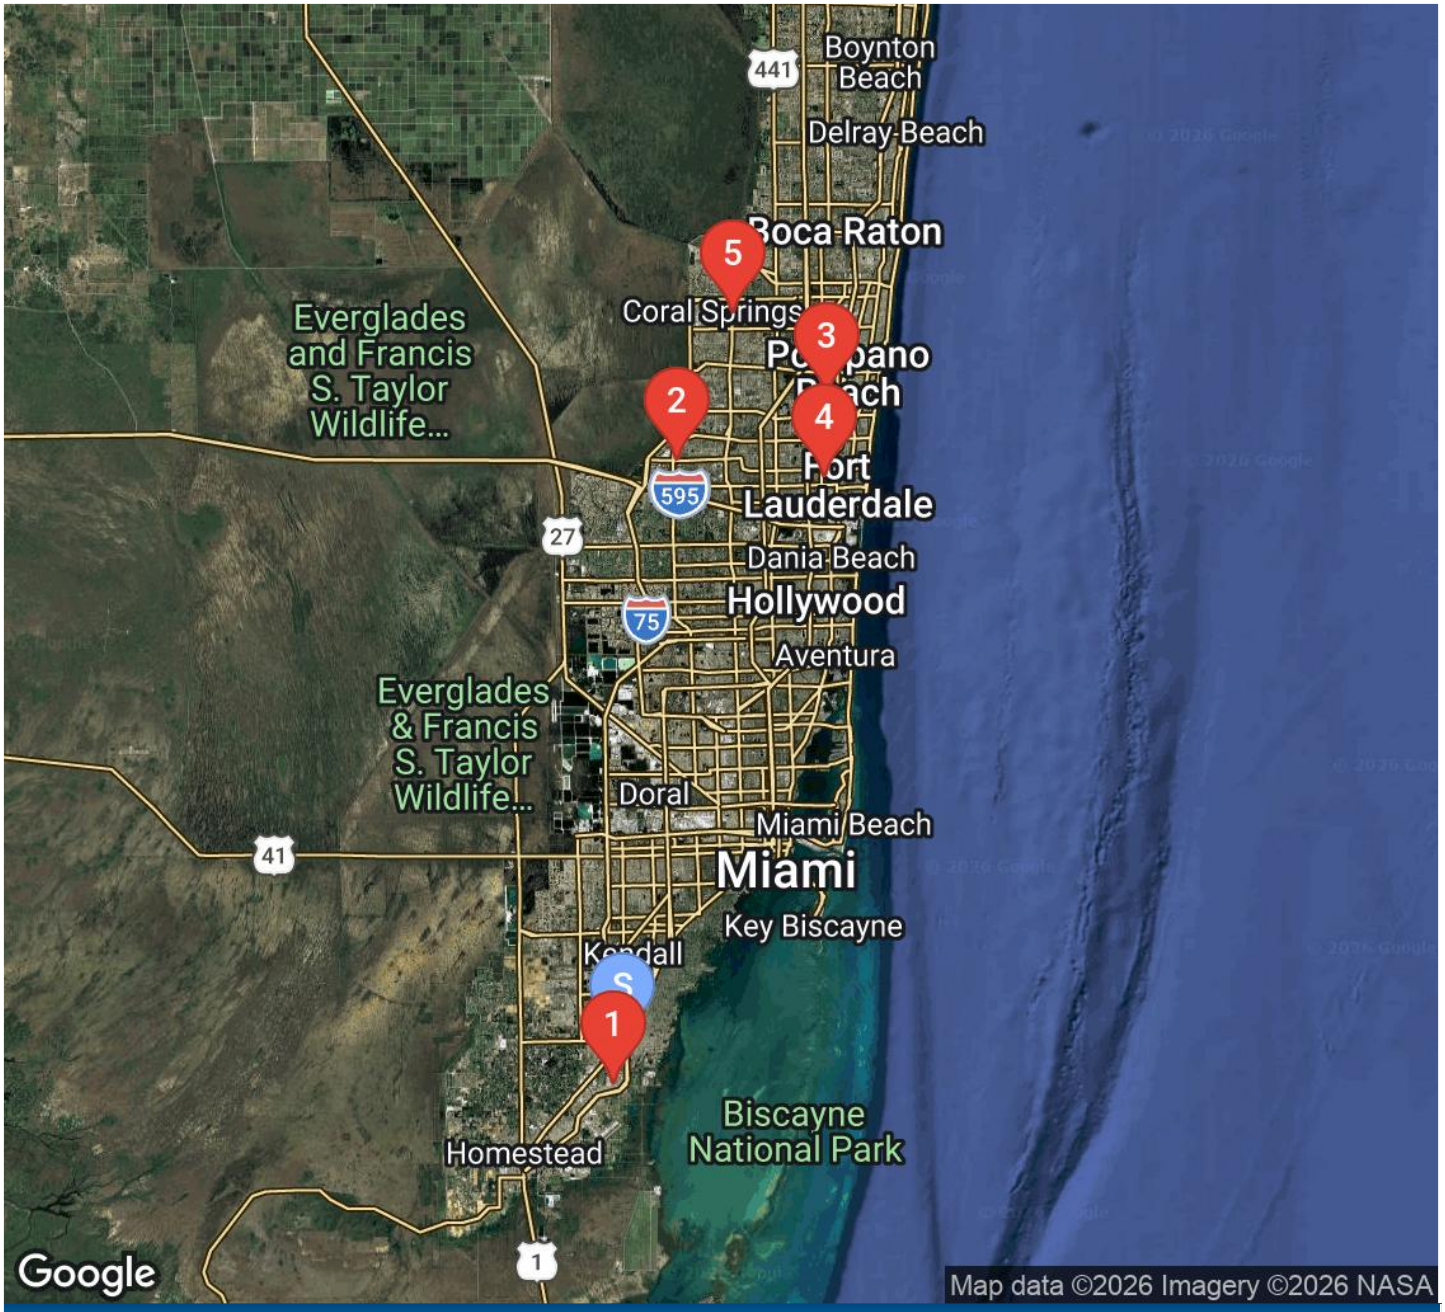

The Anchor/Jr. Anchor lease analysis is used to derive an opinion of market rent and correlating leasing assumptions for the Jr. Anchor, Anchor and Theater MLA categories. The following table includes a summary of the comparables selected for this analysis, including relevant listings and actual leases at competing properties. Following the table is an adjustment grid, analysis and our conclusion. Datasheets containing more details of the comparables are presented later in this section.

Anchor/Jr. Anchor Lease Analysis

The comparables indicate an adjusted lease rate range from $15.02 to $28.50/SF, with a median of $25.12/SF and an average of $23.00/SF. The range of total gross adjustment applied to the comparables was from 3% to 15%, with an average gross adjustment across all comparables of 8%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop a reasonably credible lease rate conclusion. The adjustment process for each comparable is discussed in the following paragraphs.

Discussion of Adjustments

Comparable 1 ($28.50/SF adjusted) did not require any transaction adjustments. The comparable is adjusted for market conditions This comparable required a total downward adjustment of -5% for property characteristics. The total gross adjustment applied to this comparable was 15%. The minimal amount of gross adjustments

required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

Comparable 2 ($20.62/SF adjusted) did not require any transaction adjustments. The comparable is adjusted for market conditions This comparable required a total upward adjustment of 5% for property characteristics. The total gross adjustment applied to this comparable was 5%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

Comparable 3 ($15.02/SF adjusted) required a total upward transaction adjustment of $0.31. The comparable is adjusted for market conditions This comparable required a total downward adjustment of -5% for property characteristics. The total gross adjustment applied to this comparable was 7%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants secondary consideration as a value indicator for the subject.

Comparable 4 ($25.75/SF adjusted) required a total upward transaction adjustment of $0.75. The comparable is adjusted for market conditions This comparable did not require any property characteristic adjustments. The total gross adjustment applied to this comparable was 3%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

Comparable 5 ($25.12/SF adjusted) required a total upward transaction adjustment of $0.92. The comparable is adjusted for market conditions This comparable required a total upward adjustment of 5% for property characteristics. The total gross adjustment applied to this comparable was 9%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

ANCHOR/JR. ANCHOR SPACE MARKET RENT CONCLUSION

The comparables indicate an adjusted lease rate range from $15.02 to $28.50/SF, with a median of $25.12/SF and an average of $23.00/SF. Based on the results of the preceding analysis, Comparable 1 ($28.50/SF adjusted), Comparable 2 ($20.62/SF adjusted), Comparable 4 ($25.75/SF adjusted) and Comparable 5 ($25.12/SF adjusted) are given primary consideration for the lease rate conclusion.

The following table summarizes the analysis of the comparable leases and the Anchor/Jr. Anchor market rent conclusion.

Inline Lease Analysis

The comparables indicate an adjusted lease rate range from $32.50 to $49.64/SF, with a median of $45.90/SF and an average of $42.90/SF. The range of total gross adjustment applied to the comparables was from 1% to 10%, with an average gross adjustment across all comparables of 6%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop a reasonably credible lease rate conclusion. The adjustment process for each comparable is discussed in the following paragraphs.

Discussion of Adjustments

Comparable 1 ($49.64/SF adjusted) required a total downward transaction adjustment of -$2.75. This is an active listing and no market conditions adjustment is necessary. This comparable required a total downward adjustment of -5% for property characteristics. The total gross adjustment applied to this comparable was 10%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its

applicability for this analysis. Overall this comparable warrants secondary consideration as a value indicator for the subject.

Comparable 2 ($32.50/SF adjusted) did not require any transaction adjustments. The comparable is adjusted for market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total gross adjustment applied to this comparable was 10%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

Comparable 3 ($40.40/SF adjusted) required a total upward transaction adjustment of $0.40. The comparable is adjusted for market conditions. This comparable did not require any property characteristic adjustments. The total gross adjustment applied to this comparable was 1%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

Comparable 4 ($46.06/SF adjusted) required a total upward transaction adjustment of $0.48. The comparable is adjusted for market conditions. This comparable required a total downward adjustment of -5% for property characteristics. The total gross adjustment applied to this comparable was 6%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants secondary consideration as a value indicator for the subject.

Comparable 5 ($45.90/SF adjusted) required a total upward transaction adjustment of $0.90. The comparable is adjusted for market conditions. This comparable did not require any property characteristic adjustments. The total gross adjustment applied to this comparable was 2%. The minimal amount of gross adjustments required for this comparable suggests it is similar to the subject, increasing its applicability for this analysis. Overall this comparable warrants primary consideration as a value indicator for the subject.

INLINE SPACE MARKET RENT CONCLUSION

The comparables indicate an adjusted lease rate range from $32.50 to $49.64/SF, with a median of $45.90/SF and an average of $42.90/SF. Based on the results of the preceding analysis, Comparable 2 ($32.50/SF adjusted), Comparable 3 ($40.40/SF adjusted) and Comparable 5 ($45.90/SF adjusted) are given primary consideration for the lease rate conclusion.

The following table summarizes the analysis of the comparable leases and the Inline market rent conclusion.

(1) Current Dollars Annualized (full year amounts include contractual increases, partial year amounts are annualized in all cases for analysis purposes). For tenants w ho are expected to be in occupancy for less months (due to start date or expiration) rent and recovery amounts are annualized based on current monthly figure x 12, or the next monthly figure x 12.
(2) Potential rent and recovery at current market levels inflated according to grow th assumptions, reflected on an annual basis.

CASH FLOW RISK ANALYSIS

In the first portion of the income approach, the income producing capability of the subject property was analyzed through an analysis of the rent roll. In the second portion, just concluded, the market rate and lease terms available at other properties were analyzed and appropriate market rates and terms for space within the subject property were developed. This section considers potential risks associated with the cash flow of the subject. These risks could include several factors, all addressed in separate sections that follow. Considerations include above or below market rents, adverse or beneficial lease options, future occupancy for the subject, potential lease terminations, NOI and cash flow growth patterns, the credit of various tenants within the subject as well as a determination of the overall viability of the cash flow. This analysis utilizes conclusions developed in the preceding sections as well as following sections.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Contract vs. Market

In assessing risk, it is important to measure contractual income versus market. Contractual income that is above market is more risky, while contractual income that is below market is viewed more favorably. The comparison of contract to market is a factor driving investment rates applied in the valuation of the property. Although variances are shown between contractual income and concluded market income, the concluded market rents per category are intended to represent blended averages for each space category within the subject property. Contractual income that is within 5% of market is typically within investor tolerance levels, and if outside that range would be considered an “above market risk” or “below market benefit”.

The following table compares actual contract rents within the subject property with concluded market rents by space category.

CONTRACT V MARKET

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

We recognize that within the subject property, rental rates can vary for many reasons such as space size, interior build out and location within the larger property and other factors. Overall, the contract rents within the subject property are considered to be below market levels primarily due to the anchor spaces, which have long-term renewal options extending well past the holding. Additionally, the contract rents are reflective of operations of a struggling enclosed mall prior to redevelopment. Upon completion of the redevelopment, higher rents are likely to be achieved as the subject will be more modern and appealing to potential and existing tenants.

Lease Options

There are several tenants whose current lease terms expire prior to the projected completion date. For those tenants who have favorable renewal options, we have assumed said options are exercised. For the tenants who do not have renewal options, we have projected lease up at market terms.

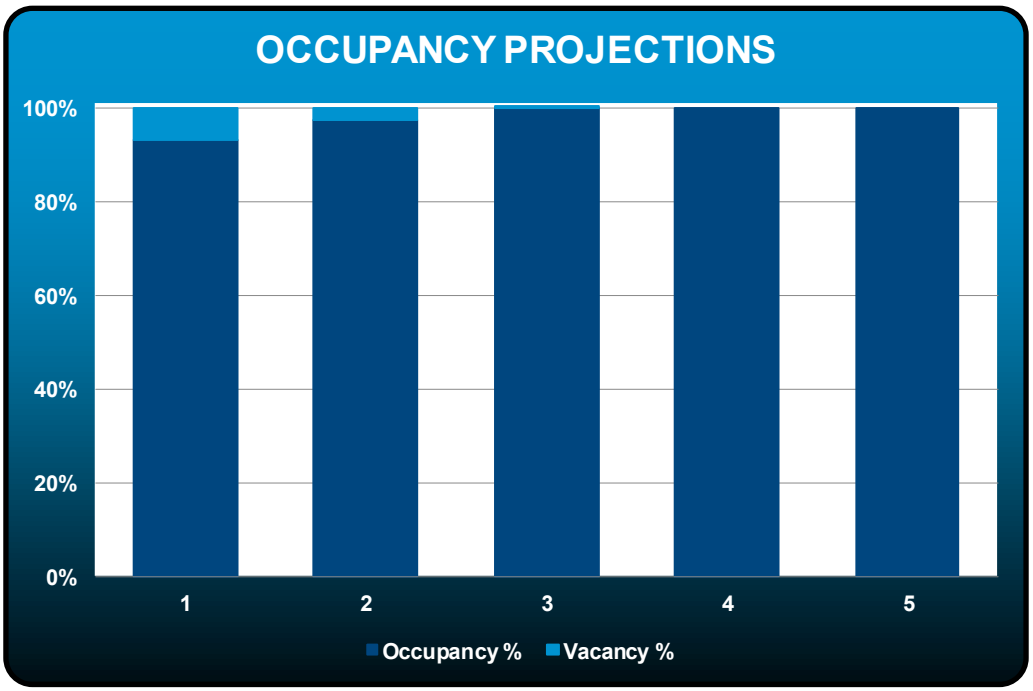

Occupancy Forecast

The following chart details the subject's projected occupancy over the projected holding period based on contractual obligations and our forecasts for vacant and rollover space. This chart relies on conclusions developed in the market analysis section and supported by the comparable rental data and the actual occupancy at the subject property.

Absorption Per Month (SF)	**1,800**

INCOME & EXPENSE ANALYSIS

The preceding section addressed potential risks associated with the cash flow of the subject property. Having addressed potential risks, it is appropriate to analyze historical revenues and operating expenses. These are summarized in the following table. Also included on the table are the first year revenue and projected revenue on a stabilized basis:

SUBJECT OPERATING PROJECTIONS

			COLLIERS FORECAST			
YEAR	STABILIZED BUDGET		DCF YR 1		DCF YR 3	
INCOME ITEMS	**TOTAL**	**$/SF**	**TOTAL**	**$/SF**	**TOTAL**	**$/SF**

Expense Reimbursements

Our analysis and conclusions of the subject's expense reimbursements are detailed as follows:

TOTAL REIMBURSEMENT INCOME				
YEAR	TOTAL	$/SF	%EGI	ANALYSIS
STABILIZED BUDGET	$0	-	0.0%	Reimbursements for the triple net leases include: real estate taxes, property insurance, common area maintenance and management fees.
DCF YR 1	$1,028,764	$1.99	15.5%	
DCF YR 3	$1,812,488	$3.51	18.2%	

The subject's existing tenants have a mixture of lease structures ranging from triple net to full service gross. We have applied contract lease terms for all existing tenants. For all new leases, the DCF analysis uses a triple net expense structure where the tenant pays real estate taxes, property insurance, CAM, and management fees through reimbursement to the owner, and the balance of the operating expenses are incurred by the subject owner. These reimbursements were based on the operating expenses that are concluded later in the Income Approach.

Vacancy and Credit Loss

This category was discussed in depth in the market analysis section of this report. Please reference that discussion for a full analysis. Our conclusions incorporated into the cash flow model are summarized in the tables which follow:

VACANCY / CREDIT LOSS ASSUMPTIONS					
	Year 1	Year 2	Year 3	Year 4	Year 5
Year Ending	Jun-27	Jun-28	Jun-29	Jun-30	Jun-31
Vacancy Loss	3.00%	3.00%	3.00%	3.00%	3.00%
Credit Loss	1.00%	1.00%	1.00%	1.00%	1.00%

Analysis of Operating Expenses

The operating expenses for the subject property were presented previously. The following chart summarizes comparable expenses.

EXPENSE COMPARABLES

Conclusion of Operating Expenses

In the following section we discuss the individual expense conclusions for the subject property.

EXPENSE ANALYSIS & CONCLUSIONS

REAL ESTATE TAXES

	SUBJECT			EXPENSE COMPS		
YEAR	TOTAL	$/SF	%EGI	COMP	$/SF	%EGI
STABILIZED BUDGET	$1,195,970	$2.31	6.8%	1	$6.14	13.3%
DCF YR 1	$832,277	$1.61	12.5%	2	$4.62	21.4%
DCF YR 3	$1,007,055	$1.95	10.1%	3	$3.59	17.6%
				4	$3.16	7.2%

ANALYSIS

Please refer to the Assessment and Taxes section of the report for more details.

PROPERTY INSURANCE

	SUBJECT			EXPENSE COMPS		
YEAR	TOTAL	$/SF	%EGI	COMP	$/SF	%EGI
STABILIZED BUDGET	$1,193,244	$2.31	6.8%	1	$2.00	4.3%
DCF YR 1	$904,649	$1.75	13.6%	2	$1.66	7.7%
DCF YR 3	$959,742	$1.86	9.6%	3	$1.30	6.4%
				4	$1.69	3.8%

ANALYSIS

This expense includes all premiums and costs incurred for insurance covering structures, public liability, rental value, equipment and bonding of employees. The budgeted amount is believed to be based on the current expense which is a much larger enclosed regional mall. Therefore, we have based our expense projection on the expense comparable information which reflects lifestyle and power centers similar to the subject upon completion.

COMMON AREA MAINTENANCE

	SUBJECT			EXPENSE COMPS		
YEAR	TOTAL	$/SF	%EGI	COMP	$/SF	%EGI
STABILIZED BUDGET	$1,534,172	$2.97	8.8%	1	$2.66	5.7%
DCF YR 1	$1,163,120	$2.25	17.5%	2	$1.87	8.7%
DCF YR 3	$1,233,953	$2.39	12.4%	3	$1.90	9.3%
				4	$4.29	9.8%

ANALYSIS

This consists of all expenses related to the common area maintenance of the subject including the costs of payroll, employee benefits, service contracts, and maintenance materials and supplies purchased for the subject. The conclusion is based on the historical expenses and the expense comparable information.

MANAGEMENT FEES

	SUBJECT			EXPENSE COMPS		
YEAR	TOTAL	$/SF	%EGI	COMP	$/SF	%EGI
STABILIZED BUDGET	$526,155	$1.02	3.0%	1	$1.39	3.0%
DCF YR 1	$199,581	$0.39	3.0%	2	$0.65	3.0%
DCF YR 3	$299,190	$0.58	3.0%	3	$0.55	2.7%
				4	$1.64	3.7%

ANALYSIS

This expense reflects the professional management service for the subject. The conclusion is based on the historical expenses and the expense comparable information.

MISC. NON-REIMBURSABLE

	SUBJECT			EXPENSE COMPS		
YEAR	TOTAL	$/SF	%EGI	COMP	$/SF	%EGI
STABILIZED BUDGET	$34,092	$0.07	0.2%	1	$0.07	0.2%
DCF YR 1	$51,694	$0.10	0.8%	2	$0.10	0.5%
DCF YR 3	$54,842	$0.11	0.5%	3	$0.32	1.6%
				4	$0.42	1.0%

ANALYSIS

This expenses reflect miscellaneous items that are not captured in any of the above expenses, and are not reimbursed by the tenant. The conclusion is based on the historical expenses and the expense comparable information.

TOTAL EXPENSES	LOW	HIGH
SUBJECT HISTORICAL $/SF	$8.67	$8.67
EXPENSE COMPARABLES $/SF	$7.65	$12.27
SUBJECT HISTORICAL %EGI	25.6%	25.6%
EXPENSE COMPARABLES %EGI	25.4%	41.2%
TOTAL EXPENSES $/SF	$6.10	
TOTAL EXPENSES %EGI	47.4%	
TOTAL EXPENSES	**$3,151,321**	

CONCLUSION

Total projected expenses for the subject property increase to $6.80/SF upon stabilization in Year 4. The concluded expenses for the subject are supported by the expense comparables and concluded to be reasonable.

INVESTMENT MARKET ANALYSIS

Development of Capitalization Rate

The going-in capitalization rate, also known as overall rate (OAR), can be determined using several sources and methods. In developing our opinion of OAR, the following techniques were used:

- Comparable Sales (Sales Comparison Approach)
- Supplemental Comparable Sales (Competitive Market)
- Investor Surveys
- Band of Investment Technique

Comparable Sales

The following table presents a summary of the comparable sales used ahead in the Sales Comparison Approach, and the capitalization rates from each of those sales.

CAPITALIZATION RATE COMPARABLES (OAR)

	NAME	CITY	ST	SALE DATE	YR BLT	NRA	$/SF	NOI/SF	CAP RATE
1	Hammock Landing	Melbourne	FL	May 27, 2026	2009-2015	348,931	$225	$18.00	8.00%
2	Pompano Citi Centre	Pompano Beach	FL	December 18, 2025	1971	562,874	$116	$9.55	8.25%
3	Spring Plaza	Bonita Springs	FL	December 5, 2025	1983	195,146	$187	$14.27	7.63%
4	Miracle Marketplace	Miami	FL	November 22, 2024	1989	242,485	$256	$20.99	8.21%
5	Lee Vista Promenade	Orlando	FL	July 10, 2024	2016	313,981	$218	$15.05	6.90%
LOW				July 10, 2024					**6.90%**
HIGH				May 27, 2026					**8.25%**
AVERAGE				July 17, 2025					**7.80%**
MEDIAN				December 5, 2025					**8.00%**
SUBJECT		Cutler Bay	FL		1959-1994	516,942		$6.77	

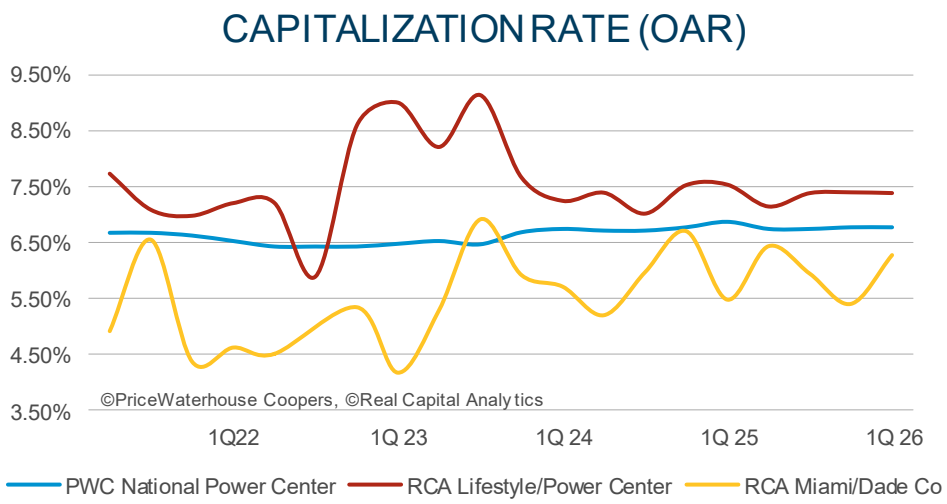

Capitalization rates for the comparable sales presented above range from 6.90% to 8.25%, with an average rate of 7.80%.

Investor Surveys

The potential investor pool for the subject asset includes national, regional and local investors. While all of these groups place emphasis on local cap rates, regional and national investors would also strongly consider national cap rate trends from investor surveys due to the potential to invest in other regions that are offering competitive rates of return.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

The following graph provides a historical illustration of capitalization rate statistics as surveyed by investors that we considered to be relevant to the subject property.

The following table provides the most recent survey results from investors and Our independent market participant interview.

CAPITALIZATION RATE SURVEYS (OAR)

SOURCE	QUARTER	RANGE	AVG	LAST Q	LAST YR
PriceWaterhouse Coopers					
National Power Center	1Q 26	5.50% to 8.00%	6.78%	6.78%	6.88%
Real Capital Analytics					
Lifestyle/Power Center Retail	1Q 26		7.38%	7.40%	7.53%
Miami/Dade Co Retail	1Q 26		6.28%	5.41%	5.49%
AVERAGE		**5.50% to 8.00%**	**6.81%**	**6.53%**	**6.63%**

Band of Investment Technique

Because most properties are purchased with debt and equity capital, the overall capitalization rate must satisfy the market return requirements of both investment positions. Lenders must anticipate receiving a competitive interest rate commensurate with the perceived risk of the investment or they will not make funds available. Lenders also require that the principal amount of the loan be repaid through amortization payments. Similarly, equity investors must anticipate receiving a competitive equity cash return commensurate with the perceived risk or they will invest their funds elsewhere.

To analyze the capitalization rate from a financial position, the Band of Investment Technique is used. Available financing information indicates the following terms:

BAND OF INVESTMENT ASSUMPTIONS

Loan Amortization Period	30 Years
Interest Rate	6.00%
Loan-to-Value (LTV) Ratio	65%
Mortgage Constant	7.19%

Equity dividend rates vary depending upon motivations of buyers and financing terms. The previous terms and an appropriate equity dividend rate are used in the Band of Investments calculations, which are presented on the following chart.

BAND OF INVESTMENT CALCULATION					
Mortgage Component	65%	x	7.19%	=	4.676%
Equity Component	35%	x	7.00%	=	2.450%
Indicated Capitalization Rate					7.126%
INDICATED CAPITALIZATION RATE					**7.13%**

Debt Coverage Ratio Technique

An alternate method to calculating capitalization rates based on financing metrics is the Debt Coverage Ratio method, which uses the relationship between the DCR, LTV, and mortgage constant to conclude to a rate value. Based on the assumptions previously discussed, we have concluded to a DCR of 1.35, an LTV of 65% and a mortgage constant of 7.19%. The following calculation indicates the cap rate conclusion by this method:

DEBT COVERAGE RATIO CALCULATION	
Debt Coverage Ratio	1.35
LTV Ratio	65%
Mortgage Constant	7.19%
INDICATED CAPITALIZATION RATE	**6.31%**

Capitalization Rate Conclusion

Taking all factors into consideration, the following table summarizes the various capitalization rate indicators and provides the final capitalization rate conclusion.

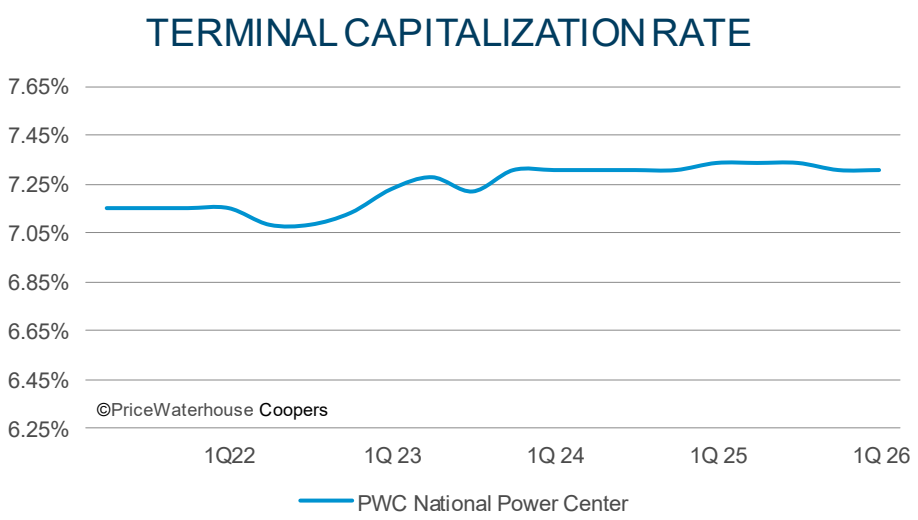

CAPITALIZATION RATE CONCLUSION (OAR)					
SOURCE	**QUARTER**	**RANGE**			**AVG**
Comparable Sales		6.90%	to	8.25%	7.80%
Investor Surveys	1Q 26	5.50%	to	8.00%	6.81%
Band of Investment Technique					7.13%
Debt Coverage Ratio					6.31%
AVERAGE		6.20%	to	8.13%	7.25%
CAPITALIZATION CONCLUSION (LEASED FEE)					**7.00%**

Primary weight is given to the rates extracted from comparable sales, and to the investor surveys. The subject has an average location in South Florida where capitalization rates have generally remained lower than nationwide rates. The subject has a good tenant base comprised of mostly national tenants with new, long-term leases and a rate at the low to middle end of the range is appropriate.

Development of Terminal OAR (Terminal Capitalization Rate)

Investor surveys, discussions with market participants and the subject's investment characteristics were considered in developing our opinion of Terminal OAR. The following graph provides a historical illustration of terminal rate statistics as surveyed by investors that we considered to be relevant to the subject property.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Taking all factors into consideration, the following table summarizes the various terminal rate indicators and provides the final terminal capitalization rate conclusion.

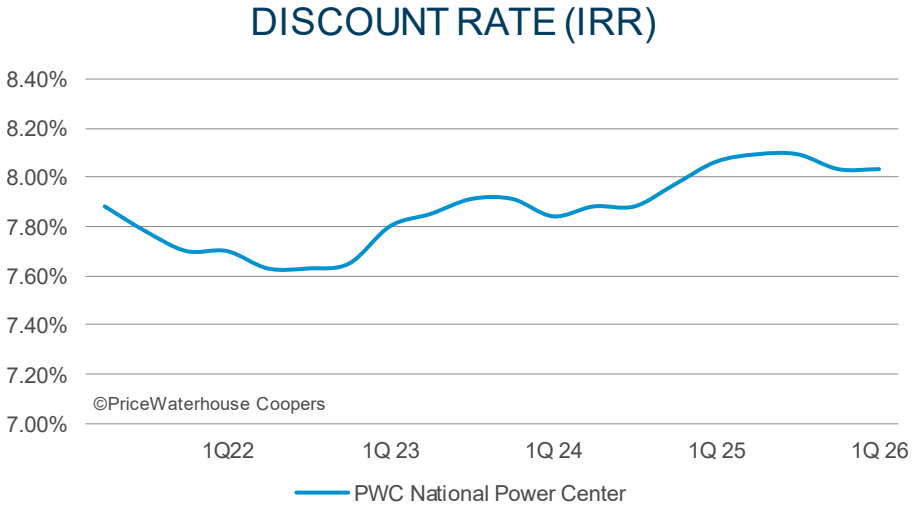

TERMINAL CAPITALIZATION RATE CONCLUSION

SOURCE	QUARTER	RANGE	AVG	LAST Q	LAST YR
PriceWaterhouse Coopers					
National Pow er Center	1Q 26	6.50% to 8.25%	7.31%	7.31%	7.34%
Going-In Vs Terminal Spread			*53 bps*	*53 bps*	*46 bps*
TERMINAL CAPITALIZATION RATE CONCLUSION			**7.25%**		

There is a 25 bps spread between the subject's going-in capitalization rate of 7.00% and the selected terminal capitalization rate above of 7.25%. This spread is less than the ±50 basis point spread indicated by the investor survey results; however, current interest rates are higher than they have been in decades, though are anticipated to trend downward over the holding period, warranting a smaller spread in the terminal cap rate. This is generally supported by our discussions with market participants.

Development of Discount Rate (IRR)

Investor surveys, discussions with market participants and the subject's investment characteristics were considered in developing our opinions of Discount Rates. The following graph provides a historical illustration of discount rate statistics as surveyed by investors that we considered to be relevant to the subject property.

Taking all factors into consideration, the following table summarizes the various discount rate indicators and provides the final discount rate conclusion.

DISCOUNT RATE (IRR) CONCLUSIONS

SOURCE	QUARTER	RANGE	AVG	LAST Q	LAST YR
PriceWaterhouse Coopers					
National Pow er Center	1Q 26	6.00% to 10.00%	8.03%	8.03%	8.06%
Capitalization Vs Discount Spread			*125 bps*	*125 bps*	*118 bps*
DISCOUNT RATE IRR CONCLUSION (CASH FLOW)			**8.00%**		
DISCOUNT RATE IRR CONCLUSION (REVERSION)			**8.00%**		

DISCOUNTED CASH FLOW ANALYSIS

The DCF analysis models a property's performance over a buyer's investment horizon from the current as is status of the property, to projected stabilization of operations and through the projected sale of the property at the end of the holding period. Net cash flows from property operations and the reversion are discounted at rates reflective of the property's economic and physical risk profile. Support for rent and expense growth rates, as well as our assumptions applied in Argus are presented next.

Rent Growth Projection

Below is information provided by forward looking investor surveys that we used to support rent growth:

MARKET RENT CHANGE FORECAST

SOURCE	QUARTER	RANGE	AVG	LAST Q	LAST YR
PriceWaterhouse Coopers					
National Pow er Center	1Q 26	0.00% to 4.00%	1.38%	1.25%	1.25%
AVERAGE		**0.0% to 4.0%**	**1.4%**	**1.3%**	**1.3%**

Recent trends in the local market have shown rent growth in the 5% to 6% range. We have projected a slightly lower growth rate, which considers the overall holding period and mixed tenancy of the subject. The market rent forecast by tenant category is presented below. Our projected rent growth factors the preceding data and current market conditions:

MARKET RENT FORECAST

	Year 1	Year 2	Year 3	Year 4	Year 5

Capital Expenditures

As part of Argus cash flow modeling, we incorporated allowances for reserves for replacement, tenant improvements and leasing commissions, which are summarized below.

CAPITAL EXPENDITURES

Year Ending	Year 1 Jun-27	Year 2 Jun-28	Year 3 Jun-29	Year 4 Jun-30	Year 5 Jun-31
Capital Reserves	$51,694	$53,245	$54,842	$56,488	$58,182
FL Tech LL Work	$5,680,389	$0	$0	$0	$0
Block 15 LL Work	$0	$1,350,000	$0	$0	$0
Block 16 LL Work	$0	$1,800,000	$0	$0	$0
Landscaping & Irrigation	$350,000	$0	$0	$0	$0
Capital Reserves / SF	$0.10	$0.10	$0.11	$0.11	$0.11
FL Tech LL Work / SF	$10.99	$0.00	$0.00	$0.00	$0.00
Block 15 LL Work / SF	$0.00	$2.61	$0.00	$0.00	$0.00
Block 16 LL Work / SF	$0.00	$3.48	$0.00	$0.00	$0.00
Landscaping & Irrigation / SF	$0.68	$0.00	$0.00	$0.00	$0.00
Tenant Improvements	$1,805,580	$3,809,200	$41,203	$0	$0
Leasing Commissions	$814,842	$726,252	$28,395	$0	$0

In addition, deductions were made to account for known capital expenditures items that were anticipated during the holding period. Based on costs provided by ownership, additional capital expenditures modeled in Argus include renovation costs and tenant improvements costs associated with the existing retail space.

Cost of Sale

The cost of selling the property at the end of the investment holding period must be deducted from the capitalized value. These costs include sales commissions, and any other closing costs that would normally be included as a deduction within the local marketplace. Based on our experience in the market and analysis of recent transactions and offerings, we utilized a Cost of Sale at Reversion of 2.00%.

Cash Flow Projection

On the following page is our cash flow projection.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

CASH FLOW

Southland Mall - Jun 2026 DOV (Amounts in USD)

DIRECT CAPITALIZATION

This method analyzes the relationship of one year's stabilized net operating income to total property value. The stabilized net operating income is capitalized at a rate that implicitly considers expected growth in cash flow and growth in property value over a buyer's investment horizon. The implied value may be adjusted to account for non-stabilized conditions or required capital expenditures to reflect an as is value.

The subject property is expected to attain stabilized occupancy in Year 3. The pro-forma reflecting the subject's stabilized operations is presented in the following table.

INCOME & EXPENSE PROFORMA

Year of Forecast	Year 3	$/SF
Base Rental Revenue	$8,421,197	$16.29
Absorption & Turnover Vacancy	($31,948)	($0.06)

Direct Capitalization Conclusion

The following table summarizes our opinion of market value via direct capitalization for the subject property's As-Is Market Value.

DIRECT CAPITALIZATION

Year of Forecast	Year 3	$/SF
Net Operating Income	$6,418,234	$12.42
Capitalization Rate	7.00%	
Capitalized Value	$91,689,057	$177.37
Adjustments to Capitalized Value	($17,190,000)	($33.25)
Adjusted Value	$74,499,057	$144.11
Rounded to nearest $10,000	$74,500,000	$144.12

ADJUSTMENTS TO VALUE

To reflect conditions in effect at the subject property as the date of value, adjustments to the capitalized value were necessary for lease up costs and renovation costs. The following discussion summarizes our support of the value adjustments. These adjustments carry forward to the other valuation sections as applicable to each approach to value.

Lease-Up Analysis

Regarding lease-up costs, the subject property has a current occupancy level of 94.8%, which is below our stabilized occupancy level estimate of 97.0%. As such, lease-up costs associated with the subject achieving stabilization are warranted in arriving at the As-Is Market Value. As previously supported in the Cash Flow Risk Analysis section, we projected a period of 15 months for the vacant spaces to be absorbed, reflecting an average absorption rate of 1,800 per month.

The following table summarizes our analysis of lease-up costs for current vacancies based on how each space was modeled within Argus. When dealing with multiple vacancies, the prospective start dates were staggered based on a reasonable forecast of how the spaces will be absorbed considering size and marketability factors. The lease-up cost analysis calculates rent loss, tenant improvements, leasing commissions and free rent based on our market leasing assumptions previously supported in the Market Rent Analysis section. These costs were adjusted to account for appropriate profit incentive.

LEASE UP COSTS ANALYSIS As of Analysis Start Date 07/1/2026

Ste	Tenant	Total NRA (SF)	Lease Date	Rent Loss (1)	Expense Carry (2)	TI's (3)	Leasing Comm (3)	Free Rent	Sub Total	Profit %	Profit $	Total Cost
Inline MLA

Curable Depreciation

As previously discussed in the Improvement Description section, the subject property has deferred maintenance. Based on our investigation of the issues, these items are appropriately classified as curable depreciation that warrant a cost-to-cure deduction for deriving the As-Is Market Value. This deduction is presented as a lump sum within the Summary of Value Adjustments table ahead and was based on the cost budget provided by ownership.

As of the effective date of value, the developer estimates $350,000 in capital improvements for landscaping and irrigation work plus additional landlord work associated with the development of Suite 829 and Blocks 15 and 16, not including tenant improvement allowances and leasing commissions. As of the effective date, budgeted landlord work costs are projected to be $8,830,389. These cost estimates are treated as a deduction ahead within the Valuation section in development of the As-Is Market Value.

Total Adjustments to Value

A summary of the value adjustments that are applicable for valuation of the subject property are summarized in the following table.

SUMMARY OF VALUE ADJUSTMENTS

ADJUSTMENT ITEM	ADJUSTMENT

Rounded to nearest $10,000

The preceding value adjustments were applied consistently to all approaches to value that were developed in this appraisal.

INTRODUCTION

The Sales Comparison Approach presented below analyzes the retail component in Blocks 11A and 14-17, and does not reflect the larger subject property containing the land development blocks. The Sales Comparison Approach is included as a test of reasonableness of the previously concluded value by the Income Approach for the retail component in Blocks 11A and 14–17.

The Sales Comparison Approach is based on the principle of substitution, which asserts that a buyer would not pay more for a property than the value of similar properties in the market. This approach analyzes comparable sales by applying transactional and property adjustments to bracket the subject property within an appropriate unit value comparison.

UNIT OF COMPARISON

The most relevant unit of comparison is the price per square foot of NRA. This indicator best reflects the analysis used by buyers and sellers in this market for improved properties with similar design and utility.

COMPARABLE SELECTION

We completed a thorough search for similar improved sales in terms of property type, location, physical characteristics, and date of sale. In selecting comparables, emphasis was placed on confirming recent improved sales of properties that match the highest and best use, and buyer/seller profile of the subject property. Overall, the sales selected represent the best comparables available for this analysis.

ADJUSTMENT PROCESS

Quantitative adjustments are made to the comparable sales. The following adjustments or general market trends were considered for the basis of valuation.

Transactional Adjustments

Dollar adjustments to the comparable sales were considered and made when warranted for transactional adjustments in the sequence shown below:

Property Rights Transferred	The valuation of the subject site was completed on a leased fee and fee simple basis. If warranted, leased fee, leasehold and/or partial interest sales were adjusted accordingly.
Financing Terms	The subject property was valued on a cash equivalent basis. Adjustments were made to the comparables involving financing terms atypical of the marketplace.
Conditions of Sale	This adjustment accounts for extraordinary motivation on the part of the buyer or seller often associated with distressed sales.
Expenditures After Purchase	Adjustments were applied if physical conditions warranted expenditures on the part of the buyer to bring the comparable up to functional standards. Most often this adjustment accounts for costs associated with deferred maintenance.
Market Conditions	Market conditions adjustments were based on a review of historical sale data, market participant interviews and review of current versus historical pricing. Based on our research, the following table summarizes the market conditions adjustment applied in this analysis.

MARKET CONDITIONS ADJUSTMENT			
Per Year As Of	June 2026	(As-Is)	2%

The analysis applies an upward market conditions adjustment of 2% annually reflecting the conditions between the oldest comparable sale date up through the effective valuation date.

Property Adjustments

Quantitative percentage adjustments are also made for location and physical characteristics such as size, age, site and parking ratios, access, exposure, quality and condition, as well as other applicable elements of comparison. Where possible the adjustments applied are based on paired data or other statistical analysis. It should be stressed that the adjustments are subjective in nature and are meant to illustrate our logic in deriving a value opinion for the subject property.

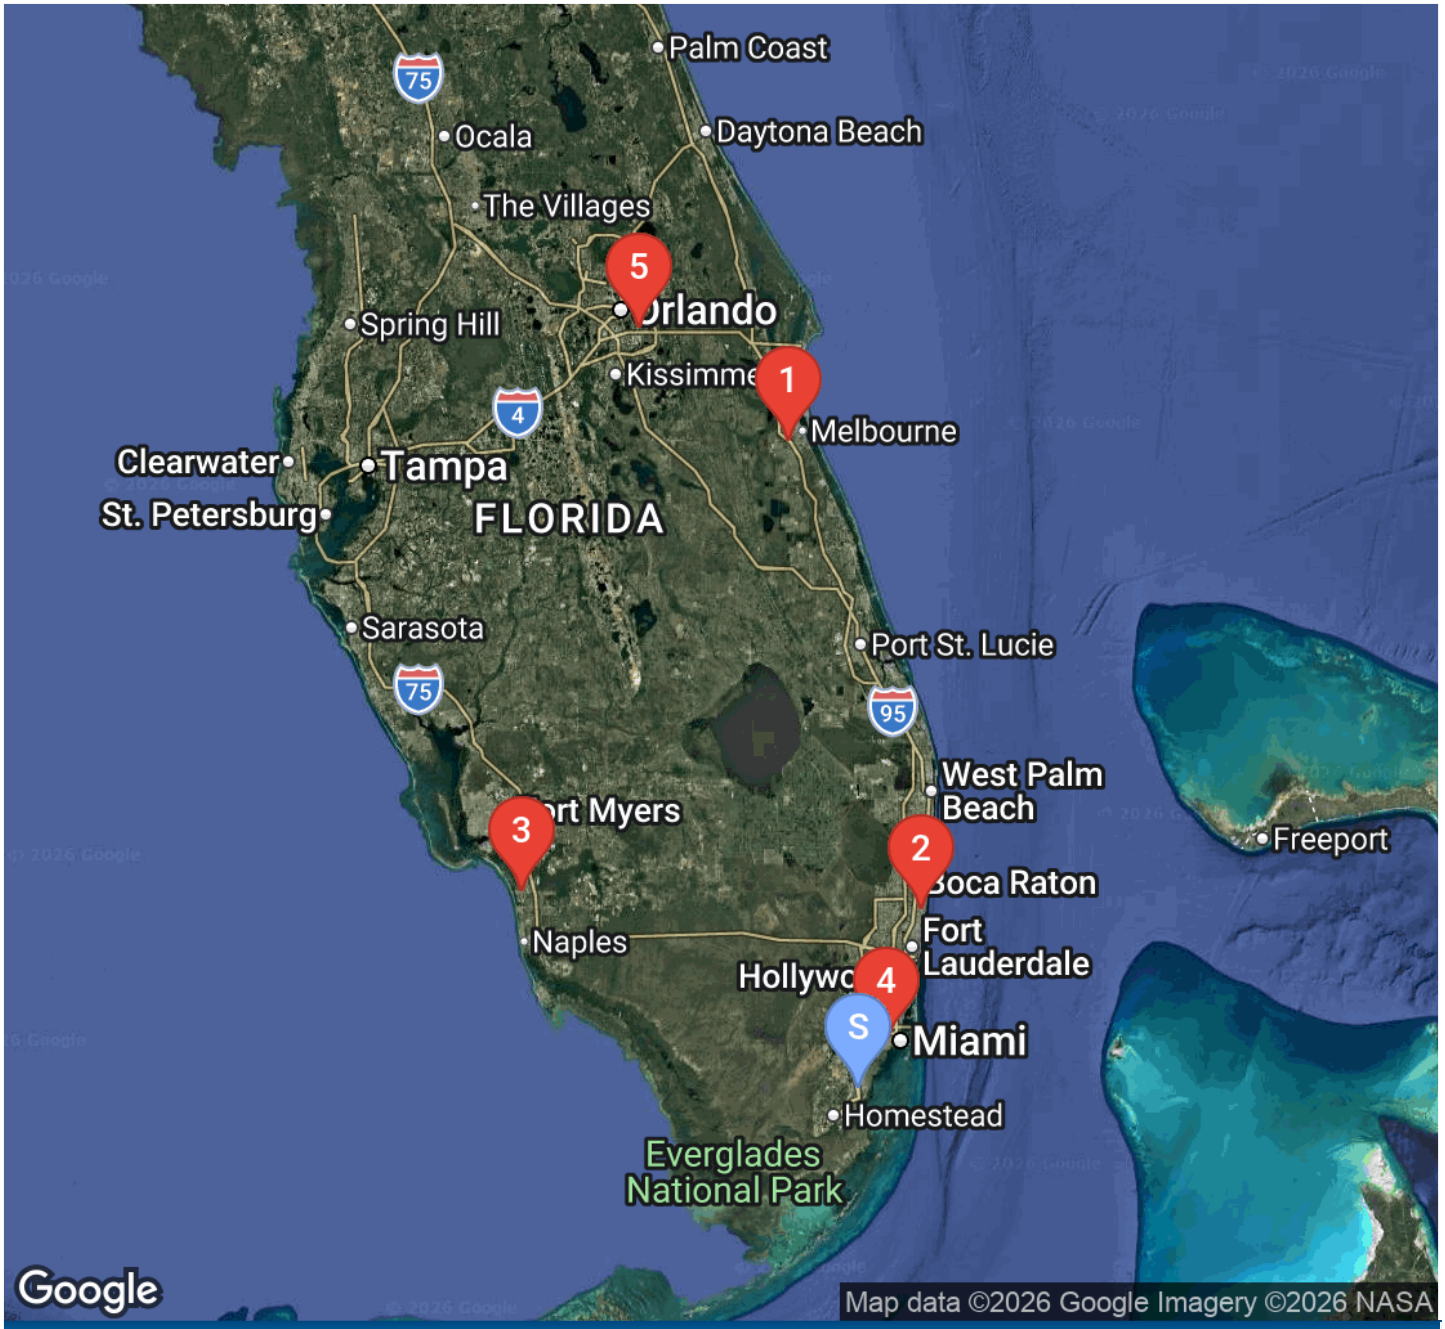

PRESENTATION

The following Sales Summation Table, Location Map and datasheets summarize the improved sales data. Following these items, the comparable sales are adjusted for applicable elements of comparison and the opinion of value by the Sales Comparison Approach is concluded.

REMARKS

Hammock Landing is a 348,931-square-foot power center and one of Florida's top-performing shopping destinations. Located at Brevard County's busiest I-95 interchange, the property is the most visited retail center on the state's Space Coast. The center is anchored by Ross, Marshalls, Petco, HomeGoods, Five Below, Academy Sports, Michaels, and an AMC movie theater. According to multiple press releases, the center was 99% leased and traded at an 8% cap rate. The property sold for $78,500,000 and was acquired by a joint venture between Waterstone Properties Group and DRA Advisors. The sale was recorded as three separate deeds due to separate ownership entities of the seller (Book/Page 10642/448, 10642/461, 10642/429). According to the seller's press release, the sale also included the assumption of a $43.8 million loan although terms were not disclosed and our calls were not returned.

REMARKS

Sterling Value Add Partners, a fund managed by Sterling Organization, sold a 562,874-square-foot retail and office center, Pompano Citi Centre, for $65.2 million, with an in-place cap rate of 8.25%. Pompano Citi Centre was most recently renovated in 2021 and is anchored by Burlington, TJ Maxx, Nordstrom Rack, Ross Dress for Less, PetSmart, and JC Penney. The retail portion is just over 500,000 SF and was 92% leased at the time of sale. The property includes an additional ±60,000 SF of second floor office space that is unfinished and in shell condition which presents future leasing upside. The center is shadow-anchored by Lowe's Home Improvement which is owned separately and not included in the sale.

REMARKS

Lee Vista Promenade is a power center located in Orlando's airport corridor, approximately one mile north of Orlando International Airport. The property comprises seven parcels and thirteen buildings, bounded by Semoran Boulevard (SR 436) to the west, Hazeltine National Drive to the south, and Lee Vista Boulevard to the north. At the time of sale, the property was 95.5% leased. Anchor tenants include Ross Dress for Less, HomeGoods, Michaels, Bealls, Petco, Ulta, and Five Below. The average in-place anchor rent was $13.43 per square foot, with a weighted average lease term (WALT) of 6.3 years. Inline tenants' rents averaged just over $35 per square foot, triple net. The sale also included four ground-leased outparcel restaurants, approximately 8.9 acres of developable pad area, and 9.2 acres of raw land on the eastern fringe of the site. The cap rate presented herein is calculated using the Year 1 NOI from the property's cash flow projection.

SALES COMPARABLE ANALYSIS

Introduction

The comparable sales indicate an adjusted value range from $146 to $203/SF, with a median of $182/SF and an average of $182/SF. The range of total gross adjustment applied to the comparables was from 20% to 38%, with an average gross adjustment across all comparables of 29%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop the subject property's total value. The adjustment process for each comparable sale is discussed in the following paragraphs.

Discussion of Adjustments

Comparable 1 ($203/SF adjusted) did not require any transaction adjustments. This comparable required a total downward adjustment of -10% for property characteristics. Comparable 1 was adjusted downward for its smaller size and superior age/condition. An additional downward adjustment is made for economics as the comparable property has a superior percentage of inline/shop space that generates a higher revenue, whereas the subject has a significant percentage of anchor/department store space that generates lower revenue. An upward adjustment is made to account for the subject's outparcels which contribute a higher value on a $/SF basis than the shopping center space. The total gross adjustment applied to this comparable was 20%. The moderate level of gross adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 2 ($146/SF adjusted) required a total upward transaction adjustment of 1%. This comparable is adjusted upward for improving market conditions. This comparable required a total upward adjustment of 25% for property characteristics. Comparable 2 is adjusted upward for economics to account for its 2nd story office space in shell condition and below-stabilized occupancy at the time of sale. An upward adjustment is made to account for the subject's outparcels which contribute a higher value on a $/SF basis than the shopping center space. The total gross adjustment applied to this comparable was 26%. The moderate level of gross adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

Comparable 3 ($180/SF adjusted) required a total upward transaction adjustment of 1%. This comparable is adjusted upward for improving market conditions. This comparable required a total downward adjustment of -5% for property characteristics. Comparable 3 is adjusted downward for its smaller size and upward for its inferior age/condition. An additional downward adjustment is made for economics as the comparable property has a superior percentage of inline/shop space that generates a higher revenue, whereas the subject has a significant percentage of anchor/department store space that generates lower revenue. An upward adjustment is made to account for the subject's outparcels which contribute a higher value on a $/SF basis than the shopping center space. The total gross adjustment applied to this comparable was 26%. The moderate level of gross adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 4 ($198/SF adjusted) required a total upward transaction adjustment of 3%. This comparable is adjusted upward for improving market conditions. This comparable required a total downward adjustment of -25% for property characteristics. This comparable was adjusted downward for its superior location, smaller size and superior age/condition. An additional downward adjustment is made for economics as the comparable property has a superior percentage of inline/shop space that generates a higher revenue, whereas the subject has a significant percentage of anchor/department store space that generates lower revenue. An upward adjustment is made to account for the subject's outparcels which contribute a higher value on a $/SF basis than the shopping center space. The total gross adjustment applied to this comparable was 38%. The moderate level

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

of gross adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

Comparable 5 ($182/SF adjusted) required a total upward transaction adjustment of 4%. This comparable is adjusted upward for improving market conditions. This comparable required a total downward adjustment of -20% for property characteristics. This comparable was adjusted downward for its superior location, smaller size and superior age/condition. An additional downward adjustment is made for economics as the comparable property has a superior percentage of inline/shop space that generates a higher revenue, whereas the subject has a significant percentage of anchor/department store space that generates lower revenue. An upward adjustment is made to account for the subject's outparcels which contribute a higher value on a $/SF basis than the shopping center space. The total gross adjustment applied to this comparable was 34%. The moderate level of gross adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

PREVIOUS SALE OF SUBJECT PROPERTY

The larger development containing the subject property was acquired in multiple transactions between April 29, 2022 and October 20, 2022 for a combined sale price of $134,000,000. This acquisition included an operating enclosed mall and surrounding land, and was purchased for redevelopment. Since the acquisition, the subject property has received approval for a mixed-use master plan development and extensive entitlements have been secured. These approvals have resulted in a material value change since the acquisition. The previous sale reflects not only an assemblage but also the acquisition of an improved property that does not reflect the highest and best use since the approvals have been received. Based on these factors, the previous sale price does not reflect the current value of the subject property and has only been considered from a historical context given the material impact in change the conceptual master plan approval has had on the asset value.

SALES COMPARISON APPROACH CONCLUSION

The comparable sales indicate an adjusted value range from $146 to $203/SF, with a median of $182/SF and an average of $182/SF. Based on the results of the preceding analysis, Comparable 1 ($203/SF adjusted), Comparable 3 ($180/SF adjusted) and Comparable 5 ($182/SF adjusted) are given primary consideration for the subject’s opinion of value.

The following table summarizes the analysis of the comparables, reports the reconciled price per NRA value conclusion, and presents the concluded value of the subject property.

AS-IS MARKET VALUE				**$147/SF**				**$75,800,000**

[1]Cumulative [2]Additive Rounded to nearest $100,000

As previously discussed, the Sales Comparison Approach has been included as additional support for the value reconciled by the Income Approach. The adjusted comparables reflect sale prices ranging from $178/SF to $198/SF, with an average price of $186/SF. After deductions for lease-up costs, and based on the sales analyzed above, the value by the Income Approach for the retail component appears to be reasonable.

INTRODUCTION

Next, we analyze the value of the surrounding land blocks included in the redevelopment plan. The following presentation of the appraisal process deals directly with the valuation of the subject property. We estimate a Hypothetical As-Is Market Value of the subject's fee simple interest as if the infrastructure improvements are completed as of the effective date. Our block values are estimated using the Sales Comparison Approach, which is recognized as the standard appraisal technique for commercial land. The Cost and Income Capitalization Approaches are not applicable when valuing unimproved commercial land and are therefore excluded. Their exclusion is not detrimental to the reliability or credibility of the final value conclusion.

SALES COMPARISON APPROACH

The Sales Comparison Approach is based on the principle of substitution, which asserts that no one would pay more for a property than the value of similar properties in the market. This approach analyzes comparable sales by applying transactional and property adjustments in order to bracket the subject property on an appropriate unit value comparison. The sales comparison approach is applicable when sufficient data on recent market transactions is available. Alternatively, this approach may offer limited reliability because many properties have unique characteristics that cannot be accounted for in the adjustment process.

LAND VALUATION

Due to the varying characteristics of the subject's land components and comparable datasets, the following land valuation is segmented into two analyses: Land valuation one considers mixed-use with multifamily as the largest driver in HBU, while the second analyses considers various commercial land uses that are typically analyzed on a per square foot basis. Land value is influenced by a number of factors; most prominent of which is development and use potential. These factors, as well as others, are considered in the following analysis.

The subject blocks require some infrastructure improvements to compare with most development sites in the area. The blocks currently do not have interior road access and/or utilities and retention. Our analysis is based on a prospective market value upon completion of the infrastructure. These costs will later be deducted from our discount sellout analysis.

UNIT OF COMPARISON

The most relevant unit of comparison is the price per unit. This indicator best reflects the analysis used by buyers and sellers in this market for land with similar utility and zoning for multifamily in this marketplace.

COMPARABLE SELECTION

A thorough search was made for similar land sales in terms of proximity to the subject, size, location, development potential, and date of sale. In selecting comparables, emphasis was placed on confirming recent sales of commercial sites that are similar to the subject property in terms of location and physical characteristics. Overall, the sales selected represent the best comparables available for this analysis.

ADJUSTMENT PROCESS

Quantitative adjustments are made to the comparable sales. The following adjustments or general market trends were considered for the basis of valuation.

Transactional Adjustments

Dollar adjustments to the comparable sales were considered and made when warranted for transactional adjustments in the sequence shown below:

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Property Rights Transferred	The valuation of the subject site was completed on a fee simple basis. If warranted, leased fee, leasehold and/or partial interest land sales were adjusted accordingly.
Financing Terms	The subject site was valued on a cash equivalent basis. Adjustments were made to the comparables involving financing terms atypical of the marketplace.
Conditions of Sale	This adjustment accounts for extraordinary motivation on the part of the buyer or seller often associated with distressed sales and/or assemblages.
Expenditures After Purchase	Adjustments were applied if site conditions warranted expenditures on the part of the buyer to create a buildable site. Examples include costs for razing pre-existing structures, general site clearing and/or mitigation of environmental issues.
Market Conditions	Market conditions adjustments were based on a review of historical sale data, market participant interviews and review of current versus historical pricing. Based on our research, the following table summarizes the market conditions adjustment applied in this analysis.

MARKET CONDITIONS ADJUSTMENT			
Per Year As Of	June 2026	(Prospective)	3%

The analysis applies an upward market conditions adjustment of 3% annually reflecting the conditions between the oldest comparable sale date up through the effective valuation date.

Property Adjustments

Quantitative percentage adjustments are also made for location and physical characteristics such as size, shape, access, exposure, topography, zoning and overall utility. Where possible the adjustments applied are based on paired data or other statistical analysis. For example, location adjustments are based primarily on review of land values in the market areas for the comparables relative to the subject. It should be stressed that the adjustments are subjective in nature and are meant to illustrate our logic in deriving a value opinion for the subject site.

LAND VALUATION PRESENTATION

The following Land Sales Summation Table, Location Map and datasheets summarize the sales data used in this analysis. Following these items, the comparable land sales are adjusted for applicable elements of comparison and the opinion of site value is concluded.

REMARKS

Located in Little Havana. Site was fully approved for 179 multifamily units or 253,912 buildable SF (inclusive of garage SF) and 267 parking spaces. Mix will include 34 studios, 107 one bedrooms, and 38 two bedroom units. All construction plans were approved by the City of Miami and Miami Dade County. Marketed as shovel-ready. The office buildings that were previously there were demolished in 2023. 5 adjacent parcels totaling 50,769 SF that sold March 2024 for $10,000,000, equal to $196.97/SF. The sites are zoned T6-8-O with a density of 150 units/acre which would allow the construction of 175 units by right. Proposed project will be called 315 Urban Flats. Per South Florida Business Journal: Torres said he would stay with the same density and design approved by previous owner but will build "Havana Enclave" under Live Local Act which offers 75% tax reduction for workforce housing. Torres said the entire building would be workforce housing with rent for people making up to 120% of area median income. Torres said the construction budget would be about $55 million.

LAND SALES ANALYSIS

Introduction

The comparable land sales indicate an adjusted value range from $50,674 to $69,550/Unit, with a median of $58,408/Unit and an average of $58,898/Unit. The range of total net adjustment applied to the comparables was from -5% to 17%, with an average net adjustment across all comparables of 6%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop a reasonably credible opinion of land value. The adjustment process for each comparable land sale is discussed in the following paragraphs.

Discussion of Adjustments

Comparable 1 ($57,039/Unit adjusted) did not require any transaction adjustments. This comparable required a total downward adjustment of -5% for property characteristics. The total net adjustment applied to this comparable was downward by -5%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 2 ($50,674/Unit adjusted) required a total upward transaction adjustment of 2%. This comparable is adjusted upward for improving market conditions. This comparable required a total upward adjustment of 15% for property characteristics. The total net adjustment applied to this comparable was upward by 17%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

Comparable 3 ($53,347/Unit adjusted) required a total upward transaction adjustment of 3%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 3%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 4 ($63,000/Unit adjusted) required a total upward transaction adjustment of 5%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 5%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

Comparable 5 ($59,777/Unit adjusted) required a total upward transaction adjustment of 7%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 7%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 6 ($69,550/Unit adjusted) required a total upward transaction adjustment of 7%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 7%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

CALCULATION OF VALUE

The comparable land sales indicate an adjusted value range from $50,674 to $69,550/Unit, with a median of $58,408/Unit and an average of $58,898/Unit. Based on the results of the preceding analysis, Comparable 1 ($57,039/Unit adjusted), Comparable 3 ($53,347/Unit adjusted), Comparable 5 ($59,777/Unit adjusted) and Comparable 6 ($69,550/Unit adjusted) are given primary consideration for the subject's opinion of land value. It is noted, Blocks 1 & 2 have LOIs that are generally below the adjusted range indicated by the comparables; however, these LOIs have not yet converted to executed contracts, and were negotiated prior to the horizontal development of the project. Generally, presales will be lower due to the perceived risk with development; as the project moves forward, market response is expected to strengthen over time as demand increases with the sale of future development blocks. To account for this, the LOIs also contain true-up clauses that allow an additional amount to be paid to the seller (developer) based on the end product sale price. The true-up is capped at $3.5 million for each block. These conclusions are generally supported by the comparables. We have concluded Blocks 1 & 2 near their LOI price, with remaining blocks based on the comparables. Differences in our $/unit conclusions are based on the individual block density and exposure.

Three of the subject blocks do not have a multifamily component and could not be analyzed on a per unit basis. However, they have similar attributes in terms of density and overall site utility. Therefore, we have analyzed three of these sites using a price per buildable square foot. Please note, Block 5 (Adj) does not have a defined site size, as this commercial space will be adjacent to Block 5, within the central plaza area. The comparables provided an adjusted range of $33.22 to $56.57, with an average of $42.99 per square foot. We have concluded the subject blocks to be within this range. The remaining commercial blocks will be analyzed in the next section, as they are not high-density commercial sites.

The following table summarizes the analysis of the comparables, reports the reconciled price per unit value conclusion, and presents the concluded value of each of the subject's blocks.

LAND VALUATION TWO PRESENTATION

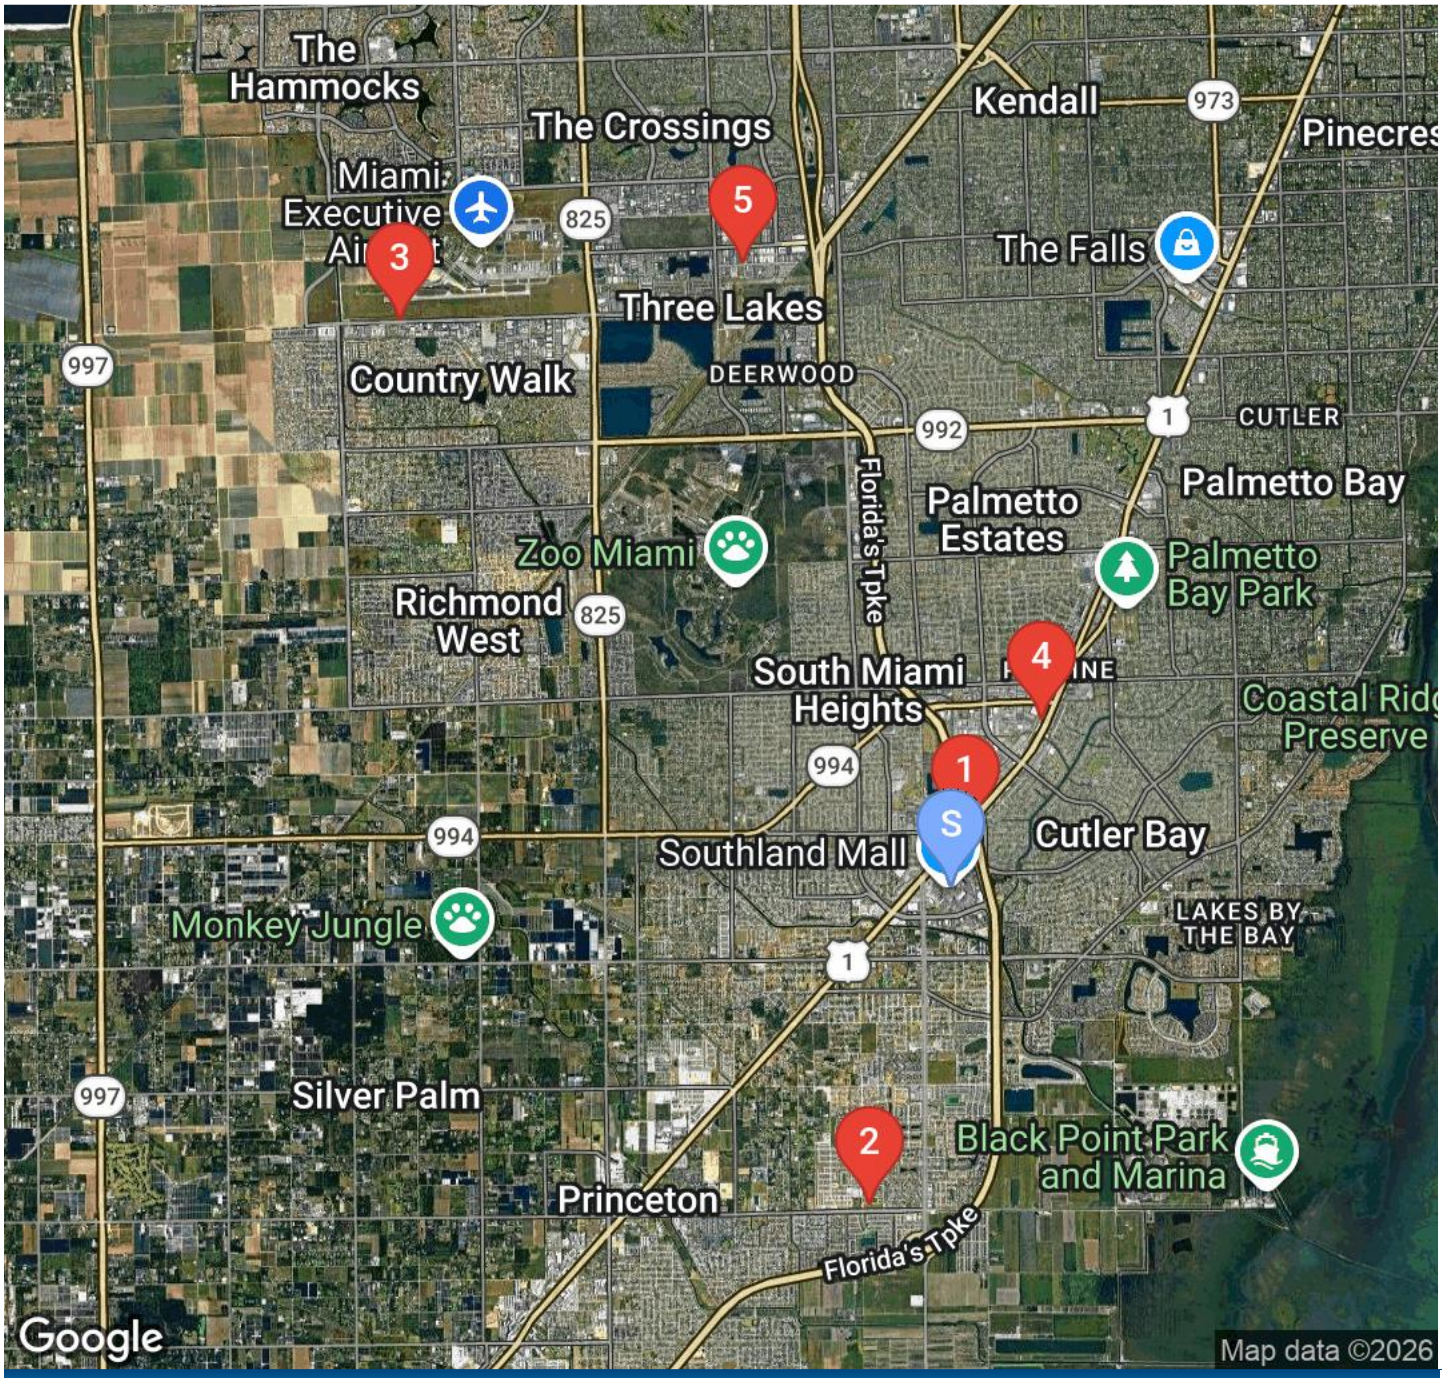

Block 18 is an interior commercial site that will be developed with a single-story retail building. The density of this development is typical of general retail sites with less intense zoning. We have found several similar commercial sites for this portion of the analysis. The following Land Sales Summation Table, Location Map and datasheets summarize the sales data used in this second land sales valuation analysis. Following these items, the comparable land sales are adjusted for applicable elements of comparison and the opinion of site value is concluded.

REMARKS

This vacant site is located on the west side of Dixie Highway, just south of SW 186th Street in Cutler Bay, FL. The site contains 0.58 acres and zoned IU-1. The site was initially developed with a QSR that has since been razed. The site sold in December 2023 for a consideration of $1,650,000. This site was bank-owned at the time of sale; however, the property was exposed to the market for several years prior to this transaction and was considered market oriented.

LAND SALES TWO ANALYSIS

Introduction

The comparable land sales indicate an adjusted value range from $52.54 to $69.58/SF, with a median of $67.76/SF and an average of $63.13/SF. The range of total net adjustment applied to the comparables was from 7% to 19%, with an average net adjustment across all comparables of 13%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop a reasonably credible opinion of land value. The adjustment process for each comparable land sale is discussed in the following paragraphs.

Discussion of Adjustments

Comparable 1 ($69.37/SF adjusted) required a total upward transaction adjustment of 7%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 7%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 2 ($52.54/SF adjusted) required a total upward transaction adjustment of 9%. This comparable is adjusted upward for improving market conditions. This comparable required a total upward adjustment of 5% for property characteristics. The total net adjustment applied to this comparable was upward by 14%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

Comparable 3 ($69.58/SF adjusted) required a total upward transaction adjustment of 9%. This comparable is adjusted upward for improving market conditions. This comparable required a total upward adjustment of 5% for property characteristics. The total net adjustment applied to this comparable was upward by 14%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 4 ($56.38/SF adjusted) required a total upward transaction adjustment of 10%. This comparable is adjusted upward for improving market conditions. This comparable required adjustments for property characteristics, however these resulted in a net adjustment of 0%. The total net adjustment applied to this comparable was upward by 10%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given primary consideration as a value indicator for the subject.

Comparable 5 ($67.76/SF adjusted) required a total upward transaction adjustment of 13%. This comparable is adjusted upward for improving market conditions. This comparable required a total upward adjustment of 5% for property characteristics. The total net adjustment applied to this comparable was upward by 19%. The moderate level of net adjustments required for this comparable indicates that it can be adequately relied upon for valuation of the subject. This comparable is given secondary consideration as a value indicator for the subject.

CALCULATION OF LAND SALES VALUE TWO

The comparable land sales indicate an adjusted value range from $52.54 to $69.58/SF, with a median of $67.76/SF and an average of $63.13/SF. Based on the results of the preceding analysis, Comparable 1 ($69.37/SF adjusted), Comparable 3 ($69.58/SF adjusted) and Comparable 4 ($56.38/SF adjusted) are given primary consideration for the subject's opinion of land value.

The following table summarizes the analysis of the comparables, reports the reconciled price per square foot value conclusion, and presents the concluded value of the subject site.

CALCULATION OF LAND VALUE

	ANALYSIS	ADJUSTMENT				NET	GROSS	OVERALL
COMP	PRICE	TRANSACTIONAL[1]	ADJUSTED	PROPERTY[2]	FINAL	ADJ %	ADJ %	COMPARISON
1	$65.49	2%	$66.80	-10%	**$60.12**	-8%	12%	PRIMARY

DISCOUNTED SELLOUT ANALYSIS

A Discounted Sellout Analysis will be used in which the appraisers will analyze the sale of the power center and proposed land development blocks within the subject development to a single purchaser. We have already determined the most probable sales prices for the tracts on an individual retail basis (the Gross Sales Revenue). This analysis will determine a value on a bulk or whole-sale basis (Discounted Sellout – Present Value to a Single Purchaser).

The "bulk" market value concept is based upon the assumption that all the components will be sold at one time to one purchaser who will resell the individual components. Our projections of both retail selling prices and the time required for the sellout (absorption rate) were based upon an investigation of competing and comparable mixed-use land development projects in the regional market area.

The valuation approach that will be used in this analysis first considered the probable retail sales price of the separate parcels in the subject development (presented earlier). The total gross revenue that would be received from the sale of all the parcels is referred to as the gross sales revenue. All holding and marketing costs are then subtracted from the gross sales revenue. The net sales proceeds are then discounted over the sellout period at returns required by market participants to estimate the discounted or "bulk" market value.

Absorption & Gross Sales Revenue Projection

Redevelopment of the current improvements and horizontal infrastructure work for the proposed blocks began in 2025 and is expected to continue through 2028 according to current plans. The owner/developer has already received conceptual master plan approval for the overall development from the Town of Cutler Bay, and will only need site plan approval for specific development of individual blocks. Block 12 has received site plan approval to date.

The subject will consist of up to 22 separate blocks that will be developed and sold to third-party developers with infrastructure in place. The master developer has indicated Blocks 1, 2, 11, and 12 will be completed first. The remaining blocks are anticipated for completion over the next two years. Our absorption and sellout of these blocks is based on the developer’s construction schedule and supported by trends within the market, and an absorption study provided for review that analyzed multifamily development at the subject site, which is what the majority of the development blocks contain. An annual growth rate of 3% has been applied to all blocks in our analysis beginning in Year 3 of our cash flow, as the block values were analyzed on a prospective basis upon completion.

ESTIMATED GROSS SALES REVENUE

The estimated gross sales revenue is the sum of the unit sales over the length of the sellout period, based on the conclusions of market value for each segment of the subject property provided previously. The total gross sales revenue from the development blocks is projected at $324,395,000. Gross revenue from the retail is projected at $102,627,920, indicating a total gross sales revenue for the project of $427,022,920. From this we will deduct carrying costs and development costs.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

CARRYING COSTS

Property Taxes

During the sell-out the subject owner will be responsible for real estate taxes. As previously discussed in the real estate tax analysis section of this appraisal report, we estimate the subject's real estate tax burden based on the 2025 assessment and millage rate for the subject. We have adjusted the taxes at our projected growth rate of 3% annually. Our analysis takes into consideration the taxes for the retail, which have been deducted from our carrying costs for the development. We also consider the sale of development blocks over the absorption period, and deduct the estimated tax burden from the carrying costs as blocks are sold.

Insurance & Landscape Maintenance Fees

For our analysis, we have estimated insurance and landscaping/maintenance fees based on the developer's pro forma, which totaled $6,000,000 over the entire project. We have allocated these costs over the absorption period; insurance expenses for the power center have already been accounted for in the mall analysis and were removed from this projection.

Sales Commissions/Legal/Closing Costs

The cost to close a sale is concluded at 1% of the gross revenues to account for legal fees, document stamps and related processing costs to selling units. It is assumed that the majority of sales will be handled by an in-house sales team, with some outside buyer's brokers also participating. We estimate the average sales commission will be approximately 1% of gross sales revenue. Total sales and closing costs were projected at 2.0% of gross sales revenue per period.

Development Costs

The subject blocks will require demolition and infrastructure improvements prior to being sold off to third-party developers. Demolition costs were projected in Year 1 and were estimated at $0 based on a quote from Thunder Demolition, Inc. dated August 24, 2023. The decommission of the mall was estimated at $2,467,348 in Year 1. This cost was provided by the developer.

We were provided with the infrastructure cost estimates for the entire project from Kimley-Horn dated August 2023. These costs were reported at $56,584,706. We excluded landscaping and maintenance costs that were included in Kimley-Horn's projection, as these were already considered. Approximately $5,635,750 has already been paid. Our projection is reduced by this amount in the cash flow. The following table displays a breakdown of the total development costs by block.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

HORIZONTAL DEVELOPMENT COSTS

BLOCK #	PROPOSED USE	SIZE (SF)	INFRASTRUCTURE COSTS	ALLOCATED COSTS*		TOTAL INFRASTRUCTURE COSTS	TOTAL COSTS / SF

**Allocation based on site size / Overall size excludes common area blocks.*

Public parking structures that will support the development will also be constructed at a reported cost of approximately $21,000 per parking space. These structures will be located on Blocks 5, 8, and 13. It is noted, Block 8 will be contained within the development of a medical office building and the costs for this garage will be the responsibility of the third-party developer.

The owner/developer reported a total of 1,288 parking spaces will be constructed at a total cost of $27,048,000.

The developer provided a schedule for the development of these improvements. Development began in early 2024 with a completion date in mid-2028. Total development costs are projected at $80,464,304 over this period.

Net Sales Proceeds

Deducting the sellout related expenses from the gross sales proceeds indicates the net sales proceeds for each period during the sellout. This is the predominant number on which a developer bases the gross margin and profit.

Retail Summary

We have included the NOI from the retail that will remain at the subject, along with a reversion. This analysis was presented previously and was included as a line item. The discount rate for this portion was also analyzed previously using Argus and is presented within this section.

Discount Rate Analysis & Selection

Since this is a "bulk" sales analysis that projects the present discounted value to a single purchaser, the periodic cash flows must be discounted at an appropriate rate to provide an adequate return to the investor’s or owner’s debt and equity positions.

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

A discount rate is defined in "The Appraisal of Real Estate, 14th Edition" as an interest rate used to convert future payments or receipts into present value. A discount rate reflects the relationship between income and the value that a market will attribute to that income. The financial and economic concepts implicit in a discount rate are complex and have been the subject of significant analysis for more than a century.

There are four key components, which can be identified within a discount rate, which include the safe rate (e.g., the prevailing rate of insured savings accounts or guaranteed government securities) plus considerations for liquidity, management and risk. When all four components are built into the discount rate, it is typically equal to the internal rate of return a property would realize over an anticipated holding or sell-out period.

The Discount Rate reflects the cost of capital to that developer and return on the investment. Whether self-funded or reliant upon Equity Participants, the capital employed warrants a "return on" that is commensurate with the risk of the investment and available alternative investments. Various forms of debt can be employed to further enhance the yield to the investment through positive leverage depending on the availability of the debt and cost of such debt.

Discount Rate Selection

The discount rate reflects a return on debt and equity capital. A discount rate for a discounted sellout analysis is difficult, if not impossible, to abstract from the market given most projects occur over an extended period of time and incur development over various time frames throughout the life of the development. In order to abstract a rate, the holding costs, selling expenses and financing costs would have to be researched and documented by the investor/owner of the land purchased in a bulk sale and sold individually over an absorption period. The resulting calculated discount rate; however, would be reflective of the discount rate at the date of purchase of the bulk sale and not of the discount rate as of the date of valuation.

For appraisal purposes, the rate should represent the annual rate of return necessary to attract investment capital. The rate is influenced by many considerations, including the degree of apparent risk, market attitudes with respect to future inflation, the prospective rates of return for alternative investment opportunities, historical rates of return earned by comparable properties, supply of and demand for mortgage funds, and the availability of tax shelter. Because rates of return used in income capitalization represent prospective rates, as distinguished from historical rates, special consideration is given to market perceptions of risk and changes in purchasing power.

DISCOUNT RATE (IRR) CONCLUSIONS

SOURCE	QUARTER	RANGE			AVG	LAST YR	SPREAD
RealtyRates.com							
National Rates - Condominiums & Co-Ops	2Q 26

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Ultimately, there is a wide range criterion cited for discounting and while the range is typically between 10% with an upper limit of 30%, participants are typically reluctant to speculate on specific metrics utilized for such projects. Rate trends indicate a slight downward pressure on discount rates, with rates down 31 basis points for mixed-use developments in the Florida/Caribbean market over the past year.

We have also considered current bank and treasury rates, which are summarized in the following chart.

CURRENT BANK & TREASURY RATES

INDEX	CURRENT RATE	LAST MONTH	LAST YEAR
1-Month SOFR	3.59%	3.63%	4.30%
10-Year AAA Banking & Finance	5.56%	5.42%	5.54%
10-Year US Treasury	4.48%	4.32%	4.42%
Federal Discount Rate	3.75%	3.75%	4.50%
Prime Interest Rate	6.75%	6.75%	7.50%

**Updated June 2026*

Based on the data, we have considered a safe rate of 5.00% to be appropriate for a typical real estate investor in today's market. In addition, a premium for liquidity/risk associated with the subject property that takes into consideration local market conditions, project scale, and length of projected sellout period, should be within the 7% to 10% range.

The discount rate estimated herein was based on a return on debt and equity commensurate with alternate investments, though reflecting an added risk for the subject development based on the inherent volatility of real estate markets. Based on current market conditions and risk associated with construction and sellout of the development blocks, a discount rate below the average would be appropriate. We have therefore projected a 13% discount rate for the subject property. The concluded rate is supported by the surveys, and is reasonable considering the proposed development, construction quality, amenities, and location.

Value Conclusion by DCF

The value derived via the discounted sellout analysis represents the sale of the project in its entirety in its current state. The bulk value was considered reasonable based on the number of parcels involved and the risks inherent in selling out the parcels at the projected absorption rate. The sellout provides an as-is market value to a single purchaser. A summary of the cash flow analysis is presented below.

INTRODUCTION

The Reconciliation of Value Conclusions is the final step in the appraisal process and involves the weighing of the individual valuation techniques in relationship to their substantiation by market data, and the reliability and applicability of each valuation technique to the subject property. Understanding the profiles of potential buyers and their typical reliance on each approach to value strongly influences the weighting process.

In the open market, the subject property type would command most interest from national and regional buyers that are actively pursuing similar large investment properties. There is currently steady buyer demand for substitute properties of the subject based on the volume of sale transactions and reports by buyers, sellers and other market participants during confirmation of market transactions. The most probable buyer is a national and regional investor.

Based on the overall quality of the data and analyses, and considering the decision-making process of the typical buyer profile of the subject asset, the Income approach warranted primary emphasis and the Sales Comparison approach warranted secondary emphasis in developing our final opinion of market.

PRESENTATION OF VALUE CONCLUSIONS

Our opinion of value reflects current conditions and the likely actions of market participants as of the date of value. It is based on the available information gathered and provided to us, as presented in this report, and does not predict future performance. Changing market or property conditions can and likely will have an effect on the subject's value.

The following table summarizes our final opinion of the As-Is Market Value of the subject property's leased fee and fee simple interests.

VALUATION SUMMARY - OVERALL SUBJECT PROPERTY	
VALUATION INDICES	**AS-IS MARKET VALUE**
INTEREST APPRAISED	**LEASED FEE**
DATE OF VALUE	**June 30, 2026**
INCOME CAPITALIZATION APPROACH	
Discounted Cash Flow	**$243,300,000**
DCF $/SF (NRA)	$471/SF
Holding Period	10 Years
Internal Rate of Return (Cash Flow)	10.74%
INCOME CONCLUSION	**$243,300,000**
Income Conclusion $/SF	$471/SF
FINAL VALUE CONCLUSION	
FINAL VALUE	**$243,300,000**
$/SF	$471/SF
Exposure Time	12 Months or Less
Marketing Period	12 Months or Less

EXTRAORDINARY ASSUMPTIONS

We are aware of an existing lease dispute settlement with LA Fitness who currently leases Suite 535 (32,000 SF) but will be vacating in June 2027. As part of a lease dispute settlement, the landlord will pay $6,000,000 to the tenant in two equal payments. The first payment was to be made 30 business days after execution of the agreement and is understood and assumed to have already been paid. The second payment of $3,000,000 is to be made within 11 months of the agreement, which is understood to be funded by the holding company rather than the subject P&L. However, we have not made a deduction from the subject valuation within our analysis, as this represents a legal discount outside of the normal property operations. Ownership notes that they are accounting for the remaining payment in a different component of their financial reporting and, therefore, it is excluded from this analysis so it is not double-counted. This valuation is based on the extraordinary assumption that all past, present, and future financial liabilities associated with this settlement are the sole responsibility of the holding company and does not run with the property. In the event the subject property sells, it is assumed the settlement will be fully satisfied by the seller, and will not be carried forward with the property or transferred to any subsequent buyer. If this is not true, then we reserve the right to readdress our value conclusions, which would effectively equate to the amount of the outstanding second payment.

We have been provided with a variety of information from ownership related to the respective size and leasing of the redeveloped improvements, as well as the timeline for development and construction costs. This information is assumed correct for the purpose of our analysis.

The subject property currently has adequate surfacing parking. However, as part of the larger development plan, portions of subject's existing surface parking will be redeveloped and included in the other Blocks. The development plans include multiple parking garages which will serve the subject and surrounding development. Upon completion of the proposed development, the subject will have a mix of surface and garage parking. Our value opinion assumes the subject's parking will be compliant with zoning requirements, and will be adequate to serve the subject's tenants and customers based on market standards for similar retail centers.

This appraisal is subject to the following assumptions and limiting conditions:

- The appraisers may or may not have been provided with a survey of the subject property. If further verification is required, a survey by a registered surveyor is advised.
- We assume no responsibility for matters legal in character, nor do we render any opinion as to title, which is assumed to be marketable. All existing liens, encumbrances, and assessments have been disregarded, unless otherwise noted, and the property is appraised as though free and clear, under responsible ownership, and competent management.
- The exhibits in this report are included to assist the reader in visualizing the property. We have made no survey of the property and assume no responsibility in connection with such matters.
- Unless otherwise noted herein, it is assumed that there are no encroachments, zoning, or restrictive violations existing in the subject property.
- The appraisers assume no responsibility for determining if the property requires environmental approval by the appropriate governing agencies, nor if it is in violation thereof, unless otherwise noted herein.
- Information presented in this report has been obtained from reliable sources, and it is assumed that the information is accurate.
- This report shall be used for its intended purpose only, and by the party to whom it is addressed.
- The appraisers may not be required to give testimony or to appear in court by reason of this appraisal, with reference to the property in question, unless prior arrangements have been made therefore.
- The statements of value and all conclusions shall apply as of the dates shown herein.
- There is no present or contemplated future interest in the property by the appraisers which is not specifically disclosed in this report.
- Without the written consent or approval of the authors neither all, nor any part of, the contents of this report shall be conveyed to the public through advertising, public relations, news, sales, or other media. This applies particularly to value conclusions and to the identity of the appraisers and the firm with which the appraisers are connected.
- This report must be used in its entirety. Reliance on any portion of the report independent of others, may lead the reader to erroneous conclusions regarding the property values. Unless approval is provided by the authors no portion of the report stands alone.
- The valuation stated herein assumes professional management and operation of the buildings throughout the lifetime of the improvements, with an adequate maintenance and repair program.
- The liability of Colliers International Valuation & Advisory Services, its principals, agents, and employees is limited to the client. Further, there is no accountability, obligation, or liability to any third party. If this report is placed in the hands of anyone other than the client, the client shall make such party aware of all limiting conditions and assumptions of the assignment and related discussions. The appraisers are in no way responsible for any costs incurred to discover or correct any deficiency in the property.
- The appraisers are not qualified to detect the presence of toxic or hazardous substances or materials which may influence or be associated with the property or any adjacent properties, has made no investigation or analysis as to the presence of such materials, and expressly disclaims any duty to note the degree of fault. Colliers International Valuation & Advisory Services and its principals, agents, employees, shall not be liable for any costs, expenses, assessments, or penalties, or diminution in value, property damage, or personal injury (including death) resulting from or otherwise attributable to toxic or hazardous substances or materials,

© 2026 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

including without limitation hazardous waste, asbestos material, formaldehyde, or any smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids, solids or gasses, waste materials or other irritants, contaminants or pollutants.

› The appraisers assume no responsibility for determining if the subject property complies with the *Americans with Disabilities Act* (*ADA*). Colliers International Valuation & Advisory Services, its principals, agents, and employees, shall not be liable for any costs, expenses, assessments, penalties or diminution in value resulting from non-compliance. This appraisal assumes that the subject meets an acceptable level of compliance with *ADA* standards; if the subject is not in compliance, the eventual renovation costs and/or penalties would negatively impact the present value of the subject. If the magnitude and time of the cost were known today, they would be reduced from the reported value conclusion.

› An on-site inspection of the subject property was conducted. No evidence of asbestos materials on-site was noted. A Phase 1 Environmental Assessment was not provided for this analysis. This analysis assumes that no asbestos or other hazardous materials are stored or found in or on the subject property. If evidence of hazardous materials of any kind occurs, the reader should seek qualified professional assistance. If hazardous materials are discovered and if future market conditions indicate an impact on value and increased perceived risk, a revision of the concluded values may be necessary.

› A detailed soils study was not provided for this analysis. The subject's soils and sub-soil conditions are assumed to be suitable based upon a visual inspection, which did not indicate evidence of excessive settling or unstable soils. No certification is made regarding the stability or suitability of the soil or sub-soil conditions.

› This analysis assumes that the financial information provided for this appraisal, including rent rolls and historical income and expense statements; accurately reflect the current and historical operations of the subject property.

RE: Appraisal of South Place City Center Mall & Redevelopment

Dear Mr. Miller:

Thank you for considering Colliers International Valuation & Advisory Services, LLC for the assignment identified in the below stated Professional Service Agreement. Please sign one copy of the agreement and return it to me, thereby indicating your authorization for us to proceed with this assignment and your acceptance of the attached Terms and Conditions.

PROFESSIONAL SERVICE AGREEMENT ("Agreement")	
Project	**South Place City Center**, **including both the Southland Mall and South Place City Center Land, located at 20505 South Dixie Highway, Cutler Bay, FL** ("Property")
Parties	Colliers International Valuation & Advisory Services, LLC ("CIVAS") and **American Landmark, LLC** (herein at times referred to as "Client")
Intended User	The appraisal will be prepared for **American Landmark, LLC, and Electra America, Inc.** Intended users include the Client only. No other users are intended. **It should be noted that if this engagement is directly with the owner of the Property, the Appraisal will not be accepted by federally insured lenders due to FIRREA Compliance, limiting the use of this report. Should this potentially impact your source of lenders, we recommend engagement be directed by a Federally Insured Lender.**
Intended Use	The report to be performed under this Agreement ("Appraisal") is intended only for use in Financial Reporting financial reporting for IFRS compliance, inclusive in the Prospectus of ENA 2. The report is not intended for any other use.
Purpose	Market Value (Fair Value) consistent with IFRS Standard according to IFRS 10 as it relates to fair market value according to IFRS 9 (which also refers to IAS 40). The definition of fair value in IFRS is generally consistent with market value, which are discussed in IVS 300 *Valuations for Financial Reporting.*
Type of Appraisal	CIVAS will produce an Appraisal Report in which the appraiser's analysis and conclusions will be summarized within this document.
Rights Appraised	Leased Fee Interest
Date of Value	June 30, 2026

Scope of Work	CIVAS and/or its designated affiliate will provide the Appraisal in accordance with USPAP and the Code of Ethics and Certifications Standards of the Appraisal Institute and State Licensing Laws. CIVAS will research relevant market data and perform analysis to the extent necessary to produce credible appraisal results. Based on our discussions with the Client, the Client has requested the following valuation scenarios: As Is of the individual components As Is of the subject property in it's entirety to a single purchaser, including the existing operating mall and what is anticipated over the interim of the project and remains upon completion of the subdivision and redevelopment. CIVAS anticipates developing the following valuation approaches: › Land Value – of individual blocks / parcels for redevelopment › Cost Analysis – components as applicable to horizontal land development › Sales Comparison Approach › Income Capitalization Approach (including Discounted Cash Flow analysis of the operating mall component and Discounted Sellout of the land development component). The Income analysis will include the following detailed scope: ○ Analyze and estimate the timeline of sellout of land tracts and decommission of portions of the existing mall as the project progresses. ○ Model the mall's estimated net income through the development timeline schedule at a discount rate commensurate with mall valuations (as has been performed) and capitalize the remaining income attributable to the mall following the estimated completion of the land development portion. ○ Discounted sellout analysis of the land development reflecting an anticipated absorption schedule of the land parcels commensurate with the time schedule they will be available and in sync with the timing of the mall leases. ○ Combine the cashflow models of the mall and land development cashflow, as they are discounted at different rates and the land development portions have different carrying costs and costs of sale, some of which will be reflected in adjusted taxes in the mall analysis as the project proceeds. ○ Derive a Discounted Present Value of the Mall Cashflow, Mall residual analysis, and anticipated Sellout of the Land units less costs to complete necessary horizontal infrastructure, secure necessary permits and offsite costs, and costs to maintain parking necessary for on-going operation of the mall component to be remaining. A property tour of the subject property will be performed. The scope of work will be included in the Appraisal. A copy of the Assumptions and Limiting Conditions, which appear in the Appraisal, is available upon request.
Delivery	Draft Appraisal: Delivered fifteen (15) business days from the date of authorization and receipt of property specific information. Final Appraisal: Delivered two (2) days after completion of client review and authorization to deliver final report(s).
Professional Fee	$18,000
Expenses	Fees include all associated expenses
No. of Reports	One (1) Electronic Draft Appraisal and One (1) Electronic Final Appraisal. No printed copies will be delivered to the client.

Retainer	A retainer of 50% of the fee. We will proceed with the assignment upon execution of the contract but will require payment within 2 business days of engagement. To Pay By Check: Please remit all payments to Colliers International Valuation & Advisory Services 26791 Network Place Chicago, IL 60673-1267 **Please include the property name or address on the memo line** Wire Instructions: JP Morgan Chase Bank, NA Chicago, IL 70-2322/719 Account Name: Colliers International Valuation & Advisory Services, LLC Account No. 899559074 ABA No. 021000021 ACH Payment Transit Routing Number: 071000013 Swift code for International Wires ONLY: CHASUS33 **Please include the property name or address in addenda/memo payment information** Please send notification to CIVASAccounting@colliers.com when payment has been sent.
Payment Terms	CIVAS will invoice Client for the Appraisal in its entirety (Less Retainer) at the delivery of the draft report and prior to delivery of the final report. When a full retainer has been paid, invoice and amount due are $0. Final payment is due and payable within five (5) business days upon delivery of the electronic copy of the final report or within thirty (30) days of your receipt of the draft report, whichever is sooner. If a draft report is requested, the fee is considered earned upon delivery of the draft report. If for any reason the client cancels the work before work was completed or for reasons beyond Colliers' control, then the client would pay for an agreed amount for work completed.
Acceptance Date	These specifications are subject to modification if this Agreement is not accepted within one (1) business day from the date of this letter.

Terms and Conditions

The attached Terms and Conditions and Specific Property Data Request are deemed a part of this Agreement as though set forth in full herein. The following is a list of information needed to begin and complete our analysis. The Client signing this Agreement or the party sending the specific property data certifies that all the information provided is accurate and complete as of the date of this request, and that any updates, revisions or additional relevant information that comes into control or possession of the Client prior to the date on which the Appraisal is delivered shall be provided to CIVAS immediately. Please forward with the Agreement.

- Survey with Legal Description & Site Size
- Title Report
- Engineering studies, soil tests or environmental assessments
- Ground lease (if applicable)
- Existing Building or Improvement Plans
- Current County Property Tax Bill
- Details on any Sale, Contract, or listing of the property in the past 3 years
- Capital improvements history (2 years) & budget
- Three year & YTD Income & Expenses, and current budget
- Detailed occupancy report for the past 3 years and YTD
- Detailed current certified rent roll indicating any vacant units and in-place rents
- Details regarding any pending changes to the rent roll including any negotiated side deals to delay or forgive rent payments
- Aged Accounts/Delinquency Report
- Details regarding any concessions

In addition to the items requested above, please forward any additional materials you would consider relevant in the analysis of the subject property.

Reliance Language

The Appraisal is for the sole use of the Client; however, Client may provide only complete, final copies of the Appraisal report in its entirety (but not component parts) to third parties who shall review such reports in connection with the stated Intended Use. CIVAS is not required to explain or testify as to appraisal results other than to respond to the Client for routine and customary questions. Please note that our consent to allow the Appraisal prepared by CIVAS or portions of such Appraisal, to become part of or be referenced in any public offering, the granting of such consent will be at our sole and absolute discretion and, if given, will be on condition that CIVAS will be provided with an Indemnification Agreement and/or Non-Reliance letter, in a form and content satisfactory to CIVAS, by a party satisfactory to CIVAS. CIVAS hereby expressly grants to client the right to copy the Appraisal and distribute it to employees of client and to your accountants/auditors in its entirety (but not component parts) without the need to provide CIVAS with an Indemnification Agreement and/or Non-Reliance letter.

The intended users of the appraisal are American Landmark and Electra, and each of their respective subsidiary entities whose financial statements are consolidated with any of the foregoing named entities, but only in connection with such parties' participation in the Intended Use. The identification of Intended User(s) of the appraisal is to determine the type and extent of research, analysis and reporting appropriate for the assignment. Designation of a party other than Client as an Intended User is not intended to confer upon such party any rights under this Agreement. The intended use of the appraisal is for financial reporting by the Client. The Firm knows

and agrees that the appraisal will be used and/or included in certain quarterly and annual financial statements as of dates in calendar year 2023 of some or all of the Intended Users, including such financial statements as shelf prospectuses or shelf offering reports to be published by any of the said Intended Users, including by way of referral, as well as in any immediate report under Securities Law, 5728-1968 and its regulations which, according to the provisions of the law, the said companies will be required to include. The complete report may also be used by Client and its holding companies as an addendum to public filings on the Tel Aviv Stock Exchange. The appraisal was developed based on, and this report has been prepared in conformance with the Client's appraisal requirements, the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice (USPAP), the Interagency Appraisal and Evaluation Guidelines (December 2, 2010), and the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.

The Appraisal requires CIVAS to submit a Summation of the Appraisal Findings in the form of a Letter of Transmittal along with the Summary of Salient Facts and Special/Limiting Conditions applicable to the Appraisal. This will be completed in conjunction with the Appraisal at the above stated fee.

If you have questions regarding the enclosed, please feel free to contact me. CIVAS appreciates this opportunity to be of service to you on this assignment and looks forward to serving you. If you have additional questions, please contact us.

I, **Jim Miller / American Landmark, LLC**, agree to the above stated terms and authorize Colliers International Valuation & Advisory Services, LLC to prepare the above referenced appraisal.

Date: 5/18/2026

Jim Miller
American Landmark, LLC

Respectfully,

Colliers International Valuation & Advisory Services, LLC

Jerry Gisclair, MAI MRICS
Executive Vice President | US Client Services & Relations

Jerry.gisclair@colliers.com

Terms and Conditions

"T&C"

1) The Appraisal will be subject to Colliers International Valuation & Advisory Services, LLC's ("CIVAS") Assumptions and Limiting Conditions that are incorporated into each appraisal, and any Extraordinary Assumptions and Hypothetical Conditions that may be incorporated into each appraisal.

2) Any capitalized, non-defined words shall have the same meaning as defined in the Agreement to which these T&Cs are attached.

3) Client is defined as the party signing the Agreement and shall be responsible for payment of the fees stipulated in the Agreement. Payment of the fee for the Appraisal is not contingent on the appraised value(s) or the outcome of the report(s). Additional fees will be charged on an hourly basis for any work that may exceed the scope of this proposal, including performing additional valuation scenarios, additional research, and conference calls, meetings, deposition preparation, deposition, trial testimony or travel that may exceed the time allotted by CIVAS for an assignment of this nature. If CIVAS is requested to cease working on the Appraisal for any reason prior to the completion of the appraisal(s), CIVAS will be entitled to bill the Client for the time spent to date at CIVAS' hourly rates for the personnel involved. The Client will be billed a minimum $500 or at a rate of $250 per hour for associate time, $300 per hour for valuation services director, $400 per hour for managing director, and $450 per hour for executive managing director. If the Client delays completion of the assignment beyond ninety (90) days, the fee may be renegotiated. This may result in the total fee exceeding the original agreed fee agreed upon cost.

4) Client agrees to pay all fees and expenses, including attorney's fees, incurred by CIVAS in connection with the collection or attempted collection of the fees and expenses. In the event Client fails to make payments when due and payable, the amount due shall bear interest at 1.5% per month or the maximum rate permitted in the state in which the CIVAS office executing the Agreement is located, whichever is lesser.

5) The fee is due upon delivery of the final report or within thirty (30) days of your receipt of the draft report, whichever is sooner. If a draft is requested, the fee is considered earned upon delivery of our draft report.

6) In the event that either party commences any legal action relating to the provisions of the Agreement, including collection, the prevailing party shall be entitled to its actual attorneys' fees and costs. The Agreement shall be governed by and construed in accordance with the laws of the state where the CIVAS office executing the Agreement is located. The venue of any action arising out of the Agreement shall be the county where the CIVAS office executing the Agreement is located. Client will have up to thirty (30) days from receipt of the Draft Appraisal to review and communicate its review to CIVAS. CIVAS reserves the right to bill Client for additional appraisal efforts that may arise from the Client not responding within with this time period.

7) CIVAS does not make any representation or warranty, express or implied, as to the accuracy or completeness of the information or the state of affairs of the Property furnished to CIVAS by Client. In the event that any such information is inaccurate, misleading or incomplete, CIVAS shall have no responsibility or liability for any matters relating thereto (whether to the Client or to any third party).

8) CIVAS shall have no responsibility for legal matters, questions of survey or title, soil or subsoil conditions, engineering, or other similar technical matters. The Appraisal will not constitute a survey of the Property analyzed.

9) Client shall provide CIVAS with such materials with respect to the Appraisal as requested by CIVAS and which are in the possession or under the control of Client. Client shall provide CIVAS with sufficient access to the Property to be analyzed and hereby grants permission for entry, unless discussed in advance to the contrary.

10) The data gathered in the course of the Appraisal (except data furnished by Client) and the Appraisal prepared pursuant to the Agreement are, and will remain, the property of CIVAS. With respect to data provided by Client, such data shall be confidential, and CIVAS shall not disclose any information identified as confidential furnished to CIVAS. Notwithstanding the foregoing, CIVAS is authorized by Client to disclose all or any portion of the Appraisal and the related data to appropriate representatives of the Appraisal Institute if such disclosure is required to enable CIVAS to comply with the Bylaws and Regulations of such Institute as now or hereafter in effect.

11) Unless specifically noted, CIVAS does not assume any duty to analyze or examine the Property or adjacent property for the possible presence of toxic and/or hazardous substances or materials (including but not exclusive to asbestos, PCB transformers, or other toxic, hazardous, or contaminated substances and/or underground storage tanks (hazardous material), or the cost of encapsulation or removal thereof) and accepts no liability regarding the issue. If such materials exist, CIVAS defers to the expertise of professionals specifically trained in analyzing the cost to remediate, which will not be a part of the appraisal fee proposal. The Appraisal will contain a comprehensive disclaimer to this effect.

12) CIVAS understands that there is no major or significant deferred maintenance in the Property which would require the expertise of a professional cost estimator or contractor. If such repairs are needed, the estimates are to be prepared by others, and are not a part of the fee contemplated in the Agreement.

13) Client acknowledges that CIVAS is being retained hereunder as an independent contractor to perform the services described herein and nothing in the Agreement shall be deemed to create any other relationship between Client and CIVAS. The Agreement shall be deemed concluded and the services hereunder completed upon delivery to Client of the Appraisal discussed herein.

14) Client agrees that its only remedy for losses or damages relating to the Agreement shall be limited to the amount of three times the appraisal fee paid by the Client and in no circumstances shall CIVAS be liable for any losses or damages in excess of this amount. Should the Client, or any other entitled party, make a claim against CIVAS, its directors, officers, employees and other affiliates and shareholders, relating to this engagement or the appraisal(s), the maximum damages recoverable from CIVAS, its directors, officers, employees and other affiliates and shareholders, shall be the amount of funds actually collected by CIVAS under the Agreement, and no claim shall be made for any consequential or punitive damages.

15) If CIVAS or any of its employees receives a subpoena or other judicial notification to produce documents or provide testimony involving the Appraisal in connection with a lawsuit or related proceeding, CIVAS will notify the Client of receipt of the subpoena or notification. However, if CIVAS is not part of the lawsuit or proceedings, Client agrees to compensate CIVAS for the professional time required and to reimburse CIVAS for the expenses incurred in responding to any such subpoena or judicial notification, including any attorneys' fees, as they are incurred. CIVAS is to be compensated at the prevailing hourly rates of the personnel responding to the subpoena or command for testimony.

16) If expert witness testimony is required in connection with the Appraisal, the following hourly rates will apply. The Client will be billed at the rate of $250 per hour for associate time, $350 per hour for valuation services director, $400 per hour for managing director, and $450 per hour for executive managing director. The hourly billings pertain to court preparation, waiting and travel time, document review and preparation (excludes appraisal report) and all meetings related to court testimony.

17) Client shall indemnify and hold CIVAS, its parent, subsidiaries, affiliates, its officers, directors, employees and agents ("CIVAS Indemnities"), fully harmless against all losses, damages, claims, and expenses of any kind whatsoever (including costs and reasonable attorneys' fees), sustained or incurred by a third party as a result of the negligence or intentional acts or omissions of Client (including any failure to perform any duty imposed by law), any misrepresentation, distortion or if Client fails to provide complete and accurate information to CIVAS, for which recovery is sought against the CIVAS Indemnities; however, such obligation to defend and indemnify shall not apply to the extent caused by the negligent act or willful misconduct of CIVAS. Client shall indemnify and hold CIVAS Indemnities harmless from any claims, expenses, judgments or other items or costs arising as a result of the Client's failure or the failure of any of the Client's agents to provide a complete copy of the Appraisal to any third party. LIMITATION OF LIABILITY. EXCEPT FOR THE INDEMNIFICATION PROVISION ABOVE, ANYTHING IN THE AGREEMENT TO THE CONTRARY NOTWITHSTANDING, UNDER NO CIRCUMSTANCES WHATSOEVER SHALL EITHER PARTY BE LIABLE TO THE OTHER FOR ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, OR INCIDENTAL DAMAGES OF ANY KIND WHATSOEVER.

18) CIVAS agrees to maintain Professional Liability Insurance in the amount of $1,000,000 and General Liability insurance in the amount of $2,000,000, as well as Workers Compensation per local regulatory requirements. CIVAS will endeavor to provide Client with written notice regarding any cancellation of any such insurance. CIVAS will provide Client with certificates of insurance naming Client as an additional insured on the General Liability policy upon request.

19) The Appraisal and the name Colliers International Valuation & Advisory Services may not be used in any marketing or investment material or offering memoranda without CIVAS' prior written consent. CIVAS, its employees and appraisers have no liability to any recipients of any prepared material and disclaim all liability to any party other than the Client.

20) Unless CIVAS consents in writing, the Appraisal cannot be used by any party or for any purpose other than the Client for the purposes specified in the Agreement. Should the Client provide a copy of this Appraisal to any person or entity not authorized by CIVAS in writing, Client hereby agrees to hold CIVAS, its directors, officers, employees and other affiliates and shareholders, harmless from all damages, expenses, claims and costs, including any attorney's fees. The Client acknowledges that any opinions and conclusions expressed by the professionals of CIVAS pursuant to the Agreement are made as employees and not as individuals. CIVAS' responsibility is limited to the Client, and the use of the Appraisal or related product by third parties shall be solely at the risk of the Client and/or third parties.

21) The use of this appraisal shall be used only for the purpose as set forth in the Intended Use section of the Agreement. In the event that the client wishes to use this report or portions of this report for any other purpose such as, to become part of or be referenced in, any offering or other material intended for the review of others, or to be submitted to others, will be at the Client's sole and absolute discretion and, if given, will be on condition that CIVAS will be provided with an Indemnification Agreement and/or Non-Reliance letter, in a form and content satisfactory to CIVAS and the Client, by a party satisfactory to CIVAS and the Client. CIVAS does consent to Client submission of the complete Appraisal to rating agencies, loan participants or your accountants/auditors without the need to provide us with an Indemnification Agreement and/or Non-Reliance letter.

Valuation Glossary

Unless specified otherwise, these definitions were extracted or paraphrased from the following sources or publications:

- The Dictionary of Real Estate Appraisal, Seventh Edition, Appraisal Institute, Chicago, Illinois, 2022 (Dictionary).
- Uniform Standards of Professional Appraisal Practice, 2024 Edition (USPAP).
- The Appraisal of Real Estate, Fifteenth Edition, Appraisal Institute, Chicago, Illinois, 2020 (15th Edition).

Absolute Net Lease
A lease in which the tenant pays all expenses including structural maintenance, building reserves, and management; often a long-term lease to a credit tenant. *(Dictionary)*

Ad Valorem Tax
A real estate tax based on the assessed value of the property, which is not necessarily equivalent to its market value. *(15th Edition)*

Arm's-length Transaction
A transaction between unrelated parties who are each acting in his or her own best interest. *(Dictionary)*

As-Is Market Value
The estimate of the market value of real property in its current physical condition, use, and zoning as of the appraisal date. *(Dictionary)*

Assessed Value
The value of a property according to the tax rolls in ad valorem taxation; may be higher or lower than market value, or based on an assessment ratio that is a percentage of market value. *(Dictionary)*

Average Daily Room Rate (ADR)
In the lodging industry, the net rooms revenue derived from the sale of guest rooms divided by the number of paid occupied rooms. *(Dictionary)*

Band of Investment
A technique in which the capitalization rates attributable to components of an investment are weighted and combined to derive a weighted-average rate attributable to the total investment. *(Dictionary)*

Bias
A preference or inclination that precludes an appraiser's impartiality, independence, or objectivity in an assignment. *(USPAP)*

Cash-Equivalent Price
The sale price of a property that is equivalent to what a cash buyer would pay. *(Dictionary)*

Common Area
The total area within a property that is not designed for sale or rental but is available for common use by all owners, tenants, or their invitees, e.g., parking and its appurtenances, malls, sidewalks, landscaped areas, recreation areas, public toilets, truck and service facilities. *(Dictionary)*

Contract Rent
The actual rental income specified in a lease. *(15th Edition)*

Cost Approach
A set of procedures through which a value indication is derived for the fee simple estate by estimating the cost new as of the effective date of the appraisal to construct a reproduction of (or replacement for) the existing structure, including an entrepreneurial incentive; deducting depreciation from the total cost; and adding the estimated land value. The contributory value of any site improvements that have not already been considered in the total cost can be added on a depreciated-cost basis. Adjustments may then be made to the indicated value of the fee simple estate in the subject property to reflect the value of the property rights being appraised. *(Dictionary)*

Curable Functional Obsolescence
An element of depreciation; a curable defect caused by a flaw involving the structure, materials, or design, which can be practically and economically corrected. *(Dictionary)*

Debt Coverage Ratio (DCR)
The ratio of net operating income to annual debt service, which measures the relative ability of a property to meet its debt service out of net operating income; also called *debt service coverage ratio (DSCR).* (*Dictionary)*

Deferred Maintenance
Items of wear and tear on a property that should be fixed now to protect the value or income-producing ability of a property. *(Dictionary)*

Depreciation
In appraisal, a loss in the value of improvements from any cause; the difference between the cost of an improvement on the effective date of the appraisal and the value of the improvement on the same date. *(Dictionary)*

Direct Costs
Expenditures for the labor and materials used in the construction of improvements; also called *hard costs. (Dictionary)*

Discounted Cash Flow (DCF) Analysis
The procedure in which a discount rate is applied to a set of projected income streams and a reversion. The analyst specifies the quantity, variability, timing, and duration of the income streams and the quantity and timing of the reversion, and discounts each to its present value at a specified yield rate. *(Dictionary)*

Discount Rate
A rate of return on capital used to convert future payments or receipts into present value. *(Dictionary)*

Disposition Value
The most probable price that a specified interest in property should bring under the following conditions:

1. Consummation of a sale within a specified time, which is shorter than the typical exposure time for such a property in that market.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider their best interests.
7. An adequate marketing effort will be made during the exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms. *(Dictionary)*

Easement
The right to use another's land for a stated purpose. Access or right-of-way easements may be acquired by private parties or public utilities. Governments may be the beneficiaries of easements placed on privately owned land that is dedicated to conservation, open space, or preservation. *(15th Edition)*

Economic Life
The period over which improvements to real estate contribute to property value. *(Dictionary)*

Effective Age
The age of property that is based on the amount of observed deterioration and obsolescence it has sustained, which may be different from its chronological age. *(Dictionary)*

Effective Date
The date to which an appraiser's analyses, opinions, and conclusions apply; also referred to as the date of value. *(USPAP)*

Effective Gross Income (EGI)
The anticipated income from all operations of the real estate after an allowance is made for vacancy and collection losses and an addition is made for any other income. *(Dictionary)*

Effective Gross Income Multiplier (EGIM)
The ratio between the sale price (or value) of a property and its effective gross income. *(Dictionary)*

Effective Rent
The total base rent, or minimum rent stipulated in a lease, over the specified lease term minus rent concessions - e.g. free rent, excessive tenant improvements, moving allowances, lease buyouts, cash allowances, and other lease incentives. *(15th Edition)*

Eminent Domain
The right of government to take private property for public use upon the payment of just compensation. The Fifth Amendment of the U.S. Constitution, also known as the *takings clause*, guarantees payment of just compensation upon appropriation of private property. *(Dictionary)*

Entrepreneurial Incentive
The amount an entrepreneur expects or wants to receive as compensation for providing coordination and expertise and assuming the risks associated with the development of a project. Entrepreneurial incentive is the expectation of future reward as opposed to the profit actually earned on the project. *(Dictionary)*

Entrepreneurial Profit
A market-derived figure that represents the amount an entrepreneur received for his or her contribution to a past project to compensate for his or her time, effort, knowledge, and risk; the difference between the total cost of a property (cost of development) and its market value (property value after completion), which represents the entrepreneur's compensation for the risk and expertise associated with development. An entrepreneur is motivated by the prospect of future value enhancement (i.e., the entrepreneurial incentive). An entrepreneur who successfully creates value through new development, expansion, renovation, or an innovative change of use is rewarded by entrepreneurial profit. Entrepreneurs may also fail and suffer losses. *(Dictionary)*

Excess Land
Land that is not needed to serve or support the existing use. The highest and best use of the excess land may or may not be the same as the highest and best use of the improved parcel. Excess land has the potential to be sold separately and is valued separately. *(Dictionary)*

Excess Rent
The amount by which contract rent exceeds market rent at the time of the appraisal; created by a lease favorable to the lessor and may reflect superior management, a lease execution in an earlier, stronger rental market, or an agreement of the parties. Due to the higher risk inherent in the receipt of excess rent, it may be calculated separately and capitalized or discounted at a higher rate in the income capitalization approach. *(15th Edition)*

Expense Stop
A clause in a lease that limits the landlord's expense obligation, which results in the lessee paying any operating expenses above a stated level or amount. *(Dictionary)*

Exposure Time
An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. *(USPAP)*

Extraordinary Assumption
An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. Uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis. An extraordinary assumption may be used in an assignment only if:

- It is required to properly develop credible opinions and conclusions;
- The appraiser has a reasonable basis for the extraordinary assumption;
- Use of the extraordinary assumption results in a credible analysis; and
- The appraiser complies with the disclosure requirements set forth in USPAP for extraordinary assumptions. *(USPAP)*

External Obsolescence
A type of depreciation; a diminution in value caused by negative external influences and generally incurable on the part of the owner, landlord, or tenant. The external influence may be either temporary or permanent. There are two forms of external obsolescence: economic and locational. *(Dictionary)*

Fair Market Value
In nontechnical usage, a term that is equivalent to the contemporary usage of *market value*.
As used in condemnation, litigation, income tax, and property tax situations, a term that is similar in concept to market value but may be defined explicitly by the relevant agency or interpreted differently by court precedent. *(Dictionary)*

Feasibility Analysis
A study of the cost-benefit relationship of an economic endeavor. *(USPAP)*

Fee Simple Estate
Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat. *(Dictionary)*

Floor Area Ratio (FAR)
The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area. *(Dictionary)*

Functional Obsolescence
The impairment of functional capacity of improvements according to market tastes and standards. *(Dictionary)*

Functional Utility
The ability of a property or building to be useful and to perform the function for which it is intended according to current market tastes and standards; the efficiency of a building's use in terms of architectural style, design and layout, traffic patterns, and the size and type of rooms. *(Dictionary)*

Furniture, Fixtures, and Equipment (FF&E)
Business trade fixtures and personal property, exclusive of inventory. (Dictionary)

Going-concern
An established and operating business having an indefinite future life. *(Dictionary)*

Going-concern Value
An outdated label for the market value of all the tangible and intangible assets of an established and operating business with an indefinite life, as if sold in aggregate; more accurately termed the *market value of the going concern or market value of the total assets of the business*. *(Dictionary)*

Gross Building Area (GBA)
Total floor area of a building, excluding unenclosed areas, measured from the exterior of the walls of the above-grade area. This includes mezzanines and basements if and when typically included in the market area of the type of property involved. *(Dictionary)*

Gross Leasable Area (GLA)
Total floor area designed for the occupancy and exclusive use of tenants, including basements and mezzanines; measured from the center of joint partitioning to the outside wall surfaces. *(Dictionary)*

Gross Living Area (GLA)
Total area of finished, above-grade residential space area; calculated by measuring the outside perimeter of the structure and includes only finished, habitable, above-grade living space. (Finished basements and attic areas are not generally included in total gross living area. Local practices, however, may differ.) *(Dictionary)*

Highest & Best Use
The reasonably probable use of property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity. The use of

an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid (IVS). *(Dictionary)*

Hypothetical Condition

A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis. *(USPAP)*

Income Capitalization Approach

In the income capitalization approach, an appraiser analyzes a property's capacity to generate future benefits and capitalizes the income into an indication of present value. The principle of anticipation is fundamental to this approach. Techniques and procedures from this approach are used to analyze comparable sales data and to measure obsolescence in the cost approach. *(15th Edition)*

Incurable Functional Obsolescence

An element of depreciation; a defect caused by a deficiency or superadequacy involving the structure, materials, or design that cannot be practically or economically corrected as of the effective date of the appraisal. *(Dictionary)*

Indirect Costs

Expenditures or allowances for items other than labor and materials that are necessary for construction, but are not typically part of the construction contract. Indirect costs may include administrative costs, professional fees, financing costs and the interest paid on construction loans, taxes and the builder's or developer's all-risk insurance during construction, and marketing, sales, and lease-up costs incurred to achieve occupancy or sale. Also called *soft costs*. *(Dictionary)*

Interim Use

The use contemplated by the market participants that the subject real estate can be put to while waiting for certain subsequent factors to occur. *(Dictionary)*

Investment Value

The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market. *(Dictionary)*

Leased Fee Interest

The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversion right when the lease expires. *(Dictionary)*

Leasehold Estate

The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease. *(Dictionary)*

Legal Nonconforming Use

A use that was lawfully established and maintained, but no longer conforms to the use regulations of its current zoning; sometimes known as a legally nonconforming use. *(Dictionary)*

Liquidation Value

The most probable price that a specified interest in property should bring under the following conditions:

1. Consummation of a sale within a short time period.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under extreme compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider to be their best interests.
7. A normal marketing effort is not possible due to the brief exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms. *(Dictionary)*

Market Area

The geographic region from which a majority of demand comes and in which the majority of competition is located. Depending on the market, a market area may be further subdivided into components such as primary, secondary, and tertiary market areas, or the competitive market area may be distinguished from the general market area. *(Dictionary)*

Market Rent

The most probable rent that a property should bring in a competitive and open market under all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by undue stimulus. *(Dictionary)*

Market Study

An analysis of the market conditions of supply, demand, and pricing for a specific property type in a specific area. *(Dictionary)*

Market Value (Most Common Non-FRT)

The most probable price, as of a specific date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell

after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue distress. *(Dictionary)*

Market Value (Interagency Guidelines)

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (*12 CFR, Part 34, Subpart C - Appraisals, 34.42(h))*.

Marketability Analysis

The study of how a specific property is expected to perform in a specific market. A marketability analysis expands on a market analysis by addressing a specific property. *(Dictionary)*

Neighborhood Analysis

The objective analysis of observable or quantifiable data indicating discernible patterns of urban growth, structure, and change that may detract from or enhance property values; focuses on four sets of considerations that influence value: social, economic, governmental, and environmental factors. *(Dictionary)*

Net Net Net Lease

An alternative term for a type of net lease. In some markets, a net net net lease is defined as a lease in which the tenant assumes all expenses (fixed and variable) of operating a property except that the landlord is responsible for structural maintenance, building reserves, and management. Also called *NNN lease, triple net lease*, or *fully net lease. (Dictionary)*

Net Operating Income (NOI)

The actual or anticipated net income that remains after all operating expenses are deducted from effective gross income but before mortgage debt service and book depreciation are deducted. Note: This definition mirrors the convention used in corporate finance and business valuation for EBITDA (earnings before interest, taxes, depreciation, and amortization). *(15th Edition)*

Obsolescence

One cause of depreciation; an impairment of desirability and usefulness caused by new inventions, changes in design, improved processes for production, or external factors that make a property less desirable and valuable for a continued use; may be either functional or external. *(Dictionary)*

Off-site Costs

Costs incurred in the development of a project excluding on-site costs such as grading and construction of the building and other improvements; also called *common costs* or *off-site improvement costs. (Dictionary)*

On-site Costs

Costs incurred for the actual construction of buildings and improvements on a particular site. *(Dictionary)*

Overage Rent

The percentage rent paid over and above the guaranteed minimum rent or base rent; calculated as a percentage of sales in excess of a specified breakeven sales volume. *(15th Edition)*

Overall Capitalization Rate (OAR)

The relationship between a single year's net operating income expectancy and the total property price or value. *(Dictionary)*

Parking Ratio

The ratio of parking area or parking spaces to an economic or physical unit of comparison. Minimum required parking ratios for various land uses are often stated in zoning ordinances. *(Dictionary)*

Personal Inspection

For an appraisal assignment, the appraiser's in-person observation of the subject property performed as part of the scope of work. An appraiser's personal inspection is typically limited to those things readily observable without the use of specialized equipment. A personal inspection is not the equivalent of an inspection by an inspection professional (e.g., a structural engineer, home inspector, or art conservator. *(USPAP)*

Potential Gross Income (PGI)

The total income attributable to property at full occupancy before vacancy and operating expenses are deducted. *(Dictionary)*

Potential Gross Income Multiplier (PGIM)

The ratio between the sale price (or value) of a property and its annual potential gross income. *(Dictionary)*

Present Value (PV)

The value of a future payment or series of future payments discounted to the current date or to time period zero. *(Dictionary)*

Prospective Opinion of Value
A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not achieved sellout or a stabilized level of long-term occupancy. *(Dictionary)*

Qualitative Adjustment
An indication that one property is superior, inferior, or similar to another property. Note that the common usage of the term is a misnomer in that an adjustment to the sale price of a comparable property is not made. Rather, the indication of a property's superiority or inferiority to another is used in relative comparison analysis, bracketing, and other forms of qualitative analysis. *(Dictionary)*

Quantitative Adjustment
In the application of the sales comparison and income capitalization approaches, a numerical (dollar or percentage) adjustment to the sale price, rent, or expense amount of a comparable property to account for the effect on value of a difference between each comparable property and the subject property. *(Dictionary)*

Rentable Area
The amount of space on which the rent is based; calculated according to local practice. *(Dictionary)*

Replacement Cost
The estimated cost to construct, at current prices as of a specific date, a substitute for a building or other improvements, using modern materials and current standards, design, and layout. *(Dictionary)*

Replacement Cost for Insurance Purposes
The estimated cost, at current prices as of the effective date of valuation, of a substitute for the building being valued, using modern materials and current standards, design and layout for insurance coverage purposes guaranteeing that damaged property is replaced with a new property (i.e., depreciation is not deducted). *(Dictionary)*

Reproduction Cost
The estimated cost to construct, at current prices as of the effective date of the appraisal, an exact duplicate or replica of the building being appraised, using the same or similar materials, construction standards, design, layout, and quality of workmanship and embodying all the deficiencies, superadequacies, and obsolescence of the subject building. *(Dictionary)*

Retrospective Value Opinion
A value opinion effective as of a specified historical date. The term *retrospective* does not define a type of value. Instead, it identifies a value opinion as being effective at some specific prior date. Value as of a historical date is frequently sought in connection with property tax appeals, damage models, lease renegotiation, deficiency judgments, estate tax, and condemnation. Inclusion of the type of value with this term is appropriate, e.g., "retrospective market value opinion." *(Dictionary)*

Sales Comparison Approach
The process of deriving a value indication for the subject property by comparing sales of similar properties to the property being appraised, identifying appropriate units of comparison, and making adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered vacant when an adequate supply of comparable sales is available. *(Dictionary)*

Scope of Work
The type and extent of research and analysis in an appraisal or appraisal review assignment. Scope of work includes, but is not limited to:
The extent to which the property is identified;
The extent to which tangible property is inspected;
The type and extent of data researched; and
The type and extent of analysis applied to arrive at opinions or conclusions. *(USPAP)*

Shopping Center Types
Neighborhood Shopping Center: The smallest type of shopping center, generally with a gross leasable area of between 30,000 and 100,000 square feet. Typical anchors include supermarkets. Neighborhood shopping centers offer convenience goods and personal services and usually depend on a market population support of 3,000 to 40,000 people.
Community Shopping Center: A shopping center of 100,000 to 400,000 square feet that usually contains one junior department store, a variety store, discount or department store. A community shopping center generally has between 20 and 70 retail tenants and a market population support of 40,000 to 150,000 people.
Regional Shopping Center: A shopping center of 300,000 to 900,000 square feet that is built around one or two full-line department stores of approximately 200,000 square feet each plus small tenant spaces. This type of center is typically supported by a minimum population of 150,000 people.
Super-Regional Center: A large center of 600,000 to 2.0 million square feet anchored by three or more full-line department stores. This type of center is typically supported by a population area of 300,000 people. *(15th Edition)*

Sum of the Retail Values
The sum of the separate and distinct market value opinions for each of the units in a condominium; subdivision development, or portfolio of properties, as of the date of valuation. The aggregate of retail values does not represent the value of all the units as sold together in a single transaction; it is simply the total of the individual market

value conclusions. An appraisal has an effective date, but summing the sales prices of multiple units over an extended period of time will not be the value on that one day unless the prices are discounted to make the value equivalent to what another developer or investor would pay for the bulk purchase of the units. Also called the *aggregate of the retail values* or *aggregate retail selling price*. *(Dictionary)*

Superadequacy

An excess in the capacity or quality of a structure or structural component; determined by market standards. *(Dictionary)*

Surplus Land

Land that is not currently needed to support the existing use but cannot be separated from the property and sold off for another use. Surplus land does not have an independent highest and best use and may or may not contribute value to the improved parcel. *(Dictionary)*

Tenant Improvements (TIs)

1. Fixed improvements to the land or structures installed for use by a lessee.
2. The original installation of finished tenant space in a construction project; subject to periodic change for succeeding tenants. *(Dictionary)*

Usable Area

The area that is actually used by the tenants measured from the inside of the exterior walls to the inside of walls separating the space from hallways and common areas. *(Dictionary)*

Useful Life

The period of time over which a structure or a component of a property may reasonably be expected to perform the function for which it was designed. *(Dictionary)*

Vacancy and Collection Loss

A deduction from potential gross income *(PGI)* made to reflect income deductions due to vacancies, tenant turnover, and nonpayment of rent; also called *vacancy and credit loss* or *vacancy and contingency loss. (Dictionary)*

Yield Capitalization

A method used to convert future benefits into present value by (1) discounting each future benefit at an appropriate yield rate, or (2) developing an overall rate that explicitly reflects the investment's income pattern, holding period, value change, and yield rate. *(Dictionary)*

Valuation & Advisory Services

Colliers

Accelerating success.

Unlock strategic value with expert valuation services

In today's dynamic business climate, accurate property values are critical to confident decision-making. At Colliers, we deliver precise and data-driven valuations that empower informed real estate investment strategies — whether for acquisitions, financing, or portfolio optimization. Leveraging deep local market intelligence and Colliers' global reach, our experts provide insights into property fundamentals, competitive positioning, and market dynamics — giving investors, lenders, and owners a clear advantage.

We are defined by our unwavering commitment to service excellence, deep market experience, and platform efficiencies that empower our professionals to apply disciplined methodologies and consistently achieve high-quality results that exceed client expectations.

Expertise that drives value

Our professionals bring deep market knowledge and valuation experience across a wide range of asset types, enabling smarter decisions and stronger outcomes. We deliver reliable, industry-leading valuations applying insights powered by proprietary data, advanced tools, and real-time market intelligence.

Integrated platform that empowers performance

Our robust systems — including portfolio management tools and automation technology — streamline production and reporting, allowing our professionals to focus on what they do best: delivering high-impact valuations. This commitment to innovation drives efficiency and consistency across every engagement.

Commitment to service excellence

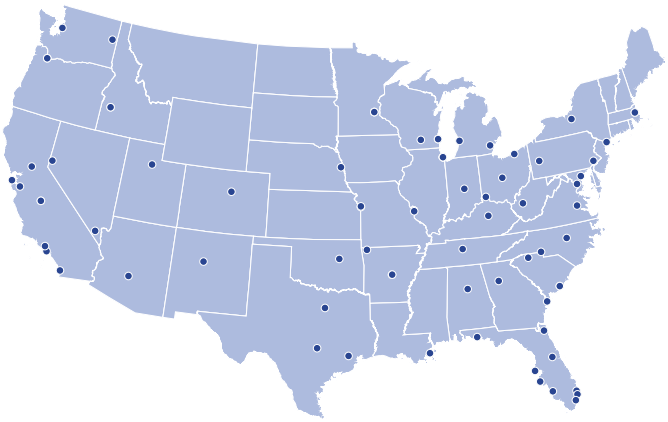

From coast to coast, our disciplined team delivers a consistent, high-quality client experience — marked by fast turnaround times, clear communication, and dependable results. This standard of service reflects our culture of innovation, collaboration, and professionalism.

Local expertise, global platform

450+
licensed appraisers and staff

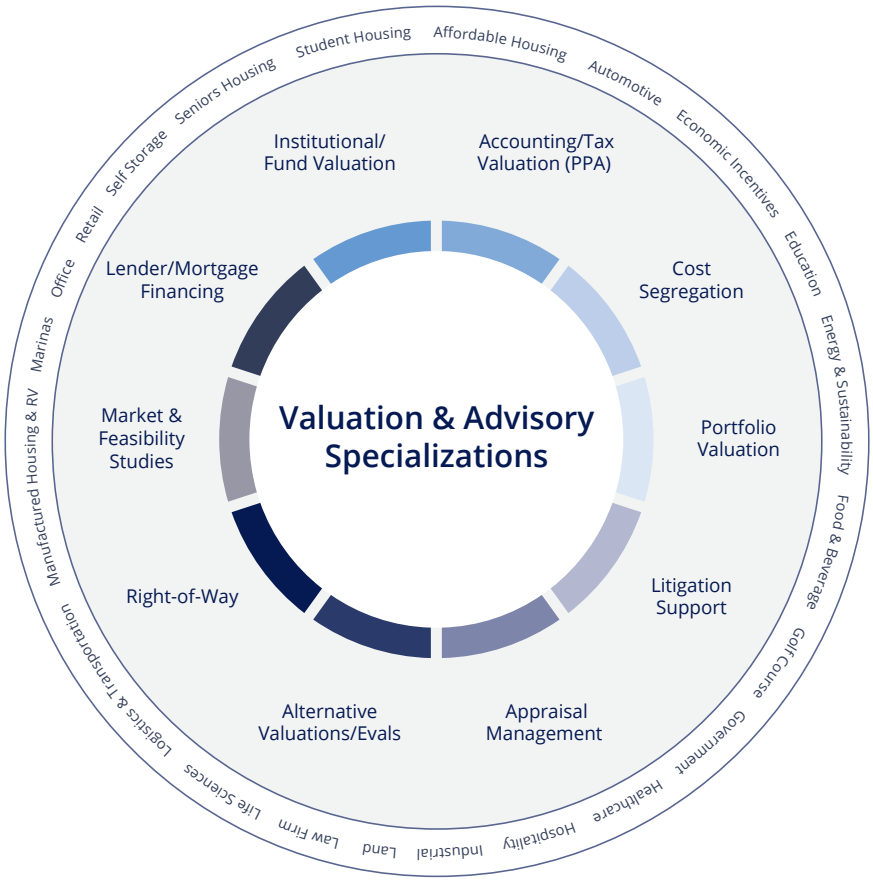

30,000+
assignments completed annually

60+
Valuation & Advisory Services market locations across the country, Puerto Rico and the Caribbean

Expertise across property types and enhanced advisory services

Offering a full suite of valuation and advisory services, our skilled professionals provide custom assessments that help companies and investors make informed investment decisions.

Deep knowledge, broader capabilities

Our valuation professionals possess comprehensive expertise across all major property types nationwide. At the same time, most bring an extensive background in specific asset classes — allowing dedicated specialists to focus deeply on core property types and the market trends that matter most to our clients' bottom line.

Industrial · Hospitality · Manufactured Housing · Multifamily · Self-Storage · Healthcare · Office · Retail

Advisory solutions that go further

Our capabilities extend beyond core and specialized valuations to include advisory services that help clients navigate complex financial scenarios and achieve strategic objectives, including servicing the portfolio and fund valuation requirements for a wide range of institutional investors.
